4-H Boys to Raise \$1000 on Gift Calf

The Nathan Jewelry Store of San Angelo bought Arthur Mund's champion calf at the Stock Show in Angelo last week, and presented it as a gift to the Schleicher 4-H boys to be used to help defray expenses of next year's trip. The gift was made contingent upon the boys raising \$1000 on sale of the calf.

The calf weighs 925 pounds, and the Frozen Foods Co., of Eldorado has offered to process the calf for the winner free of charge.

The prize animal will be on display Saturday in Eldorado, and on the following Saturday will be sold.

Boys Sell Out at Angelo
The 4-H boys will not enter animals in the Ft. Worth Fat Stock Show, as planned, because they sold completely out at the Angelo Show. At 30 and 27½ cents they sold 66 lambs through the ring, and at 16.15 they sold 61 lambs by private sale. Twelve calves brought 30 to 45 cents, a price which they considered good.

New Start

The sales made at Angelo necessitate a new start, which the boys are now making with calves now in feed in preparation for next year's show. In the coming two weeks 16 calves will go on feed, to be entered next year at Angelo.

The 44-H-ers and their sponsor Co. Agent W. G. Godwin, had been away from home several days, remaining on the job day and night at the show grounds.

Boys Win Prizes

Schleicher Co. boys placed at the Angelo show as follows:

Fine wool lamb under 105: Leon Williams 19th, Tommy Green 14th, Pinkney Craig 20th.

Over 105: W. L. Ivey 13th, Earl Loyd 19th, Elbert Thigpen 21st.

Group of 25 lambs: Schleicher Co. 7th. Lambs sold at 27½c.

Group of 25 cross-bred lambs: Schleicher 8th, sold for 30c.

Organization Meeting Opens Red Cross Drive

At an organization meeting for the Red Cross drive last Saturday afternoon in the hotel lobby, Mrs. Chester Wheeler, chairman, appointed community leaders from the Agricultural Victory Council, who with representatives from the Woman's Club, the Schleicher County Home Demonstration Clubs, the P. T. A., and the D.A.R., will canvass the city and county for donations.

Community leaders named will appoint others to assist them in the county drive, and representatives from the civic organizations, with the aid of other committee members, cover the Eldorado vicinity.

Quota for the county has been set at \$2,000.00, and the fact that this figure was far surpassed last year, inspires Mrs. Wheeler and her helpers to a greater effort in this year's drive, knowing that the need for Red Cross aid is still as great if not greater than ever before.

Although the National drive will extend through this month, leaders urge that the public get their do-

nations in as soon as possible. Your cooperation in this will be greatly appreciated by the committees.

The Senior Class of the local school will be in charge of booths down town each Saturday during the drive and donations may be made there.

Many thousands of men are still overseas. They're lonely and homesick. They need your Red Cross now, and Red Cross men and women are at their side. But only you can keep them there. Through your contributions you make it possible for the Red Cross to see them through. Give today!

Community leaders from the Victory Council have been named as follows: J. F. Runge, Cliff; Truett Stanford, Bailey Ranch; Mr. and Mrs. Gene Edmiston, Alexander; Miss Lottie Reynolds, Rudd; Mr. and Mrs. E. W. Craig, Reynolds; Joe B. Edens, Eldorado and vicinity; John I. King, Mayer; Mr. and Mrs. Earl Cathey, Huldale; Mrs. R. H. Jackson, Tierra Alta; Mr. and Mrs. Milton Baugh, Kaffir; John Williams, Eldorado vicinity.

Concentrating on meats, the Frozen Foods Co., of Eldorado placed in the new lockers 10,807 pounds of cut, packaged and frozen meat in its first ten days of operation.

After the opening on Saturday, Feb. 16, featuring demonstrations for the benefit of patrons, the crew was confronted with such heavy immediate demand during the ensuing week that registration was made a temporary requirement for locker service. This requirement has since been dropped, as back orders have been taken care of and current demand does not overtax the capacity of the plant.

The personnel of the crew is as follows:

Jack Hext, Mgr. & part owner.
Jack Whitten, meat cutter.

JUDGE MEADOR ANNOUNCES FOR RE-ELECTION

Co. Judge C. L. Meador this week authorizes the Success to announce his candidacy for reelection to his present office. Concerning his candidacy, he states:

"After serving as County Judge of this county through the entire period of World War 11, while this county as well as all individuals were handicapped by the shortage of labor and equipment, road projects in this county and other counties of Texas had to be almost entirely abandoned in order to lease such equipment and manpower to more essential service in winning the war, and now that this period has passed on and labor, materials and equipment are somewhat easier to obtain, and since we have not been able to accomplish all of our objectives, due to the above conditions with reference to better roads and better schools, I feel it my duty again to offer my services to this county for another two year term subject to the action of the Democratic primary in July.

"The Commissioner's Court of this County is at the present time buying and fencing right-of-way for a paved road from Eldorado to Menard. This work is scheduled to start soon and must be completed within a two-year period from July 1st, 1946, and other road designations will be asked of the Highway Department. Whether I am elected or not elected for the next term of this office, I expect to do everything humanly possible toward the completion of existing contracts with the State Highway Department during the remainder of my present term in order that we may have work for our returning servicemen.

"In asking your support for my candidacy for the office of County Judge, as in other years, I promise everyone the same courteous consideration and treatment—Respectfully, C. L. Meador, Jr., County Judge."

LET'S TAKE STOCK NOW

Everybody wants goods. Manufacturers want to make them for you. Yet months after the war's end, you still find it difficult to get many of the things you want and should have. So, isn't this the time for all of us to take stock . . . to learn a lesson . . . to find out, if we can, what will cure the troubles we are having and prevent their recurrence?

Let's look ahead and agree on a program that will insure the full production everybody agrees is the real answer to most of our problems. Suppose we begin by taking a good look at three roadblocks to prosperity...

STRIKES

Whatever their justice or injustice, strikes paralyze production, force people to use up their savings, and result in losses that can never be made up.

PRICE CEILINGS

Full production isn't possible when industry suffers losses because of rising costs and frozen prices. Price ceilings limit production — goods just don't get made.

GOVERNMENT SPENDING

Continued huge government spending means continued high taxes. High taxes discourage production, hinder the creation of jobs, and leave you less to spend.

ISN'T THIS THE WAY?

The people, through Congress, can remove these roadblocks in the long-range interests of all . . .

By establishing a labor policy that will treat labor and management exactly alike, and above all be fair to the public;

By removing the shackles of price control on manufactured goods;

By cutting down on government spending now and balancing the Federal budget by the 1947 fiscal year at a level of income and outgo that taxpayers can stand.

Do you believe this program is in the public interest?

Your Representatives in Congress are the only ones that can put it into effect. Tell them how you feel about it.

ALL THEY ASKED WAS AN EVEN BREAK

Building a new country was no easy job. But there were men and women willing to tackle it—to turn their backs on the government managed way of life and their faces toward new frontiers. All they asked was an even break.

Free enterprise is another way of saying "an even break." It's the basic American principle of vision and private initiative. Just give an American an even break—a chance to get ahead—and he'll go on from there.

But when government goes into business, in competition with its citizens, the American ideal of an even break is destroyed—for government in business enjoys special privileges that are denied the people.

Take the case of government-owned power plants, for example. They pay no taxes; get money from the U. S. Treasury at little or no interest; make up losses out of the pockets of the taxpayers.

On the other hand, America's business-managed power companies—owned and operated by millions of folks like you—are on their own. They pay their full share of taxes, and they pay fair interest on loans.

The same forethought and experience which furnished electric power for a global war will assure America dependable—and cheap—electric service for a post-war world. There are still new frontiers in electric living to be opened. And business men can do the job better than bureaucrats.

"The Friendly Hand of this Nation reaching across the sea to sustain its Fighting Men"

— from an address before Congress

on June 18, 1945, by

General Dwight D. Eisenhower

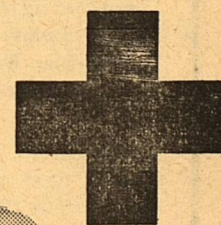

"THE RED CROSS, with its clubs for recreation . . . its readiness to meet the needs of the well and help minister to the wounded—even more important, the devotion and warmhearted sympathy of the Red Cross girl—has often seemed to be the friendly hand of this nation, reaching across the sea to sustain its fighting men."

So speaks one of our greatest soldiers—the GI's own "General Ike." He has seen your Red Cross in action—he knows! He knows, too, that more than a million young Americans still on foreign soil, and the many thousands of our wounded in military hospitals need your Red Cross.

Our returning veterans need it, to help them with advice, cash to tide them over in case of emergency or delayed benefits, advice and aid with the thousand-and-one problems involved in their return to civilian life.

They gave us Victory. We must not fail them now. They need your Red Cross. They need it now. Won't you give to the Red Cross—today?

YOUR Red Cross MUST CARRY ON . . . GIVE!

January Disasters Bring Quick Red Cross Action

Destructive floods and tornadoes beginning in early January were grim reminders that more Americans died in home-front accidents and disasters during World War II than as war casualties.

By mid-month the siege, brought on unseasonably early by warm weather and heavy rains, had claimed 54 dead and upwards of 150 hospitalized, records indicate. Thousands of families in rural areas of 11 midwestern and southern states have been affected.

Red Cross chapter workers who last year helped their communities through 260 disasters have again worked 'round the clock. Assisting them have been doctors, nurses, and others rushed by the Red Cross to stricken areas. Surveys for the refurnishing, rebuilding, and repairing of damaged or destroyed homes, barns, and other buildings, began immediately. Rehabilitation will be completed in March. Undoubtedly new disasters will strike during the spring months and will keep the organization working at top speed in this humanitarian parade which never ends.

In providing food, clothing, shelter, medical and nursing care, varying problems confront the Red Cross, particularly in rural sections.

In flooded Mississippi valley areas, Red Cross has obtained a priority release of house trailers to supplement tents used in sheltering farmers rescued from flooded areas. When evacuation of farm families and livestock has been necessary, coast guard and navy boats have assisted. Recent coal shortages in disaster areas were relieved when Red Cross action resulted in diversion of fuel to critical sections.

An hour after surveys have been completed, the Red Cross has obtained priority release of lumber and other building materials. Included has been screen wire to help prevent the spread of disease in floods and hurricanes, local

Red Cross disaster units, through advance weather bureau advisories, have warned residents in time for safe evacuation; in remote sections, they have effected rescues. In all disasters, tornadoes, fires, floods, hurricanes, train wrecks, they have quickly sought out injured, given first aid, and arranged hospital care. Hundreds of thousands of homeless have been sheltered, clothed, and fed.

In Paterson, New Jersey, a new chapter disaster chairman successfully tackled problems of the worst flood in that city's history. Two days after a Red Cross disaster conference in Montgomery, Alabama, a tornado ripped through the city. Outstanding care given the injured wrote a bright page in the year's disaster medical history.

In states where polio outbreaks occurred, Red Cross chapter volunteers hurriedly improvised hospital articles. In Salt Lake City, Disaster Service supplied face masks, children's nightgowns, hospital shirts, surgical gowns for nurses, blankets, and sheets. When flanellette could not be found for hot packs, Red Cross supplied 1,000 diapers for the purpose.

But whether disaster or any of many other Red Cross services, all are available to people in rural communities no less than in large cities. Home nursing, farm accident prevention, assistance to families of men in uniform and to veterans — these services continue year-in, year-out. During March the Red Cross is appealing for \$100,000,000. It needs every bit of that amount to meet obligations to the armed forces and civilian population.

"We all have a share in the American Red Cross," said Basil O'Connor, Red Cross Chairman, when announcing the appeal. "Let's all maintain that share by contributing generously to the 1946 Fund Campaign and keep our Red Cross society the strongest in the world."
