Thursday's Big Blow Causes Some Damage

Fields and pastures in Schleicher County and other counties of the Southwest played a fast-moving game of "fruit basket turn over" Thursday evening, as priceless top soil took to the air in one of the fastest moving sandstorms experienced by this locality in many years.

A barn belonging to Sheriff E. H. Sweatt, which he had just recently moved to his farm in the Bailey Ranch community, blew over during the storm, knocking over a windmill tower, causing extensive damage to both the barn and windmill. As far as is known this is the only serious damage done here by the wind.

The storm lasted from late Thursday afternoon until nearly midnight. It covered a wide area of Texas, causing motorists to stop along the highway for safety's sake and inconveniencing ranchers, farmers and businessmen in many ways. By midnight the winds had ceased, but after daylight Friday, they began to blow again, continuing on throughout the day.

Cultivated fields which suffered most serious soil loss, are in need of heavy rains for spring growth as are also pastures and grazing land throughout Schleicher County and the entire Southwest.

THREE QUARTERS RED CROSS TOTAL RAISED BY TUES.

Donations to the Red Cross should be made and reported at once to the Schleicher Co. chairman, Mrs. Chester Wheeler, who, with her crew of assistants, is anxious to close the drive soon.

Mrs. Wheeler's report Tuesday showed \$1428 paid on the county's assessed quota of \$2,000. She urges rural workers to send in their reports at once, so she may know the amount remaining to be raised.

Workers report that the drive is lagging in comparison with the drives during the war years. Because the need is as great as ever, all are urged to give generously—and put Schleicher over the top.

CLUBS COLLECT INFORMATION ON BOYS' CITATIONS

Cooperating with a national movement by the Federation of Women's Clubs of America to obtain records of citations and awards of all servicemen, the local Woman's Club has appointed a committee of five members to assist in this movement here.

In order to obtain the records of servicemen from this county, relatives and friends are asked to please contact one of the committee members as it is impossible to contact each boy separately. Records of awards and citations of those who served in the armed forces are not officially listed, so cooperation in obtaining these will be greatly appreciated by the club, in order that none might be overlooked.

Committee members are Mmes. L. D. Ochsner, Keno Ogden, Walter Ramsey, Robt. Milligan, and Bert Page.

Mrs. Irene Hallmark of Casa Grande, Ariz., was here for a several day visit this week with her parents, Mr. and Mrs. Perry Johnson and her brother-in-law and sister, Mr. and Mrs. Eddie Peel.

TICKET HOLDER GETS 4-H CALF NEXT SATURDAY

The sale of the 4-H calf will take place Saturday, March 23, at 5:00 p. m., on the lot adjoining the First National Bank. Tickets have been on sale for two weeks, and interest in the coming event is running high.

The 1½ months old calf, weighing 950 pounds, is from the P. F. Case herd and was fed by Arthur Mund, Jr. A reserve champion at the local show, it showed at Angelo, where it was bought by Nathan Jewellery and presented to the boys. The club expect to raise enough money on the calf to finance next year's show.

The holder of the winning ticket may take the calf to the Frozen Foods Company for free processing.

All Schleicherites are urged to buy tickets and help the 4-H boys. Some one will receive this prize calf at 5:00 p. m. Saturday—this week.

The annual meeting of F. S. A. Farm Ownership families of Schleicher County was held in the First Baptist Church Wednesday, March 20, the purpose being to discuss the past year's accomplishments and to discuss goals for 1946.

Large charts were used in the group discussions. One of these showed the total income for the group and sources from which they were derived such as from crops, livestock, poultry, etc. A similar chart was used to show the total expenses of the group and the breakdown into amount spent for farm operating, family operating, capital goods, etc.

The program opened with the Sum of Borrowers Annual Income Return by T. E. Limer, supervisor of FSA, and included discussion of Extension Service by W. G. Godwin, county agent; 1946 Farm Program by Miss Betty Bryant, Triple A; Landscaping by Miss Martha Brent, FSA; Preparation of Food for freezer lockers by Miss Vern Westbrock, home economist for West Texas Utilities Co.; Legumes and Pastures by N. E. Britton, soil conservationist; Future Outlook for Agriculture by T. E. Limer.

A basket lunch was served at noon to the group.

New committeemen elected to serve for this year were Bol Faught, chairman, Slim Boyer Wesley Garrett, Mrs. Slim Boyer and Mrs. Jack Wade.

The meeting was attended by five of the nine families, the three FSA Schleicher County committeemen and their wives, Mr. and Mrs. Hugh McAngus, Mr. and Mrs. Joe B. Edens, and Mr. and Mrs. Robert Nixon; those mentioned on the program, and Jack Halbert, Jr., of the Soil Conservation office.

LOCAL UTILITY'S REDUCED RATES EFFECTIVE SOON

Regarding the announced residential rate reductions to be affected in the near future in some West Texas cities, Price Campbell, president of the West Texas Utilities Company announced that his company has already made rate reductions in 117 West Texas communities within the last 30 days without advertising or fanfare. Its rate reduction program in the remaining 57 communities served by the company, including Eldorado, will be completed about May 1st. These rate reductions, Mr. Campbell states, were held up during the war period due to necessity of heavy tax contributions to help win the war and the increases in cost of materials and supplies, together with increases in labor costs made necessary in turn by increased living costs.

He commented that electric service is the smallest item in the household budget; that the electric dollar now buys 50% more service than it did even 15 years ago; that you obtain more value per dollar spent for electric service than any other service or commodity.

Campbell further states these reductions in electric service costs have been accomplished by technical developments in production and distribution of electric energy thru private management and initiative and through benefits of refinancing of the Company's borrowed money. On the average, the Company's rate reductions will be an equal or a greater percent than those announced in other areas, with San Angelo and Abilene still maintaining the lowest rates in the area.

Picks, shovels and cement mixer have been in evidence since Monday morning on San Angelo Telephone property, as a crew lays foundation for the new office building to house the dial equipment.

The new building is located at the rear of the present building, between the manager's house and the operator's residence, occupied by the Doyles. The structure is to be of cement tile blocks, with cement floor, the entire 31x24 building to be partitioned into rooms, one to house the dial equipment and the other to be used for storage. In charge of the work is an Angelo crew of 4 men, assisted by several local carpenters.

Construction may be completed in 30 days, if delay in receiving material does not slow down the work. Order for tile and other material has been placed, states Mgr. C. C. McLaughlin.

In addition to the new building, the manager's present office and residential quarters is undergoing renovation, both inside and out. Improvements include papering and interior and exterior painting, and addition of a new screened back porch, with cement floor, foundation for which has been laid this week.

The telephone property includes ¼ block just east of the business district.

Installation of the dial system will follow rebuilding of all of the telephone lines. Crews from Angelo employed by the company have been on the job for many months. At present they are working in the Bailey Ranch community. Cable men are following the linemen. Work has been delayed at times as emergency calls have been answered in other places.

Twenty subscribers west of town in Kaffir and Reynolds communities, are already on the new lines, and others are ready for connecting.

When the project is finally completed and the last Schleicherite is connected with the dial system, it will be with expanded service—as many new subscribers have been added to the list.

Eldorado Woman Cheers Wounded Soldiers in Vet Hospitals

"If I could just show my appreciation in some way" . . . "God bless you!" . . . "What a wonderful surprise" . . . "Thanks with all my heart" . . . "How I would like to know you" . . . "I hope some day to visit you!"

These are excerpts from letters which Mrs. J. D. Ramsey has received from grateful wounded soldiers whom she has never seen. Mrs. Ramsey is a civilian who early in the war found a way to help. Now the war is officially over—but it never will be completely over for those pitiful thousands of boys who occupy beds in the veterans' hospitals. It is these whom she aids.

It happened this way: After her youngest son joined up she felt that she just had to do something to help. After they told her she was too old for war work (she's 71), she happened to write to an inmate of a veteran's hospital whose name she obtained from a newspaper story, sent him a box of candy and cake—and started right then on her war occupation. Since that time she has spent her spare time preparing and mailing boxes to hospitalized soldiers whose names and addresses she obtains from newspaper accounts.

As might be expected her greatest difficulty is obtaining sugar for the cakes and candies she makes. Friends help on this. She uses standard cooky, fudge and divinity recipes, and two cakes, all of which pack well for mailing. (Recipe for dark cake given below) She wraps her cakes carefully in oiled paper, and then in several layers of brown wrapping paper for mailing. Besides sweets, she sometimes mails stationery, shaving cream, tooth paste and after-shaving lotion.

In addition to preparing and sending packages, she has developed into an inveterate letter writer and has hundreds of letters of greetings and appreciation from the recipients, many of whom state that they would like to thank her in person.

"If I am ever down your way I will stop in and see you," writes one. Another says, "I want to thank you with all my heart. When I get out of the hospital and get us a car we will come down and see you. My wife will write you too . . ." This one is from a grateful mother: "Bob hopes to make you a visit when he gets home. I hope he will, for I would love to have you meet him. He then can thank you personally for all the nice things you have done for him."

An appreciative wife writes: "We hope to meet you some day. Maybe you will be down in our part of Texas some day and can come to see us. We would like that very much because you have been very sweet to us and we would like to know you better."

Expression of appreciation for Texas hospitality is frequent in the letters—such as this one: "My home is in Massachusetts and I had heard of the fine hospitality before I had ever come to Texas. I have been here at Camp Hood eleven months now and have found swell hospitality in visiting the cities and towns around camp."

Some of the letters are heart-breaking—this one, for instance: "You will have to excuse this writing. I have just had an eye operation and I am lying here in bed using just one eye, and I am a little nervous. I will give the things you sent to all the boys I can, and I'll say now they will be appreciated. When fellows know they have people like you behind them nothing can stop them."

Here is another: "I was so glad to hear from you. I'm feeling better after my operation. They put me in a body cast which I have to stay in 8 or 10 weeks. I surely dread it. My folks came over to see me today."

A sister of a boy at Temple writes: "First of all I want to thank you for sending Jessie Lee a box of candy. He really did enjoy it. His condition is pretty bad. His leg is still in a cast. He can't sit and lying on his back 5 months hasn't been very pleasant. But all I hope is that he will be able to walk some day."

Two years ago about 100 neighbors and friends joined Mrs. Ramsey in sending boxes. All of these went to McCloskey—and judging from the letters received Schleicher County must have helped many a homesick boy through a bleak holiday season.

Mrs. Ramsey has found that there is a strain of bitterness in most of the wounded boys' letters—the feeling that people have forgotten the injured—that civilians don't care. Here is typical expression of this sentiment from a boy recovering at McCloskey from the effects of 3½ years imprisonment in a Jap camp:

"I want to thank you over and over again for being so thoughtful and I think it is really wonderful that you can drive and do your own housework. It certainly makes one feel good to be able to help yourself. I remember when I was in the hospital in Manila I had to be waited on hand and foot, and I felt so helpless and small, but thank goodness I can now do a good many things and it makes me feel wonderful. When I received your letter I showed it to everybody in the ward and they surely enjoyed reading. No one knows just how much we appreciate a kind word from outside the hospital. It seems at times that we have been forgotten, and a thoughtful gesture certainly strikes home. I am more fortunate than most of the boys inasmuch as I have a private room with bath, as it is quite difficult for me to get around and with a room I can take a bath anytime. Let me thank you over and over again for your very welcome letter and presents and I wish you the best of everything."

Two traits, interest in others, and pride in her cooking, explain Mrs. Ramsey's war activities, as her sons, Seth of Ft. Stockton, Hal of Oklahoma, and Herin of San Angelo, will concede.

She shuns publicity, goes about her charitable enterprise quietly and modestly, for she decidedly does not want credit for anything she has done. "It's brought me a

lot of pleasure," she says. Incidentally it has brought pleasure to others too.

Here is Mrs. Ramsey's recipe for dark cake, which she uses for many of her boxes:

Chocolate Swirl Cake
 ½ cup cocoa.
 3-4 cup granulated sugar.
 ½ cup water.
 Heat until smooth, cool.
 ½ cup Crisco
 3-4 cup sugar.
 1 t. salt.
 1 t. vanilla, 2 eggs.
 2 c. sifted cake flour.
 2 tsp. bak pd.
 3-4 cup milk.

Blend Crisco, sugar, salt, vanilla and eggs all together. Add cooled cocoa mixture, beat well. Sift flour with bak pd, add alternately with milk, bake in two 8-inch criscoed layer pans, 35 minutes, in 350 degree oven.

Filling: 2 c. sugar, 1 c. cream, ½ c. Cocoa. Boil until thick enough to spread, add c. pecans.

The Success—\$2.00 per year.

Mr. and Mrs. W. C. Porter of Odessa visited Tuesday and Wednesday with her parents, Mr. and Mrs. George Dickens and other relatives, and attended to business interests while here.

LET'S WORK FOR INDUSTRIAL PEACE

Men want to work.

Management wants to produce.

The public wants to buy.

The country wants prosperity.

Yet good times have been held up by an agony of strikes.

Strikes breed bitterness . . . hunger . . . and economic stagnation.

For the sake of our country, let's change this! Change it fast. Time is running out!

Let's work out a way to get — and keep — industrial peace and prosperity.

THE FIRST STEP

Isn't a sound national labor policy . . . one that treats workers and management exactly alike and above all one that is fair to the public . . . the first step toward that peace?

Sincerely believing this to be so, we offer this program for peace and production and prosperity:

1. Make employers and unions equal in responsibility under the law.

2. Let Congress set the rules for genuine collective bargaining, free from coercion and violence, and then let government enforce these rules with strict impartiality.

3. Provide safeguards for the public against strikes or boycotts arising from disputes between unions.

4. Insure against strikes until all orderly procedures for settling disputes have been exhausted.

Your representatives in Congress have the power to establish this pattern for an enduring and a fair labor peace. Let them know how you feel about it. Urge them to act promptly on legislation to include these four points.

Time alone won't bring industrial peace. Doing nothing won't bring it. Positive action is the only way. For your own sake and for the future of our country, let your voice be heard!

FREE! A timely, authoritative booklet entitled "The Public and Industrial Peace," gives full details of this program, including specific suggestions for legislation. It is a useful handbook for every citizen, program chairman, or group leader. A postcard brings it. Address: National Association of Manufacturers, 14 West 49th Street, New York 20, N. Y.

Yes, little sister swings an inspired broom! She's Mother's Little Helper—and what a help she is! Mother has a Big Helper, too—a really efficient helper—always at her finger-tips—ready to cook and wash and clean—ready to make life easier for all the family.

This tireless helper, of course, is electric service. It does a lot of jobs at low wages. It never asks for time off.

Maybe Mother and the rest of you take this faithful servant for granted. When you flick a switch you expect the power to be there—instantly—always. And the fact that it is didn't just happen. It comes from the friendly efficiency of the folks in this company.

Jess Dickens Listed As Officially Dead

Mr. and Mrs. Jess Dickens of Menard have received official notice from the War Department that their son, S-Sgt. Lawrence A. Dickens, has been listed as dead.

S-Sgt. Dickens was the first volunteer from Mason County, where his parents then resided, and it has now developed that he was the first from that county to be killed in action. The last word received from him was a cablegram on Dec. 18 1941, from the Philippines where he served under McArthur. How or when he met his death, is not known.

Sgt. Dickens, who served in the Air Force, is a grandson of Mr. and Mrs. George Dickens, and a nephew of Reuben and Raymond Dickens of this place.

Misses Clara Lloyd Ochsner and Noweta Matthews who attend school at TSCW, Denton, were weekend visitors here in the homes of their parents, Mr. and Mrs. L. D. Ochsner and Mr. and Mrs. Hense Matthews.

Dick Lawhon of Marfa was here this week attending to business interests.

Miss Norah Mund, daughter of the A. J. Munds, who has been visiting her grandmother in San Diego, Calif., has accepted a position there with the San Diego branch of Dunn and Bradstreet.

Russ Refugees

The most difficult political refugee problem following World War I was finding homes for displaced Russians. Between 1917 and 1920, 1,500,000 Russians had left their native country and refused to return. These people were eventually settled more or less permanently in 45 countries throughout the world.

Ship's Anchor

The longer the length of anchor chain let out by a ship, the more securely she is held. Each section of chain is called a shot, and the bin where the chain rests is called a locker. Thus, "another shot in her locker" means she still has a reserve to use as a last resort. The saying has become part of our language ashore.

Cooking Vegetables

Michigan researchers have shattered the age old belief that garden greens should be cooked in the water that clings during cleaning, according to American magazine. Chard, cooked like that, took 22 minutes in a covered pan and came out with only 5 to 8 per cent of its vitamin C. Plunged into boiling water, it cooked as tender in seven minutes and kept up to a quarter of its vitamins.

Fish Ears

Fish have no external ears or special mechanism for conducting sounds to the internal ears, which are embedded deeply in the skull. Sounds in the water are conducted through the bone of the skull to the inner ears of a fish. However, ears of fish do not have a cochlea, as do human ears. For this reason, it is believed that the hearing of fish is poorly developed.

Noise Deafens

A study of more than 1,000 persons working in noisy factories indicates that a high level of noise tends to impair hearing, according to the Sonotone research laboratories. When the study was started about 10 per cent had appreciable loss of hearing. A year later tests indicated that about 25 per cent of the men and women had hearing impairment.

Ironing Pads

Today, almost every woman's or child's garment has shoulder pads for styling and at times these are a nuisance, particularly in wash clothes if left in the garment when washing. To simplify the ironing job, remove the pads before washing and sew snaps on so that they will be easily replaced. This little trick saves a lot of work, and the pads are always in the right place—smooth and slick—the way they were meant to be.

String Rug

Try making an ordinary string rug. Take a piece of canvas 27x36 inches and mark it off in lines 1 inch apart. Wind string 20 times around a piece of cardboard 5 inches wide. Cut the string at both ends; place it across the first line marked on the canvas; stitch down middle of string. Repeat this process until all the ends are covered. You will find you have an attractive rug and one that can be laundered very easily.

Mertzon Man Charged Monday With Murder After Victim's Death

A charge of murder was filed on March 11th in Mertzon justice court against Claude B. Dorris Mertzon plumber, following the death of Aaron Hulsey, 38, Mertzon oil field worker, in a San Angelo hospital about 5 o'clock Monday evening.

Hulsey was shot in the abdomen on the main street of Mertzon on the afternoon of Feb. 26, and had been in a San Angelo hospital since

that time. Dorris was charged with assault with intent to murder following the shooting but was released on \$1,500 bond. It was expected that he would be re-arrested Tuesday. Funeral services were held at

DeLeon Wednesday for Hulsey. He had been a resident of Mertzon for six years.

FROZEN FOODS COMPANY OF ELDORADO

Have you ever seen a Brave Man Cry?

IT HAPPENED somewhere in the Pacific. The boys of the 5th Air Force were "occupying" a God-forsaken jungle island which had been taken from the Japs. The heat, and the bugs, and the dirt were unbearable. The loneliness was almost beyond belief.

Then—on a sweltering airstrip one morning a plane came down out of the sky. And out of it stepped two Red Cross girls, American girls.

"Hi there, Soldiers!" Their voices were like magic. American girls, like the sisters and sweethearts they hadn't seen for so many long months—greeting them as they'd been greeted so often in the old, happy days at home. Yes, tears filled the eyes of more than one of those fighting men. Brave men they were, crying unashamed!

Many thousands of our men are still overseas. They're lonely. They're homesick. They need your Red Cross now. And Red Cross men and women are at their side. But only you can keep them there. Through your contributions you make it possible for the Red Cross to see them through. Give today!

YOUR Red Cross MUST CARRY ON ...
