

Schleicher County Oil News

Special from James C. Watson Midland, Texas

The Ohio Oil Company No. 2 H. F. Thomson estate is to be a south-west offset to Hiawatha No. 1 J. Forrest Runge, recently completed discovery from the Pennsylvanian in North-Central Schleicher County.

Location was staked 1,386 feet from north and 467 feet from east lines of section 80, block TT, TC survey.

Brewster & Bartle Drilling Company have the rotary contract.

Ohio's No. 1 P. McIntosh, 7,200-foot Ellenburger wildcat in South Central Schleicher county and about 10 miles southeast of Eldorado, is drilling below 6,376 feet in lime after a drillstem test in a lime, which is thought to be Strawn, failed to develop commercial production.

The lime section was topped at 6,050 feet. The drillstem test was made over the interval at 6,300-6,376 feet.

The tool was open for one hour. Recovery was 90 feet of gas-cut mud, with no oil or water. Flowing pressure was 200 pounds and 15 minute shut-in pressure was 45 pounds.

No. 1 McIntosh is being drilled 600 feet from north and 1,980 feet from west lines of section 22, block 9, TW&NG survey

C. L. Norsworthy, Jr., and Lone Star Producing Co. No. 4 Thomson, southeast offset to the same operators' No. 1 R. M. Thomson, discovery of the Brushy Top field in Central-North Sutton County, has indicated a producer from the San Angelo sand, producing formation of the discovery well.

Operator set five and one-half inch casing at 739 feet and acidized through perforations with 1,000 gallons. The possible producer started flowing oil by heads and the tubing became clogged. Attempt is now being made to unstop the tubing before testing is resumed.

The same operators' No. 7 Thomson is at total depth of 615 feet in lime preparing to run intermediate casing. The No. 7 Thomson is being drilled two locations east of the discovery well. Exact location is 330 feet from east and 990 feet from south lines of section 67, block A, HE&WT survey.

Sinclair Oil & Gas Company No. 1 Steen, one-location south offset to the discovery of the Brushy Top field, is at total depth of 920 feet in the San Angelo sand. That formation was topped at 888 feet. Operator is preparing to set seven and five-eighths-inch casing at 888 feet.

R. B. Farris of Fort Worth No. 1 H. A. Thomson estate, one mile north of production in the Brushy Top field and in Central-South Schleicher County, is drilling below 960 feet in the San Angelo. The sand section which is producing in the Brushy Top field has not been topped. The Farris No. 1 Thomson is contracted to go to 1,500 feet.

The prospector is being drilled 330 feet from south and east lines of section 89, block A, HE&WT survey.

That makes it about 10 miles south and slightly west of Eldorado and one-quarter of a mile north of the Sutton County line.

Lone Star Producing Company No. 1 E. E. Steen estate, one location southwest to the Brushy Top field discovery, is at total depth of 493 feet in lime running surface pipe. When that is done and cement hardens, it will be drilled out and the prospector deepened.

Drillsite is 330 feet from north and east lines of the northwest quarter of section 66, block A, HE&WT survey.

American Republics Corporation No. 1 H. F. Thomson, south-east offset to the Huldale field of North-Central Schleicher County and indicated Pennsylvanian discovery, is drilling below 5,365 feet in a lime section topped at 5,337 feet.

A drillstem test was taken over the interval from 5,330 to 5,350 feet. Tool was open for 30 minutes. Recovery was 50 feet of heavily oil cut mud. The discovery is producing from a section at 5,751-5,803 feet.

Delta Gulf Drilling Company of Tyler No. 2 Thomson, west offset to its discovery in the Huldale field, is drilling in shale below 3,030 feet.

The discovery well was completed from open hole at 5,751-5,803 feet. The No. 2 Thomson is being dug 467 feet from south and west lines of the northeast quarter of section 71, block TT, TC survey.

Cooper Gas Company of San Angelo and Shell Oil Company No.

THURSDAY, MARCH 1, 1951

NUMBER 8

Increased Activity Seen As Oil Men Move In To Eldorado For Base of Schleicher Operations

City Election Set For Tuesday, Apr. 3; Two Members Retire

The annual city election will be held on Tuesday, April 3, at which time voters will elect a mayor and three aldermen. The city council as it is now, consists of:

Carroll Ratliff, Mayor
Jack Hext
J. R. McMillan
E. H. Topliffe
W. M. Patterson, Jr.
Sam Oglesby.

The terms of Oglesby and Patterson continue for another year—the other four places are up for election in April. Of these four Hext and McMillan announce that they will retire at the close of the present term. Ratliff will probably be a candidate for re-election as Mayor, and Topliffe for re-election as alderman. In addition to these four more names have been added to the alderman's race: Jess Walston, Ray Hudgens and C. C. Henderson. This makes five men in a race to fill three places.

The ballots will be printed the latter part of March, and names may be added to the ticket (or removed) up to that time. Anyone having ambitions to become a "city father" should notify the city secretary between now and March 25 in order to have his name printed on the ballot.

Brief announcements for city offices and school trustee positions may be placed in the Eldorado Success free of charge.

Post Script

We have been around this week inquiring about local elections—talking with some of the people who serve on the city council and on the school board. We feel that too many people are indifferent to the problems that are always confronting our local officials and the only time they contact them is when they have something to complain about.

There is no money in it, on these local jobs, and it takes a man with a good deal of public spirit to be willing to stick his neck out and assume the duties and obligations that go with it.

On the city council they say that they have a sort of unwritten law that you can't retire from your job until you find a candidate to take your place. It was explained that Hext and McMillan wanted to retire this year, so they got busy and started looking for some one to replace them.

They did so well that they came up with four candidates. We asked Carrol Ratliff if he were going to run for mayor again, and he said, "Well, I haven't found anybody as yet to take my place—say, you don't know anybody, do you?"

We assured him we didn't know of anyone who would make a better mayor, and changed the subject to sewer extensions, etc.

It seems that there is a constant clamor in town for more sewer extensions, but the city doesn't have the money to build them. It would take a bond issue, but again the attorney general's department says that Eldorado has all the bonds now that it can handle, with its present valuations.

Then there is the disposal plant. It is not big enough to handle many more sewer customers. There is the possibility that the present oil activity may bring a hundred more trailer houses into this city. If they did—and if they all connected to the sewer (which they should) we would immediately find ourselves with an overloaded disposal plant, and something would have to be done.

Oh, well, let's not worry about it—the City Council will find a way—they always do.

It has been said the only crop that can be raised on poor land is poor people.—Acco Press.

1 Will Loveless, 6,000-foot wildcat to explore the Strawn lime in Central Schleicher County and three miles northwest of the Page field which gets its production from the Strawn is drilling below 3,030 feet in shale. Drillsite is 2,463 feet from west and 1,980 feet from north lines of section 5, block EEE, T. J. Cartwright survey.

Second Huldale Well Flows 75 Barrels on Test

Additional emphasis was given to the Huldale field yesterday, when the American Republic No. 1 Thomson flowed oil at a rate of 70 to 80 barrels an hour on a drillstem test.

Drillstem testing from 5,733 to 5,817 feet for 38 minutes, the well showed gas at the surface in 9 minutes and oil in 13 minutes. The 25-minute flow at the estimated rate of 70 to 80 barrels followed.

Sul Ross Band To Give Concert Here Tonight

The Sul Ross band, under the direction of John Carrico, will present a concert here tonight (Thursday) at the school auditorium, beginning at 8:00.

There will be no admission charge, and the public is cordially invited.

A featured soloist on the tour will be Jean Cartney, cornet soloist from Irahn who will play Bellstedt's "Napoli," accompanied by the band.

A special feature of the performances will take place Friday night, March 2, in Brady when the Lobo musicians present another of their famous gridiron shows in lights, fireworks and appropriate music and formations. The opening event of the Heart of Texas band clinic, sponsored by the Junior Chamber of Commerce club of Brady, with Douglas Fry, Brady bandmaster serving as general chairman, will also feature half time shows by a number of visiting high school bands preceding the Sul Ross routines.

The final activity of the tour will be the Sul Ross Band's participation in the huge parade in Brady at 3 p.m. March 3 when over twenty high school bands are expected to march and play in the closing event for the festival. The Sul Ross unit will return to Alpine Sunday.

Besides the concert and parade events, the Sul Ross Modernaires Orchestra, composed of Lobo Band personnel, will entertain high school students at Eldorado and Brady with dance engagements.

SCHOOL CENSUS WILL BEGIN HERE IN MARCH

Plans are under way this week for the school-census, which takes place each year in March, according to Supt. C. A. Reynolds.

Beginning Monday, March 5, the school will send out family census registration blanks, to be taken home by the school children. Parents are urged to fill in these blanks as soon as possible, so their children can return them to the school.

Those parents who do not now have children in school will be contacted by A. J. Atkins, census officer. Parents may also contact Atkins or school officials and receive a blank which they may fill in.

All children who will be six years old on or before Sept. 1, 1951, and not over 19 on that date, should be registered. Since the school receives \$50 from the state for each name, they are anxious to register each child who is eligible.

ATTENDS FUNERAL

Mrs. Fred Gunstead was called to Guttenberg, Iowa, upon receiving news of the death of her mother, Mrs. Grace Ary, who died in a hospital in Council Bluffs, Iowa, Friday, after suffering a stroke several weeks ago. Mrs. Ary, who was 82, had been in failing health for some time.

Funeral services were held Sunday afternoon at 2:00 at the Methodist church in Guttenberg. Survivors include one daughter, Mrs. Fred Gunstead of Eldorado, three sons, Lester, Lee and Harold Ary, and several grandchildren and great-grandchildren.

Mrs. Gunstead was taken to Fort Worth to catch a train by her sons-in-law and daughter, Mr. and Mrs. William Sauer of Brownfield, who were visiting here at the time the death was reported. Mrs. Sauer remained in Eldorado this week.

Three units at Keno's Motel have been taken over as temporary quarters for Ohio Oil Co. officials who are establishing production offices in Eldorado for the Huldale and Runge fields of Schleicher county.

C. O. Dewey, who has been production supervisor at Seminole, has arrived in Eldorado to take charge of production here. R. B. Stewart, superintendent of production at Hobbs, is also in and out of Eldorado in connection with production.

Ohio officials are making arrangements for unloading space at the Santa Fe yards in preparation for the arrival of increasing amounts of material and equipment.

The Ohio Oil Co., has production on their Baugh lease east of Eldorado, and are currently drilling McIntosh and Huldale tests. More permanent quarters will be established in Eldorado, when, and if, more production is obtained.

This week sees two more wildcats under way in widely separated parts of the county—T. K. Jones, north of town, and G. C. Crosby in the east part of the county. Though not officially released, it is well understood that there will be a wildcat west of Eldorado also.

The Runge-Huldale fields are a beehive of activity this week, and several new rigs have appeared there in the past week.

In the Brushy Top area south of Eldorado, two more producers are on the verge of being brought in, and there is no telling how many locations have been made in that area.

Slush pits and cattle guards have been built and spudder is on location for a new wildcat in the east part of Schleicher County to be drilled by the Westex Oil and Royalty Co., of Ft. Worth as No. 1A G. C. Crosby.

Drillsite is 17 1/2 miles southeast of Eldorado and eight miles southeast of the Page-Strawn pool. It is 600 feet from south and east lines of section 16, block K, GH&SA survey. The project is on a 230-acre lease.

It is being supported by Hiawatha Oil Co., H. L. Hunt, Amerada, and So. Production Co. Companies owning leases in the area are Skelly, Taylor Refining, Continental, Texas, and others.

The Delaware Drillers, who brought in the Runge well, have the rotary contract.

The other wildcat is C. L. Norsworthy, Jr., of Dallas No. 1 T. K. Jones, which is now under way.

Location is 1,980 feet from north and east lines of section 37, block LL. That puts it in Central Schleicher county.

Rotary tools will be used in drilling to 7,000 feet.

Additional oil news of Schleicher county, prepared by James C. Watson of Midland, appears in another column of this page. Our readers are asked to remember that this weekly report is prepared in Midland Tuesday evening and reflects the oil situation up to that time.

Lions Make Plans For Annual Egg Hunt

Preliminary plans were discussed for the Lions Club Easter Egg hunt, at yesterday's meeting. President J. H. Mace appointed a committee consisting of Lions Roy Shilling, Albert Krueger, Fred Watson, Lum Davis and Earl Parker. The hunt is held each year on Easter afternoon.

Reporting for the skating rink project, Clovis Taylor said that receipts for January and February totaled \$64.50, of which \$32.25 had been turned over to the Lions treasury.

Lion W. M. Patterson said that plans are going ahead for the minstrel, and that it would be held early in April. With him on the committee are Wayne Griffin and Wilson Page.

Dr. M. G. Holcomb said that his clinic now has a resuscitator, and that it could be used at any time by the Fire department whenever it is needed.

Lion Treasurer John Stigler reported that clear profits from the Kreklow-Sorantin concert last Friday night totaled \$111.42, and had been deposited in the treasury.

SINGING SUNDAY

The regular Sunday singing is to be held at the memorial building this Sunday from 2 until 4 o'clock.

Pennington To Retire As School Board Member

Kreklow, Sorantin, Well Received By Local Audience

A good crowd was present Friday night at the high school auditorium to hear Joe Kreklow, pianist, and Eric Sorantin, violinist, in a joint recital of classical, semi-classical and popular music.

The concert was sponsored by the Lions club.

The program opened with a group of numbers by Joe Kreklow. They included a paraphrase of concerto themes and melodies by Fritz Kreisler.

Sorantin, who was accompanied by Wanda Dregoo Beall at the piano, played Bruch's Concerto in G minor to complete the first half of the program.

After intermission, Sorantin presented two original numbers, "Capriccio Amoroso" and "Rondo in G" and also played "Tambourin Chinois" by Kreisler, "Serenade" by Schubert and "Witches Dances" by Paganini.

Kreklow's last group of numbers included popular musical comedy selections from George Gershwin, Rodgers and Hart, Jerome Kern, and Cole Porter.

Each soloist played several encores.

City Council To Equalize Taxes

The City Council of the City of Eldorado met in a special call meeting, as an equalization board, in and for the City of Eldorado, on the 27th day of February, 1951, and checked the City tax rolls, and found that some City property, needed to be adjusted, to be in line with the other lots and property.

So the equalization board will meet at the City Hall in Eldorado on March 28, 1951, at 7 o'clock to give property owners a chance to find that some City property valuations should be changed, as the Council wish to have all property as near the same value as possible.

Daughter For Holcombs

Dr. and Mrs. M. G. Holcomb are the parents of a baby daughter born this morning at the Holcomb Clinic, with Dr. H. C. Baldwin of Tulsa in charge. No further details were available at this time, but will be reported next week. The Holcombs have another daughter, Sandra.

MORE and BETTER COTTON

SEED TREATMENT helps turn thin stands . . .

into thriving yields

As a cotton planter, you can expect four-way benefits from one simple operation you can perform on your own farm, or have done for you. It consists of planting seed that has been treated with an organic mercury dust. Its results include:

1. Control of most of the seed rot or decay that reduces your stands before the seeds can sprout.
2. Control of seedling blight caused by bacteria in your soil or seeds that attack the tender seedlings.
3. Control of anthracnose or pink boll disease, another germ-caused ailment that results in smaller crops of poor-grade, spotty cotton.
4. Control of bacterial blight or angular leaf spot that kills your cotton plants or stunts their growth.

Experiment Station figures show yield increases of 5% to 40% as a result of seed treatment. This means up to \$12 per acre added to your income. Cost of the chemical amounts to less than 10¢ per acre.

Those who recommend seed treatment stress the fact it should be correctly used—applied to the seed according to directions, and in the right amounts. The cotton planter has too much at stake, they say, to risk cutting corners on the use of less than recommended amounts, or skipping any steps of the fairly simple seed-treating process.

The treatment can be done by many ginners and delinters. Ask your County Agent about the value of seed treatment and where you can get this service in this vicinity.

News From Our Neighbors

Housing Available

"The housing is here or soon could be built." This was the consensus of a meeting of business men called by the Pecos County Chamber of Commerce Monday afternoon to discuss the housing situation in light of possible needs in case Gibbs Field should become a flight training school.

Trans-Texas Airways, one of the bidders on a pilot training for Gibbs Field, Saturday advised Bill Davis, chamber manager, that housing would be one of the biggest obstacles in obtaining a contract for a local operation, and that the Air Forces Contract Procurement division at Wright Field was seriously concerned with housing in considering any new contract.—Ft. Stockton Pioneer.

Signal Lights Erected

The erection of the highway signal traffic lights was begun on Thursday of this week. The signal lights are being put at three intersections—one at the highway by the Baptist church, one at the west corner of the courthouse square, and one at the intersection at the Methodist Church.

The highway department is putting up the blinker lights with red blinks on the side street and yellow or caution blinkers on the through highway traffic. —Sterling City News Record.

New Auction Ring

A \$15,000 auction ring — Menard's newest commercial enterprise—is rapidly taking shape just north of the Fort McKavett road about a mile and one-half west of the city.

The ring is the enterprise of N. C. Armstrong, Claud Rambo and Clyde Dozier, all three well-known Menard men who have been active in the livestock business for many years.

Mr. Armstrong said that he and his associates plan to hold an auction sale each Monday after the ring is opened. Tentatively, it is planned to get the ring into operation in April.—Menard News.

Final Link to be Paved

Final paving that will link the

Marathon Highway (State No. 227) with the Big Bend basin is on the National Park service's 1951-52 fiscal year program, according to Dr. Ross Maxwell, superintendent of the Big Bend National park.

Dr. Maxwell said only unforeseen prohibitive war emergency restrictions can cancel plans for the proposed bridge across Tornillo Creek.

The State Highway Department paved the Marathon road (No. 227) south all the way to the park entrance near Persimmon Gap.—Alpine Avalanche.

Library Nears Completion

Plans are almost completed by the City Library Board for the opening of the new City Library Building. The 4,000 books and files of valuable magazines have already been moved into the building and much of the remodeling is completed. A finance campaign by a committee of ten women has had fine response.

The Library building will have a large attractive living room, which will be open to all civic clubs. A well lighted library room and adequate kitchen, storage and rest rooms will complete the facilities.—Santa Anna News.

Cornerstone Laid

Plans are being completed for the cornerstone laying program at the First Baptist's new building Sunday at 12 o'clock following the morning service. The stone, of white marble, will be placed on the northeast corner of the building. It will bear the inscription, "First Baptist Church, Big Lake, Texas, February 1951."

Data concerning the local church and a Holy Bible will be among the things placed in the stone's receptacle. Taking part in the ceremony will be the pastor, the deacons, building committee, the builder and the architect. —Big Lake Wildcat.

Weather Station Discontinued

Discontinuance of the Ozona weather station was announced last week by the United States Weather Bureau station in San Angelo and instruments set up here for weather observance and recording were dismantled and moved.

Two of the instruments, how-

ever, will remain here and will be manned by a volunteer weather observer. The temperature and rain gauge have been mounted in the rear of the Ratliff Hardware and Furniture Co. and Charles Katliff of that firm will serve as the volunteer observer, making monthly reports to the bureau on temperatures and precipitation.—Ozona Stockman.

Salesman Gets Freedom

Wiltz Fristoe, young magazine salesman who was nabbed here Monday of last week after he pulled a crooked deal on Mrs. Daisy McCutchen, has been released by local officials.

County Attorney Frank Dickey said he decided not to file charges after making an investigation. He stated the young fellow had a good record and had previously been treated for a mental condition. —Robert Lee Observer.

Car Thief Nabbed

William A. Yates, accused of stealing a car in Miami, Florida, and fleeing from local officers, was picked up in Miami Monday by federal agents, according to word received by the local sheriff's department. Yates was in Sanderson Friday, February 9, and evaded arrest by abandoning the 1950 Chrysler and going up the mountain in back of Austin Nance's house.

The unknown companion of Yates had not been apprehended at the time of Yates' arrest.

A federal warrant was issued charging Yates with violation of the Dyer Act. —Sanderson Times.

War 'Casualty' Doing Well!

When "Texas Joe the Hatter," who gets about on crutches these days, is asked, "What is wrong with your foot?" the conversation goes something like this:

"Had a bullet taken out."

"What happened?"

"Got shot in it."

"When?"

"During the Spanish-American

War."

And he did, back in July, 1898, while sniping from a tree on the Island of Cuba.

"Got shot twice, before I could get down out of that tree," Texas Joe adds.

One shot hit the left knee, which still gives a little trouble. The other went "clear through" the right foot. The wound healed, but for more than half a century Joe Blyth, registered hatmaker, has had to wear special made shoes.

A few months ago, X-rays taken in the Wiedeman Clinic, revealed a lead slug about the center of the old wound. On January 3rd, Jr. J. E. Wiedeman removed it. The wound still requires medical attention, but the hatmaker is back in his shop with his feet propped up while his wife runs the necessary errands and assists him with his trade. —Junction Eagle.

Miss Ina Mae Lightsey has been on the sick list.

Miss Gertrude Sauer of San Angelo spent the weekend with her parents, Mr. and Mrs. Otto Sauer.

Grace Crosby was in the local hospital all of last week.

Mr. and Mrs. Arthur Mund and daughter Crete visited over the week end with their sons-in-law and daughters, Mr. and Mrs. Deon Priest in San Angelo and Mr. and Mrs. Oran Bigby in Ballinger.

Phil and Monty Montgomery, sons of Mr. and Mrs. Jack Montgomery, are ill with measles.

Pep up your winter meals with appetizing salads, crisp, flavorful—made with green leaves, raw fruits and vegetables—they're rich in health-giving vitamins and minerals.

Dry beans are a good source of protein and are economical.

Use lots of apples, they are one of the plentiful foods.

NOTICE OF INTENTION TO APPLY FOR PASSAGE OF LOCAL LAW

The following bill will be presented to State Representatives W. R. Chambers, Harley Sadler, Rubin Senterfitt, Arthur Gromatzky, T. M. Collie, L. W. Pearson, Callan Graham, W. H. Rumpy and Senators Pat Bullock, Carlos Ashley and Dorsey B. Hardeman for introduction at the regular session of the 52nd Legislature.

A bill to be entitled

AN ACT

granting the consent of the State of Texas to the acquisition by the United States of land in the State needed for programs and works of improvement in the interest of soil and water conservation and flood control; providing that this Act shall apply only to that portion of the Colorado River Watershed and its tributaries from the mouth of the Concho River to and including the San Saba River and lying within Tyler, Callahan, Eastland, Comanche, Mills, Brown, Coleman, Runnels, Concho, McCulloch, Menard, Schleicher, Sutton, Kimble, Mason, and San Saba Counties and declaring an emergency.

J. C. Dibrell, Jr., Chairman, Middle Colorado Soil Conservation Districts Association.

Veteran Questions

Q—Yesterday a salesman came around selling subscriptions to a veterans' magazine which he said was endorsed by VA. Is that true? A—No. VA has never endorsed any magazine or other publication. The salesman was misrepresenting the facts and should be reported to the proper authorities.

Q—I just received a small inheritance and I'd like to pay my GI home loan in full. Is that permissible? A—Yes. All GI loans may be paid off ahead of the due date, without fee or penalty on the veteran's part.

Q—I am conducting a GI job training program in my commercial garage, and I want to increase the wage scale of the trainees. How do I go about it? A—Notify the State Approving Agency in your State. That agency, in turn, will notify VA of the new wage scale, so that GI subsistence allowance payments can be adjusted accordingly.

Q—My husband, a World War II veteran, died recently. What will happen to the GI loan he obtained for our house? A—You may take over his GI loan contract and keep making payments on your home under its terms.

Q—I am a World War II veteran who lost a leg in service. Last summer I applied for an automobile under the "cars for amputees" law that limited the cost to \$1,600. But I had to go back to the hospital and never received the car. I did receive a certificate of authorization from VA. May I use the certificate now, under the new law that allows VA to pay \$1,600 toward a car that costs more. A—Yes.

Mrs. Grover Lee Johnson was on the sick list during the week end.

Mrs. Herman Carter of San Angelo visited with Mr. and Mrs. T. W. Johnson and other relatives Tuesday. She is a niece of Mr. Johnson's.

Clarence Alfrey, former manager of Wm. Cameron & Co. lumber yard in Eldorado, and more recently manager of the yard at New Braunfels, was a visitor here yesterday. He was promoted to district manager awhile back and is now living in San Angelo. Mr. Alfrey moved from Eldorado in 1938.

Mr. and Mrs. Tom Henderson were in San Antonio last week end to attend the Fat Stock Show and to visit their daughter, Jackie, who is in school there. Jackie spent this week end with her parents on their Schleicher County ranch.

M. L. Potter is ill at the home of his daughter in Corpus Christi. Mrs. Potter is staying here with her grandson, Than Nall. The Potters' son, Major Nolan L. Potter of McClellan Field, Calif., visited his father in Corpus Christi last week end.

J. H. Hauser, school superintendent of Castroville, Texas, was a visitor in Eldorado Saturday.

Mrs. Mary Ann Johnston visited from Sunday to Thursday with her sister-in-law, Mrs. Felix Johnston, and other relatives in Brownwood.

ASSEMBLY PROGRAM IS SCHEDULED

An assembly program from Southern School Assemblies is scheduled at the school auditorium on March 13 at 2:45. The musical program will include the Kings of Harmony, a quartet and bulling-ers.

Admission will be 19c and 15c, and the general public is invited.

DAR TO MEET

The Eldorado Chapter, DAR, will meet Tuesday at the memorial building at 3:00. Members are urged to attend.

Circle 1 of the Methodist WSCS met at the church Monday afternoon. Mrs. Arthur Davis gave the lesson on the rural church, and Mrs. O. E. Conner served refreshments to ten members.

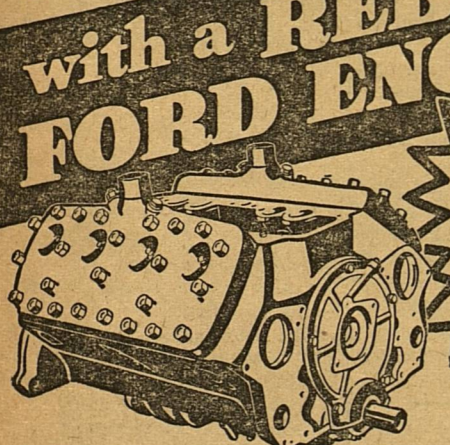

Viewed from EVERY angle —Telephone Service is worth more than it costs!

How much time does your telephone save you? How many steps does it save? Can you really afford to measure its convenience to you in business—in your everyday life? Would you ever begin to properly appraise its real worth in emergencies?

Truly then—viewed from every angle, telephone service is worth far more than it costs.

NOTICE TO PROPERTY OWNERS RENTING TRAILER SPACE

The Eldorado City Council in a resolution at the last regular meeting voted to enforce the sanitary regulations in respect to trailer houses in the city limits of Eldorado.

All property owners who rent space for trailer houses are hereby notified that it is unlawful to run out upon the ground, any sewage or waste water of any kind. Connections must be made to the sewer system or to an approved type of septic tank.

It is pointed out that the property owner will be held responsible for any sanitary violations that take place upon his property.

Inspections are being made constantly and violations will be promptly reported and acted upon.

By Order Of
THE CITY COUNCIL.

Annual Style Show Given By Junior Club

The third annual Junior Club style show was presented at the School auditorium last Thursday night, with a good crowd in attendance. Wearing apparel for all ages was featured in the style show.

Mrs. Carl Stevens was commentator for the evening, and Mrs. James Page was pianist. A barber-shop quartet, composed of Nolen McDonald, Hank Mund, Walter McGregor, and Joe Muller Christian, sang. Mrs. Wilson Page sang "Easter Parade" as the theme song for the evening, and Bob Ratliff played a piano solo.

Wearing apparel was donated by Ratliff's, Coulter's, and Andy's Dress Shop of Eldorado, and Barnes, Martha and Florence of San Angelo. Stigler and Bauer furnished the jewelry.

Club members state that they wish to thank the business houses who provided the clothes and jewelry for the event, and also each person who attended.

Adult models were: Mrs. Bud Hopkins, Mrs. Ray Hudgens, Mrs. Marvin McAngus, Mrs. Horace Linthicum, Mrs. Bob Page, Mrs. L. Steen, Mrs. Jess Walston, Mrs. Archie Mittel, Mrs. Luke Thompson, Mrs. B. L. Blakeway, Mrs. Bud Davidson, Mrs. Jack Hext, Mrs. Edward Meador, Mrs. Jack Montgomery, Mrs. C. A. Reynolds, Mrs. Charlie Trigg, Mrs. Walter McGregor, Ebba Ann Finley, Mrs. Carroll White, Mrs. Tom Jones, Mrs. Frank Meador, Mrs. Clara Lloyd Scherz of Sonora, Mrs. Joe Ed Hill, Mrs. Betty Jones, Susie Linthicum, Laura Clark, Mrs. Dee Love.

Child models were: Dorr Sherz, Kirk Jones, Martha Sue Page, Mary Ann Page, Susie Edmiston, Toya Jo Finley, Paula Jo Mace, Judy Kay Belcher, Kay Peters, Pamela Jones, Tissie Enochs, Carol Tisdale, Rose Ann Reynolds, Jackie Shugart, Judy Hext;

Sandra Holcomb, B. McAngus, Prissy Linthicum, Margo Mittel, Peggy Spencer, Mack McAngus, Lynn Meador, Marcia Hopkins, Terry Phelps, Johnnie Stigler, Jerry Stigler, Ann Ballew, Nancy Jo Jackson, Gene Mund, Martha Ellen Topliffe, Myrta Ann Topliffe, Judy McGregor, Micky Phelps.

Mrs. W. H. McClatchey spent a week at the Clinic hospital in San Angelo, receiving treatment. She is now at home and is improved.

Wayne McGinnes has measles.

Mr. and Mrs. Robert Milligan were in San Angelo Monday, visiting Dr. and Mrs. G. W. Nibling and Mrs. Maggie Martin.

Cubmaster Grover Lee Johnson reports a good attendance, about 70, at the Cub Scouts' Blue and Gold Banquet which was held Monday night in the Memorial Building. The meal was in the form of a Pot Luck supper.

The Pack charter and registration cards were given out. It was also planned to have a kite flying contest in March.

Several boys are completing their Webelos requirements, which will enable them to enter the regular Scout troop with Tenderfoot rank, Johnson said.

Rev. Roy Shilling and Palmer West attended Monday night's meeting of Troop 18 and gave a number of first aid demonstrations. The troop will enter a five-man team in the district first aid meet in Sonora March 12.

Shilling and West demonstrated first aid for shock and bleeding, and showed technique for artificial respiration. All present practiced tying bandages.

4-H Program Moves Forward In State

Texas 4-H Club members, 118,237 strong, will join with the approximately two million other members in the United States to observe National 4-H Week, Mar. 3-11. They will be joined by the 250,000 volunteer local adult workers, the more than 14 million former members, thousands of Agricultural Extension Service workers and their parents and friends.

According to the State 4-H leaders of Texas A. & M. college, the purposes of the week are to provide 4-H members a special occasion for checking their own efforts in relation to the needs of their community and country; to acquaint the public with the 4-H theme for 1951—"Working Together for World Understanding"; to inform all parents of the objectives of the 4-H clubs; to encourage the members to interest other young people in enrolling and in assisting the new members to get started in their 4-H work; and to enlist more public-spirited citizens as voluntary leaders or sponsors of 4-H clubs.

The 4-H members, with their leaders, have planned many activities for the week. There will be special public meetings; exhibits portraying the work of the members; and 4-H members will appear as guest speakers before civic clubs, farm organizations and other groups.

Here are the plans for the Dallas County 4-H Clubs. On March 3 they'll visit, 350 strong, a popular early morning radio show and several will be interviewed. They'll put on two 15 minute radio programs later in the week and are hoping to get a television show lined up also. Every 4-H club in Dallas county will participate in the 10 night programs that have been arranged for the purpose of acquainting parents and the public with the local 4-H program. These night programs will feature 4-H team demonstrations, dress revues, exhibits, along with fun and recreation. The assistant county extension agents are assisting the members and leaders with the plans for the week.

Texas 4-H members last year in addition to their regular demonstration work received training in fire and accident prevention, judging, health, recreation, leadership and conservation. Their regular demonstrations include crop, poultry and livestock production, forestry, wildlife conservation, gardening, foods, clothing, home management and improvement, agricultural engineering and home grounds beautification. Their total production when added together runs into millions of dollars and the livestock they own for breeding purposes is among the best in the country.

4-H members also find time for fun and recreation. They are strong believers in doing the job first, and hard work doesn't keep them from achieving their objectives. After the work comes the fun and recreation. They attend county and district camps, the state 4-H Round-Up at Texas A&M College, the State Fair, visit the major stock shows, send their representatives to state and national meetings, and for the past three years they have been represented in the International Farm Youth Exchange Program.

Kathy, Shirley and Stevie Jones of San Angelo spent the week end with their grandparents, Mr. and Mrs. Ray Jones. Mr. and Mrs. C. F. Jones came for them Sunday and spent the day. Charles Ludwig, band director from Robert Lee, was another guest in the Jones home Sunday.

Mr. and Mrs. Wendell Yates and family of San Angelo visited Mrs. Yates' mother, Mrs. Frances Mund, Sunday. Mrs. Henry Mund returned home with them for a several days visit.

Solon Discusses Labor Shortage

By Congressman O. C. Fisher
With prospects for a bumper cotton crop in 1951, weather permitting, farmers are already worrying about the problem of getting it picked. Adding to the usual picker shortage, the Wage and Hour law was amended last year to prohibit children under sixteen from doing agricultural work while schools are in session.

That means the large Mexican families which customarily leave their South Texas homes in the fall to pick cotton as it opens to the north, run into difficulties when schools open in September. Last fall many of them folded up and drifted home, leaving many white fields unharvested.

Actually, this law is a disservice not only to the farmers but likewise to the itinerant pickers. By working the children these Mexicans have for years made a lot of money during the rush seasons. This income enabled them to return to their homes, pay their debts, buy clothing and better food and many have in that way kept off public charity.

At the same time, the children were enabled to get in the required schooling after the picking season ended.

But the change in the Wage and Hour Law made it uneconomic for many of the grown-ups to pick if the children were not allowed to do so. The overhead is too much and they are better off to leave the fields and go home.

The Wage and Hour Division has insisted on enforcing the letter of the law, and that means an amendment is imperative.

When the Wage and Hour Act was amended last year, the House voted to leave the child labor provision exactly as it had previously been. But the Senate put the proviso in outlawing work by children in the fields during school time. And, when finally passed the Senate amendment was kept in it.

I have introduced a bill to remove the Senate amendment referred to and return to the old law which permits children to work in the fields provided they get in the amount of schooling required by the State laws. Similar bills have

been introduced by others. These measures are now before the House Committee on Education and Labor, where hearings will soon be held. Relief will be difficult to obtain, but a concerted effort will be made by a number of us from the cotton country.

Donnie Rae Furr, Jimmy Danford, Marry Sunday

Miss Donnie Rae Furr, daughter of Mr. and Mrs. Fred Furr, and Jimmy Danford, son of Mrs. Ruth Danford, were married Sunday at the courthouse in Laredo. Calvin Henderson attended the couple.

After a wedding trip to San Antonio, the couple are at home at present at the Springston ranch, and the bridegroom will continue ranching there.

The bride is a graduate of the Robert E. Lee High school in Baytown and Danford is a graduate of the Eldorado high school. Mrs. Danford has been employed at the Eldorado Motor Company.

MRS. CROSBY ACCOMPANIES ST. CLAIRS TO ELDORADO

Capt. and Mrs. Gene St. Clair and baby daughter, Christie Jean, have arrived for a month's visit in Eldorado. Mrs. St. Clair's mother, Mrs. Lillian Crosby, who has been visiting them for two months in Illinois, returned home with them.

Capt. St. Clair and his family have been living in Illinois for some time, but now he is on thirty days leave before being sent overseas. He expects to be sent to Tripoli.

Mrs. St. Clair and the baby will join him later if conditions are settled in that part of the Mediterranean. In the meantime they will stay here with her mother.

FUNDAMENTAL NOTICE

Fundamental Baptist Church members are reminded that, beginning Sunday, Sunday school will begin at 10:30, and preaching services will be held at 11:15.

The members wish to thank the Methodist church for the pew which they came them, and which are much appreciated by the congregation.—Rev. W. A. Kruenger, pastor.

Circles Meet Jointly, Pack Food, Clothing

"If" was the topic of the program presented by circle 1, when all circles of the Women's Missionary Union met at the First Baptist church Monday afternoon. Mrs. John Luedicke was program leader.

In the discussion, parts given included "If—Cuba," "If—the West," "If—French Work" and "If—Alaska."

Several boxes were packed at the meeting. Canned food was brought to the church and sent to the Mexican orphanage in San Antonio. A box of clothes was packed for Buckner's Orphan's home in Dallas. Bed linens were sent to a new orphanage at Round Rock, Tex.

It was announced that the annual March Annie Armstrong home missions program will be given next Thursday, March 8, in connection with a covered dish luncheon.

Mrs. E. W. Craig Is New Cafeteria Mgr.

Mrs. E. W. Craig, who has worked for the past three and one-half years in the Eldorado school cafeteria, assumed active management of the cafeteria this week. She succeeds Miss Pat McMahon who was married recently, and who left yesterday for College Station to join her husband.

Besides her practical experience in the cafeteria, Mrs. Craig has had ten years of home demonstration work. Her menu for this week appears elsewhere in this paper.

Birthday Party For Susie Scott

Honoring her daughter, Susie, on her sixth birthday, Mrs. H. W. Scott entertained with a party in her home Saturday. She was assisted in entertaining by Susie's three aunts, Mrs. Earl Yates, Mrs. Harold Yates and Mrs. J. W. Yates, all of San Angelo.

The guests had an Easter Egg hunt, and were served birthday cake and ice cream.

Those present included Jerry and Jackie Shugart, Carol Tisdale, Betty Sue and Peggy McCoy, Jerry and Gwen Wootton, Joe Charles Christian, James Earl and Carl Dean Parker, Barbara Faull, Bobby Rutland, Darla Cathy Jones, Jan Davis, and Lana Faye Yates and Sherry Diana Yates, both of San Angelo.

Firemen Honored At Social Tuesday

Members of the Auxiliary entertained the Eldorado Volunteer Fire Department with a social Tuesday night at the memorial building. A no-hostess supper was served, followed by games of 42 and bridge.

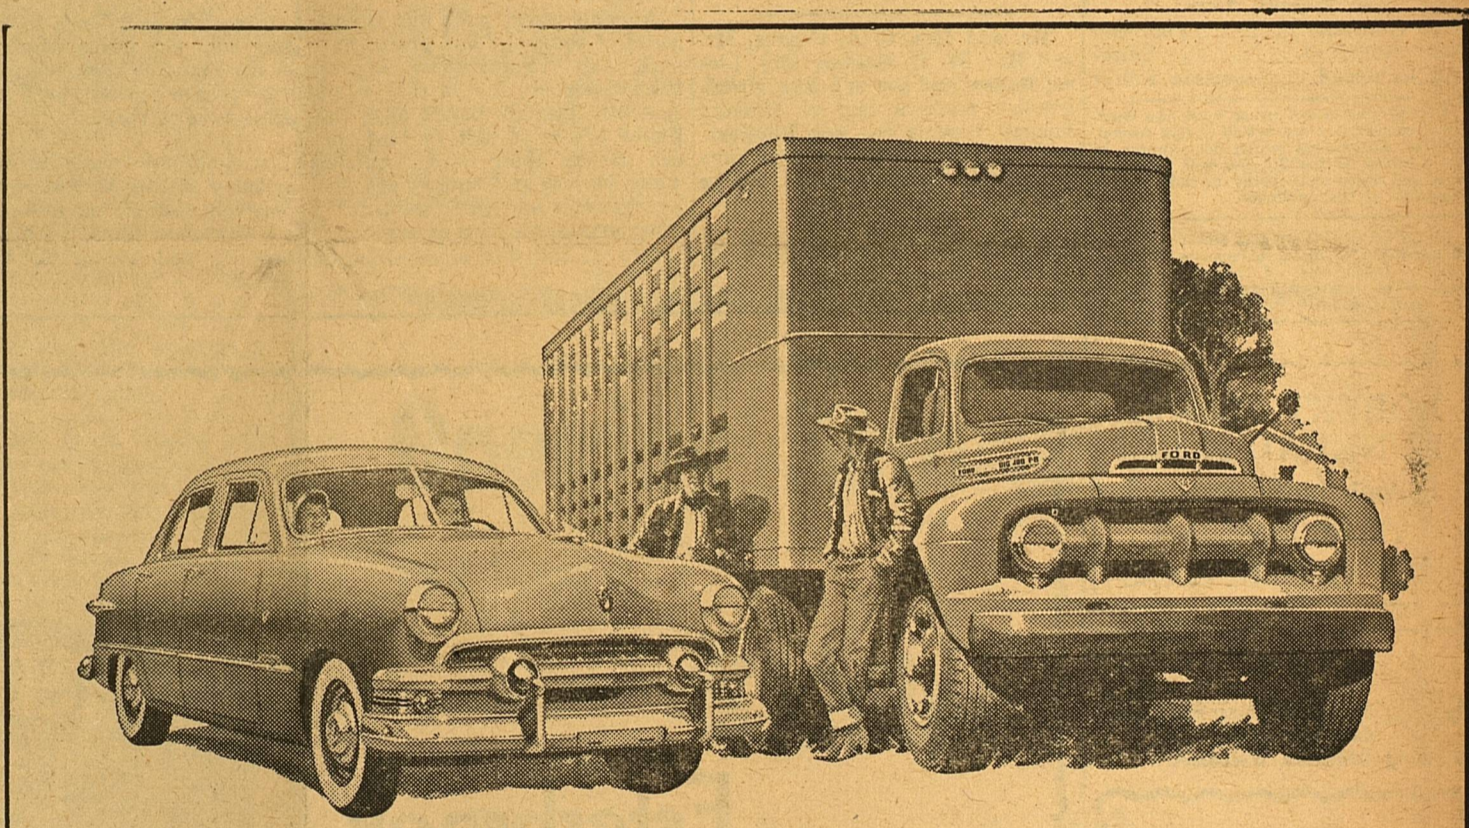

Forrest Runge furnished ice cream and cake for the supper.

There were eight firemen and their wives present. Guests included Rev. and Mrs. Roy Shilling, Mr. and Mrs. Elvis Craig, M. and Mrs. Jerry Pennington and Mr. and Mrs. J. H. Mace.

Jean Reneau of Kermit visited Mr. and Mrs. T. W. Johnson Sunday.

Built in Texas . . . and helping build Texas

**Ford is the only Automobile
Manufacturer Building Cars
and Trucks in Texas**

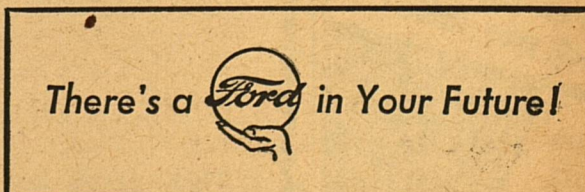

ALL THE FORDS made are not built in Detroit. There are plenty of them built right here in Texas—last year over 128 million dollars worth of cars, trucks, parts and products were made at Ford's Dallas Assembly Plant. What's more, 1,722 Texans put them together or followed through with their consignment to dealers in the Dallas, Houston, Oklahoma City and New Orleans Sales Districts.

The folks who work in Ford's Dallas Assembly Plant and District Sales Offices earn over \$7,000,000 every year. They spend it mostly in Texas. Texas benefits from Ford in other ways, too. For example: during 1950 Ford bought over \$1,000,000's worth

of material and supplies from Texas merchants and manufacturers and paid over \$7,500,000 for incoming and outgoing transportation. Then, too, there is a total of over \$148,000 paid by Ford in local and State taxes.

Yes, Texas is building a lot of cars and trucks for Ford . . . and in the process Ford is helping to build Texas, too!

Owens — Music Vows Repeated

Miss Verna Dell Owens, daughter of Mr. and Mrs. Marion Owens, was married to Earl Music in a ceremony performed Saturday night at the West Side Church of Christ. M. J. Cunningham, pastor of the church, performed the ceremony.

Miss Rita Ann Elder was maid of honor and Chic Wilkerson was best man.

The bride is a graduate of the Eldorado high school. The bridegroom is employed on an oil rig in this county.

ONE-ACT PLAY CASTS ARE SELECTED

Casts for two one-act plays, to be presented at interscholastic league competition, have been chosen.

Characters for "The Happy Journey" are: Ma Kirby—Sue Shilling; Pa Kirby—O. T. Conner; Arthur—Billy Cheek; Caroline—Gayle Childers; and Beulah—Iretta Mace. The stage manager will be Winfield Fry.

Cast for "Write Me a Love Scene" includes: Gaston—Glen Biggs; Helena—Patsy Smith; Roland Hill—Pinkney Craig; and Harris—Sonny Etheridge.

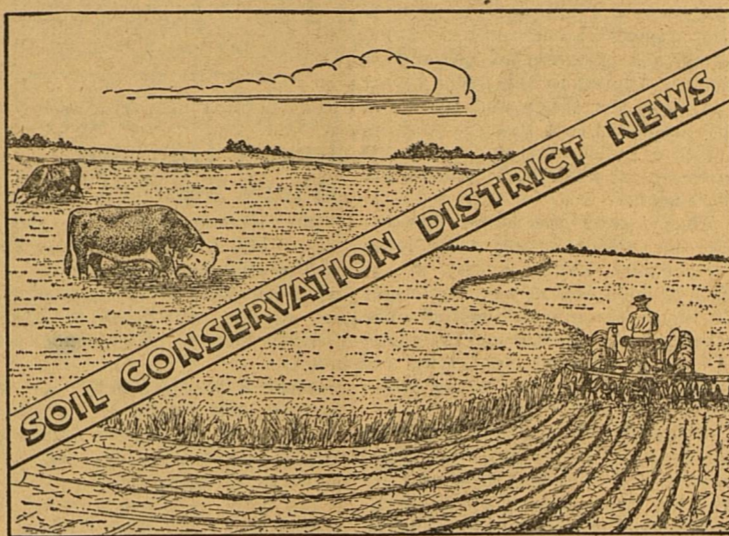

MCDONALD RENT HOUSE NEARING COMPLETION

A small rent house, owned by Mr. and Mrs. Nolan McDonald, is nearing completion on the lot adjoining the McDonald home, and is already rented to oil folks. The house, which consists of living room, bedroom, kitchen and bath, is a ready-built one moved in from Robert Lee.

A number of other people are buying these ready-built houses, to move in for rent property.

Mr. and Mrs. C. A. Graves, Mr. and Mrs. W. H. Graves, Mrs. Lionel Ballew and son and Mrs. Frank Bradly made a trip to Midland Sunday, moving the Bob Bradleys' furniture there. The Bradleys have rented an unfurnished duplex there.

ESTERBROOK fountain pens, \$2.—At the Success office.

Better grazing distribution of pastures is a question which has come in for considerable discussion among co-operators in the district from time to time. This does present a problem where the pasture is large, or a long narrow pasture with a water trough at only one end of the pasture. There are other causes, but these two seem to be the most numerous.

Fencing is one possible way of taking care of improper grazing distribution, but due to the high cost of fencing at present it is questionable as to whether or not it would be economical at this time, except for a few cases.

Salting away from water has proven to be an economical way and a very practical way of getting even grazing throughout a pasture.

Salt aids digestion, as it stimulates the secretion of digestive juices and acts as a tonic to whet the appetite and increase the palatability of many kinds of forage plants. Animals vary in their salt requirements because of the differences in animals, kind of work they do, and kind of products produced.

It is said that cows lose a grain of salt in every pint of milk produced. Sheep require salt for wool production, and chickens for egg production.

Animals whose main diet is composed of roughage and grains have high salt requirements because these feeds are low in sodium and chlorine. Animals should have continued access to salt so that they can satisfy their needs. Animals which become salt-hungry are restless grazers and will "walk-off" a considerable amount of weight in search of salt and other deficient minerals.

As animals are attracted by salt, we should make it an important and economical aid in the control and distribution of our livestock. According to B. W. Allred, Regional Range Chief, Soil Conservation Service, Fort Worth, animals are like humans, they prefer their salt with their feed, not their water, because it just makes what they eat taste better. With this idea in mind a system of salting can be used on grazing lands to lesson over-grazing on areas where the animals tend to congregate, by putting salt on the places that are lightly used. Some things to be considered in locating salting stations are: avoid locating on areas too heavily used, where soils are highly susceptible to erosion, and where forage is easily killed.

Salt should ordinarily be placed at a reasonable distance from water, preferably not nearer than half a mile on large range units, but never beyond a practicable walking distance for animals. On small pastures where salt cannot be used as an aid to livestock distribution, it should be placed in a location farthest from water to avoid undue concentration near the water. Or the salt may be placed in the farmstead corral where additional concentration will generally do no harm.

Livestock will learn to associate salt with the boxes which can be easily found by them when the containers are moved short distances from time to time.

A final advantage to well distributed salting is that it very effectively controls the movements of livestock, and there is less need for herding and riding to care for them.

Lenten Luncheon Sandwich

Tops for your Lenten luncheon menus is a hearty corn meal cheese sandwich with savory tomato sauce. "Bread" for this delicious sandwich is corn meal slices, mild flavored and nubby textured. The cheese is pasteurized process American slices, noted for excellent flavor, perfect melting, and easy separation. And each slice in the factory wrapped, brand identified half-pound package is identical in shape and thickness, which adds to the attractiveness of the finished sandwich.

Corn Meal Cheese Sandwiches

½ cup corn meal 1 egg, beaten
¾ cup cold water Fine cracker crumbs
1½ cups salted boiling water Butter or margarine
½ pound package pasteurized process American cheese slices 1 can tomato soup, undiluted
1 bay leaf
Dash of mace

Mix corn meal with cold water. Stir this into the boiling water. Cook five minutes over direct heat, stirring constantly. Cook an additional 30 minutes over hot water, stirring occasionally. Pour into a small loaf pan and chill. When firm cut into ½-inch slices.

For each serving place a slice of cheese between two slices of corn meal. Dip into the well-beaten egg, then in cracker crumbs. Brown on both sides in butter or margarine in a skillet, or brush both sides of sandwich with melted butter or margarine and brown in a moderate oven, 350 degrees.

Serve with sauce made by simmering the undiluted tomato soup with bay leaf and mace for half an hour. Remove bay leaf. Makes six servings.

★ AL-TRUISMS

—By Al G.

Mrs. J. A. Butler received a surprise visit Sunday afternoon from three nephews and their families. The visitors included Mr. and Mrs. Richard Coffman and Wayne Coffman of Albuquerque, N. M., and Mr. and Mrs. Joe Coffman and daughter Linda of San Angelo. Mrs. Butler had not seen the New Mexico resident for twelve years and was delighted at the visit.

Mr. and Mrs. W. G. Godwin and daughter of Eldorado and Mr. and Mrs. Hal Ansley of Dallas spent the week end with the women's mother, Mrs. J. O. Cowart, who has been ill at her home in San Angelo.

Dried beans are a cold-weather stand-by in the Southwest and provide an economical protein dish in a day's menus. Here's a recipe for bean stew which is very little more trouble to prepare than ordinary beans yet provides welcome variety.

Bean Stew

- 1 cup dry beans
- 1-4 cup diced salt pork
- 1-3 cup chopped onion
- 1-2 pound dry beef
- 2 to 2 1-2 cups cooked or canned tomatoes

Salt and pepper to suit taste. Soak and cook beans in the usual manner. Fry salt pork until crisp, remove from pan and brown onion in fat. Add meat and stir, cooking slowly a few minutes. Combine all ingredients, season and simmer until meat is tender and flavors are blended.

The complete menu might be as follows: Bean Stew, Tossed Vegetable Salad, Cornbread Sticks and Butter, Apple Pie, Milk and Coffee.

Most of the time, it's the women in the family who shop for the shirts their men-folks wear, so here are several hints to help you women get your money's worth.

A shirt is no better than the material from which it is made. If it's broadcloth, madras, oxford cloth, percale, nylon or chambray, it's "good goods." Hold it to the light to make sure the weave is tight. Be sure of the shrinkage guarantee.

Shirt tails should be rounded, full cut and equal length back and front.

In addition to the traditionally styled shirt, there are a number of variations now in fashion, one of which may prove popular with the men in each woman's family. Shirt collars are now being made with the points in several different lengths and widths. A properly shaped collar can change the looks of a man's face, making a round

face appear narrower and filling out a thin face. Some men like the buttoned-down collars, and others like shirts which have no facing down the front.

During the spring and summer months, many men appreciate shirts made of a thinner weave of cotton, which are cooler during our hot Texas summers.

Claudia Butterfield, daughter of Mr. and Mrs. Bill Butterfield, was four years old last Thursday. Mrs. O. L. Furr baked and decorated two birthday cakes for her—one in the shape of a gingerbread girl, with four candles for buttons on her dress, and the other a white lamb, with wool of cocanut. Mr. and Mrs. Furr entertained the Butterfields with a fish supper that night in honor of Claudia's birthday.

Mrs. John Parker was called to Overton recently upon receiving news that her sister was quite ill there. Her mother, Mrs. Sharpston, of Talpa, accompanied her.

The Parkers' daughter and her husband of Talpa are here to be with Mr. Parker while Mrs. Parker is away. The Parkers live on the Joe Tisdale ranch.

While few of us are moving into brand-new homes at the present, almost all of us are interested in the new houses being built around Eldorado, and in the furnishings which go into them. Many of the new houses furnish ideas that can be used in older residences to good advantage.

One of the attractive features of many new houses is the imaginative use of lighting in a number of different ways. One of the newest and popular lighting trends is lighted windows. Window valances, with long lines of fluorescent lighting concealed behind them, give rooms an appearance of added spaciousness, bringing out the full beauty of colors and patterns in the drapery material. Valances may be purchased ready made, or may be constructed to order.

New ceiling fixtures will beautify any room. One new popular dining room fixture provides upward lighting, for the room as a whole, and a down light in the center, to provide a dramatic spotlight for the dining table.

In the modern kitchen, there are several lights, one each over important working areas. New stoves usually have a fluorescent light in place across the back, plus an oven light that switches on automatically when the door is opened.

Modern lighting can contribute to the charm and liveability of every room in the house.

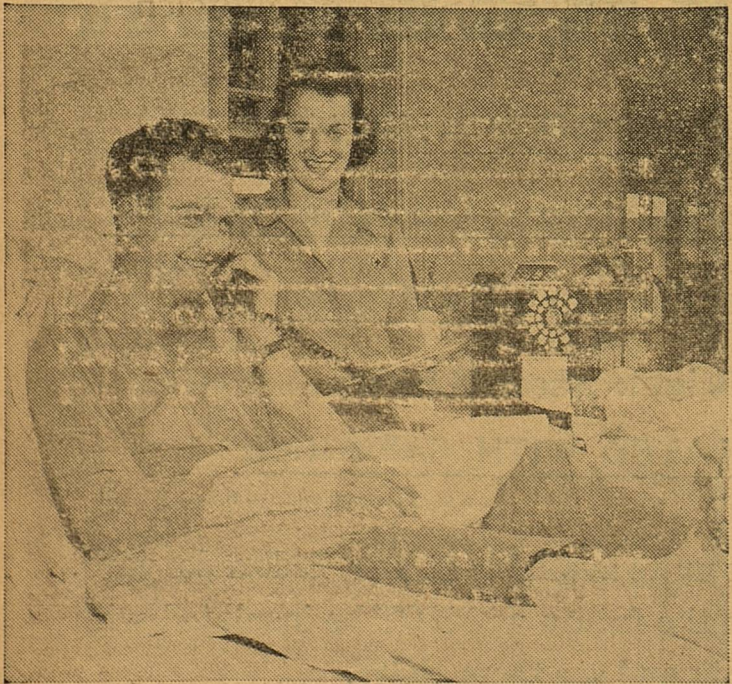

Mr. and Mrs. James C. Guthrie are in Eldorado for a month or so, visiting her parents, Mr. and Mrs. Robert Sproul. They have been in Chicago, where Guthrie recently received his BS and optometric degrees from the North Illinois School of Optometry. He will take his state examinations in March.

All nature is a contest. The \$64 question is whether rain and wind, with man's help, will carry away soil faster than new soil is built.

The old frontier is gone; no new lands lie to the west. Today's frontier is the soil beneath our feet. Conservation, not exploitation, will unlock the boundless possibilities of the new frontier, and shower the wealth and blessings of the soil upon all mankind.

Mr. and Mrs. Johnny Michalski of Johnson City are spending this week with her parents, Mr. and Mrs. E. E. Moore.

RED CROSS CALLS HOME CHEER UP KOREA WOUNDED ARRIVING IN U. S.

"Mom, I'm in Texas—just flew in from Japan." Cpl. Bob Cronin's free phone call has been put through by the Red Cross hospital worker at his bedside, and the wounded Korea veteran enjoys a happy "reunion" with his mother in Hastings, Neb. Wounded down to Lackland Air Force Base, Texas, are met by the Red Cross, official welfare agency of the armed forces, which provides many services for the evacuees at their first Stateside stop. The Red Cross free phone call rates tops with these men.

Reception Tomorrow To Honor Minister

Rev. R. C. Brinkley

A reception tomorrow night at 7:30 at the First Baptist church will honor Rev. R. C. Brinkley of El Dorado, Ark., who will preach try-out sermons this Sunday at the church. Plans for the reception were announced by Lavelle Meckel and others in charge.

Rev. Brinkley is a native Texan and has spent most of his ministry in West Texas. He worked for a year in Training Union work with Dr. T. C. Gardner, state Training Union director of Texas, and has spent much time in evangelistic work.

Rev. Brinkley will be accompanied here by his wife. He will be in charge of both morning and evening services this Sunday at the church.

★ The Military ★

Lt. Robert Sproul has been transferred to Empire, Mich., according to a letter received from his parents, Mr. and Mrs. Robert Sproul. He was formerly stationed at Scott Field at Bellville, Ill. His wife and baby, who are visiting her parents in South Carolina, will join him soon.

Major Nolen L. Potter, son of Mr. and Mrs. Munsey L. Potter, Route 1, Eldorado, was recently promoted from Captain to his present rank. Coinciding with his promotion was the redesignation of his squadron, which was changed from the 374th Reconnaissance Squadron (VLR) Weather to the 55th Strategic Reconnaissance Squadron, Medium (Weather).

Major Potter is squadron Operations Officer and is also aircraft commander on one of his unit's B-29 type aircraft. His squadron is stationed at McClellan Air Force Base, Sacramento, Calif.

Mr. and Mrs. G. M. Capps and new baby son are visiting here with her parents, Mr. and Mrs. H. E. Browder. Capps, who has been stationed in Japan, arrived in the States after the baby's birth and is on leave until March 7.

7-Step Cotton Program Suggested

COLLEGE STATION — Cotton will be planted in 226 counties in Texas this year. Indications are that the acreage planted will be stepped up greatly because of reductions in flax, sorghum, vegetable and small grain acreages. These reductions are due largely to adverse weather during last fall and winter says F. C. Elliott.

Elliott, who is cotton specialist for the Texas Agricultural Extension Service, says farmers have shown a big interest in varieties of cotton adapted to the use of machine strippers and pickers.

Our records show that definite progress is being made in the 7-Step Cotton Program, Elliott states.

He lists the seven steps in the program as: 1. Fit cotton into balanced farming. 2. Take care of your soil. 3. Act together on the best variety. 4. Make your labor count. 5. Control cotton insects and diseases. 6. Pick and gin for higher grade, and 7. Sell for grade, staple and variety value.

In 1948, the program assisted in fitting cotton into balanced farming on 28,043 farms in Texas. This number was increased to 31,115 in 1949, and to 48,181 last year.

Although little increase in soil improvement practices occurred during the past two years, over the 1948 figures, Elliott says farmers have indicated that they will fertilize about 20 percent of the cotton acreage in 1951. Eleven percent is the most that has ever been fertilized in the past.

The number of spindle type cotton picking machines increased from 92 in 1948 to 335 in 1949. Due to reduced cotton acreage, there was a reduction of machine pickers in 1950. However, Elliott says farmers have indicated that they want to buy 586 new pickers this year.

From a total of 4,732 in 1948, the number of stripper type harvesting machines increased to 7,003 in 1949. Little increase occurred in 1950. This year, farmers want to buy 7,491 new strippers—if they are available. If these new ones are bought, there will be more than 14,000 strippers on farms in Texas in 1951.

Elliott reports that machine strippers were used in 84 counties last year, while machine pickers were used in 63 counties. He says that machine harvesting is bringing about an increase in the number of one variety cotton communities.

The number of rotary hoe equipped tractors increased from 6,966 in 1948 to 10,004 in 1949.

The Eldorado Success, \$2.00 year.

in 81 counties in 1949 to 10,004 in 97 counties last year. Elliott points out that the use of the rotary hoe cuts the hoe bill by 60 to 65 percent.

Thirty-three million pounds of insecticide were used on cotton in 1948. An increase of about 50 percent occurred the next year with 49,563,948 pounds being used in 1949. Last year, about 60 percent of the cotton acreage was treated

for insect control. On nearly five and a quarter million acres of cotton, 97,708,044 pounds of dust and 3,091,123 gallons of spray were applied.

The wide use of the recommended practices under the 7-Step cotton program, says Elliott, have resulted in increased yields per acre, more efficient production, higher quality cotton, better ginning and more income for the farmer.

Hybrid Corn Acreage Due To Expand

Expanded acreage of hybrid corn in Texas is justified by the convincingly proved ability of adapted Texas corn hybrids to outyield the best varieties of open pollinated corn.

Corn yields can be increased from 20 to 30 percent, and in some cases as much as 50 percent, by planting adapted corn hybrids. This has been shown by tests conducted on Texas Agricultural Experiment Stations and by many farm demonstrations.

On 3,847 demonstrations conducted by 4-H club boys and adults in 1950, average corn yields were increased nearly 11 bushels per acre, says E. A. Miller, agronomist for the Texas A. & M. Extension Service. He says that most of this increase was due to the use of corn hybrids.

Miller says the acreage planted to corn hybrids in Texas is too small, being only 57 percent of the total corn acreage.

The newer corn hybrids, including Texas Yellow Hybrids No. 20, 24, 26 and 28, have demonstrated their ability to outyield the older hybrids, and tests show that they are widely adapted.

In the Gulf Coast Prairie, except in the river bottoms, Texas White Hybrids No. 9W and 11W have outyielded the yellow hybrids.

Miller recommends that farmers plant hybrid corn this year and suggests that they consult their local county agent for the best hybrids to plant in their areas.

ATTEND WEDDING

Mrs. W. L. McWhorter and Bill and Dan attended the wedding of their granddaughter and niece, Miss Samie Lee Calhoun to Peter Paul Ewald, Jr., Saturday morning. The ceremony was held in the home of the bridegroom's parents, Mr. and Mrs. P. P. Ewald, in San Angelo.

The bride is also a niece of Reuben and Buster Dickens of Eldorado.

Mr. and Mrs. Marvin McDonald and Mr. and Mrs. Nolan McDonald were in San Angelo Friday on business.

Mrs. Milton Baugh spent last week in a San Angelo hospital, suffering from a light case of pneumonia. She has returned home and is much improved.

Mr. and Mrs. W. A. Blaylock and Judy visited in Comfort with Mr. and Mrs. Billy Frank Blaylock during the week end.

Ebba Ann Finley, Bobby Barber, To Wed In March

At a tea given Saturday afternoon by Mrs. H. T. Finley, the engagement and approaching marriage of Miss Ebba Ann Finley to Bobby Luther Barber was revealed. The announcement tea was held in the Finley home from two until six o'clock.

The prospective bridegroom is the son of Mr. and Mrs. Luther Thompson Barber of San Angelo. The wedding will take place March 23 at the Presbyterian church.

Those receiving guests at the door were Mrs. James B. Sammons of Van Horn, Mrs. Thomas Richard Jones, Mrs. Ray Hudgens and Mrs. J. L. Neill. In the receiving line were the hostess, the bride-to-be, Mrs. L. T. Barber of San Angelo, mother of the bridegroom-to-be, and the grandmothers of the couple, Mrs. Sam E. Jones and Mrs. A. T. Wright.

The bride's chosen colors of green and white were carried out in decorations. Centering the refreshment table was an arrangement of white stock, feverfew and carnations, forming an engagement and wedding ring. The phrase "Ebba Ann and Bob—March 23" was formed of block letters on a reflector.

Those serving included Mrs. Henry Speck, Jr., Mrs. Joe Ed Hill, Mrs. J. C. Crosby and Mrs. Carroll Sproul. At a guest book were Mrs. Pat Finley, Mrs. Billy McCravey, and Miss Joyce Burk.

Others in the house party were Mrs. John Williams, Mrs. Lewis Whitten, Mrs. Weatherly Kinser, Mrs. Chris Doose, Mrs. Luke Thompson and Misses Annie Pearl Finley, Fay Finley and Martha Dell Williams.

Music for the afternoon was presented by Mrs. Joe M. Christian, Mrs. James Page, Mrs. Wilson Page, Mrs. Horace Linthicum, Mrs. Sammy Jones, Jr., and Miss Pam Jones.

Miss Finley, a graduate of the Eldorado high school, attended SMU, where she pledged Delta Gamma. Mr. Barber also graduated from the Eldorado high school and received a BBA degree from SMU. He is employed by Jones, Freeze, and Hay, accountants.

Mr. and Mrs. Con Isaacs and son of Big Spring and Mr. and Mrs. Ben Isaacs Jr. and two daughters of Junction spent the week end with the men's mother, Mrs. Ben Isaacs Sr. The Ben Isaacs Jr. family also visited her parents, Mr. and Mrs. Jeff Enochs.

Ministers, Laymen Begin Retreat At Methodist Church

Ministers and laymen of the San Angelo District of the Methodist church will gather at the Eldorado Methodist church this afternoon at 2:00 for a two-day retreat. This will be the fifth time the local church is host to the gathering.

At 6:30 tonight the local WSCS will serve supper to the group, and at 7:30 the general public is invited to a preaching service. Dr. Bryan Wildenthal, president of San Angelo College, will deliver the sermon.

The program for the two days is as follows:

Thursday
2:00-2:30, Devotional by Lynn McAden.

2:20, The Church Faces Its Task and Its Future. 1. Providing a Ministry, Ross Welch, McCamey. 2. Our Missions and Our Missionaries, J. Troy Hickman, Ozona. 3. Our Evangelistic Program, Roy Shilling, Eldorado. -4. Our Dedication to Above Tasks, A. S. Neely, Big Lake.

4:00, Recess.

4:14, The Local Church Advances. Reports of Progress in buildings, membership, Church School. Plans

for future, etc. (here each pastor may report progress, plans and achievements).

Period of Prayer and dedication and thanksgiving.

6:30, The Evening Meal (served by ladies of Eldorado).

7:30, How the Laymen may do their part. W. B. Werner, presiding. The Evening Message, Dr. Bryan Wildenthal, President of San Angelo College. The Public is invited.

9:00 p.m., Discussion on How We Can Improve Our Ministry. Preachers and laymen meet in separate groups with Mr. Werner leading the laymen in items of interest to them.

10:00, Prayer period before retiring.

Friday
6:30 a. m., Time to get up.
7:15, Morning devotions, A. R. Vetter.

8:00, Breakfast.

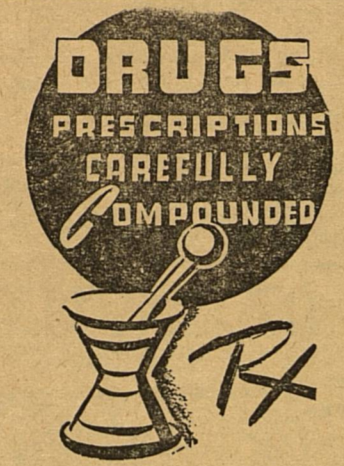

9:00, Business and discussion.

10:00, Our District Projects — Looking to the Future.

11:00, Closing Message and Dedication Task, Grady Peters of Trinity, San Angelo.

Dismissal.

Mr. and Mrs. W. A. Schuller and Susie and Mr. and Mrs. Glenn McDonald were in San Angelo Tuesday on business.

Homemakers Lay Out Youth Center

COLLEGE STATION — Young people at Beckville, Panola county, are enjoying a new youth center all because home demonstration club women, who mainly comprise the Parent-Teachers Association there, decided to take a hand.

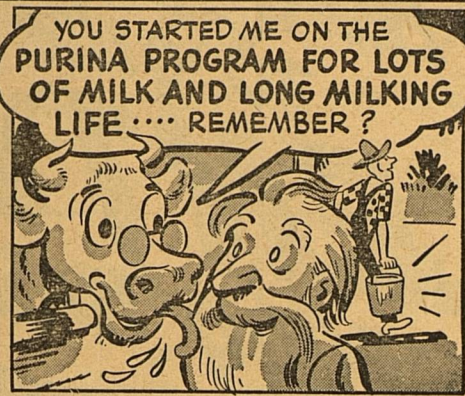

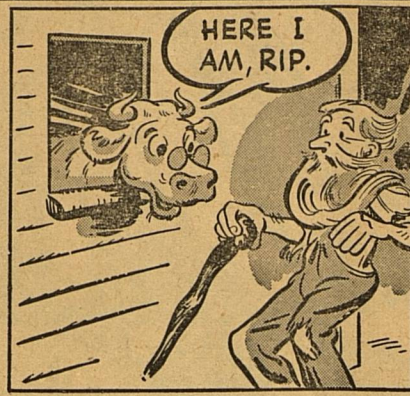

Two years ago the P. T. A. at Beckville bought an old army barracks building and from time to time the club women made improvements. A new roof was put on, new windows with screens put in, and a front porch was added. The interior was walled with knotty pine. A kitchen with cabinets, sink, hot plate and serving counter was installed in one end of the structure.

Members of the Beckville, Sims, and Harris Chapel Home Demonstration Clubs assumed the task of landscaping the grounds. They also made curtains and pads for the benches around the wall.

Minna Perry, Panola county home demonstration agent, says that the ground will be leveled and the grounds will be landscaped with native shrubs and flowers.

Included in the plantings will be dogwood, red bud, and sassafras,

Eldorado Band To Participate In Brady Clinic

The Eldorado High School Band, directed by Ralph Pauley, will participate in the third annual Heart o' Texas Band Festival and Clinic to be held at Brady on Friday and Saturday. The event is co-sponsored by the Brady High School Band and the Brady Junior Chamber of Commerce.

Twenty-two high school bands and two college bands will be featured in the various events of the Festival. This comprises the largest group ever to appear here for the affair.

First program of the festival will get under way on Friday night when eight bands will take part in a big show presented to the public at Bulldog Stadium. Six visiting bands will compete for a beautiful trophy, to be presented to the band staging the best "half-time" stunt. The bands will stage their favorite stunt presented during football season. Bands competing for the trophy are: Anson, Kerrville, Colorado City, Mason, Schulenberg, and Iraan. The Brady Bulldog Band will present a stunt but will not compete.

Highlight of the Friday night show will be the appearance of the Sul Ross College Lobo Band under the direction of John Carrico. The Lobo band will present a lengthy show, combining several of its colorful half-time stunts. The presentation will feature lighted numbers, fire baton twirling and fireworks exhibitions.

The contest for concert playing will begin at 7:30 Saturday morning in the Brady High School Auditorium. Trophies are to be awarded to winning bands in each class, AA, A, and B. Judges for the event are: Irving Diebrodt, Brackenridge High School Band director, San Antonio; Marion Busby, Taft High School Band director, Taft; and John Carrico, Sul Ross College, Alpine. In addition to trophies presented to winning bands, all other bands will receive a small trophy.

Another feature of the Festival will occur at 1 o'clock Saturday afternoon when the McMurray College Indian Band, directed by Raymond Bynum, will play a one hour concert in the auditorium. Following this concert various clinics will be held.

Following the clinics all bands will form in downtown Brady for a big parade and a mass concert. All 24 bands will be led as one band in several numbers at the Brady plaza. Following the mass concert trophies will be awarded. Bands will be judged during the parade and a trophy presented to the band adjudged outstanding in marching.

Bands to participate in the festival include: Anson, Kerrville, San Saba, Colorado City, Coleman, Comanche, Lake View, Santa Anna, Dublin, Iraan, Schulenberg, Eldorado, Eden, Mason, Goldthwaite, Burnet, De Leon, Hico, Menard, Junction, Brady Junior High School and Brady. The Brady High School Band will participate in all events but will not compete.

Women To Help Furnish Youth Room

The Woman's Club made plans for helping to furnish the youth room in the memorial building, when they had their regular meeting in the club room Tuesday afternoon.

Mrs. Marvin McAngus and Mrs. Carl Stephens were hostesses.

Mrs. Edward Meador, Mrs. Stephens, and Mrs. Archie Mittel are members of the committee which have been making plans for the youth room, and they made their report to the club at the Tuesday meeting. The club plans to decorate the walls with murals, install furniture and make curtains. It is thought that the high school home economics department will

probably assist them. Mrs. Stephens led a quiz, "Do You Know Your Government?" A salad plate was served to those present. Mrs. Emma Kirkpatrick of Santa Anna was a guest of Mrs. D. E. DeLong.

J. T. Kerr and family of San Angelo spent the week end with his parents, Mr. and Mrs. L. B. Kerr.

RECIPE OF THE WEEK
By Mary Lee Taylor
Macaroni Loaf with Creamed Tuna
Broadcast: March 3, 1951

1 slightly beaten egg
½ cup Pet Milk
3 tablespoons water
4 teaspoons grated onion
¼ teaspoon salt
few grains pepper

2½ cups cooked macaroni
4 teaspoons melted shortening
1 can condensed cream of mushroom soup
7-oz. can tuna

Grease well, then dust with flour a qt. ring mold or loaf pan. Mix egg, milk, water, onion, salt, pepper, macaroni and shortening. Put into mold or pan. Set in pan holding ½ in. hot water. Bake in moderately slow oven (350) 45 min., or until firm. Remove from oven; loosen sides of loaf with knife. Let stand 5 min. Mix and heat until steaming hot mushroom soup and flaked tuna. Turn out loaf. Serve with creamed tuna in ring or around loaf. Makes 4 servings.

Note: If creamed tuna is too thick, add 2 tablesp. water.

You Will Need:
Pet Milk, Macaroni, Canned Tuna, Cream of Mushroom Soup.
