NUMBER 2

## Telephone Damage Reported Following Recent Ice Storm

Extensive damage was done to telephone lines in Schleicher county Thursday, when practically all of the lines in the county went out as the result of the ice storm.

The extent of the damage has been surprising to both officials and the general public, as the ice did not appear to be heavy enough to break poles and pull wires down—but investigation showed that many poles were broken and lines all over the county were down in enough places to destroy service.

In working order at one time in rural areas were only two lines—one to the McIntosh place and the other to the Captain Thad Thomson ranch.

Three crews of repair men were called out of San Angelo to start on the repair project. By Monday there was only partial service in Reynolds, Ft. McKavett and Bailey Ranch areas.

It is estimated that it will require all week for the crews to get the entire county back to normal.

## Month of January Is 'Hand Signal' Month

Austin.—This is "hand signal month" in Texas and you, Mr. and Mrs. and Miss Automobile Driver, are urged to apply the "signs of life" not only in January but the rest of your days. In fact, you will be a law violator if you fail, but if you comply, you might save a life.

Traffic safety exponents are convinced that death and injury on streets and highways can be lowered greatly if motorists practice the "common courtesy of applying hand signals." That's why January has been designated as "hand signal month" in the Lone Star State.

"Participation in this traffic safety educational program requires only minimum effort on the part of drivers," said A. W. Breebland of Dallas, president of the Texas Safety Association, Inc., which is sponsoring the campaign. "All a driver needs to do is learn, then apply the signals. It is easy if you remember the slogan: Right turn—hand up. Left turn—hand out. Slow or stop—hand down. A hand signal could be the means of averting a death dealing accident."

Breebland stated that need for courtesy in driving is accentuated by the fact that the traffic death list for Texas in 1951 will show in excess of 2,500 persons when final figures are compiled.

"That's an unprecedented highway death rate for our state," he said. "Traffic safety education is a fine thing, but we must have the co-operation of motorists if needless slaughter is to be averted. More drivers must practice the precepts of traffic safety education. Applying hand signals lends that opportunity. We remind drivers that failure to give hand signals is a violation of law. By obeying the law you might save a life—and that life could be your own."

The state-wide hand signal campaign was begun on January 3 when Governor Allan Shivers issued an official memorandum calling on all motorists to "learn proper hand signals and apply them as a means of lowering the death and injury toll on our streets and highways." The project, promoted by press and radio facilities of the State, is directed by J. O. Musick, general manager of the Texas Safety Association, and Weldon Hart, formerly of Governor Shivers' press staff, both of Austin, and Bruce Cunningham of Dallas, representing the Dallas Civitan Club and the Citizens Traffic Commission of Dallas.

The Episcopal Guild met at Mrs. Jim Willoughbys Monday, Jan. 7 all day. Five members were present.

## TRIGGS ARE BACK FROM MIAMI—ARE ENTHUSIASTIC OVER FLORIDA'S SWIMMING, GREENERY, CLIMATE

Mr. and Mrs. Charlie Trigg left 45-degree weather at Miami, Florida, to return to Schleicher county's freezing temperatures and icy weather last week, after Trigg had served as an official at the Orange Bowl game at Miami.

Making the trip both ways by plane, the Triggs were able to appreciate the contrast between Florida's sunny weather and West Texas' cooler climate. Mrs. Trigg reports that people were lolling on the beach, in swim suits, shorts, or other warm weather garb, which they wore everywhere—that the flowers and shrubbery were beautiful to them, after they had become accustomed to this county's drab browns and grays.

## Schleicher County Oil News

### East Extension

The east side of the south part of the Huldale (Pennsylvanian) field in northern Schleicher County showed promisingly Tuesday as the result of a 58-barrel oil flow in four hours by a location east out-post.

Skelly Oil Co., Monarch Oil & Royalty Corp. and Southland Royalty Co. No. 1 W. A. Davis estate on a drillstem test from 5,640 to 5,700 feet showed gas in four minutes and oil in 34 minutes. It flowed to pits four minutes, then to storage four hours, making 58 barrels of 39.2 gravity oil with no water.

No. 1 Davis was one of three tests on the Davis estate land for which the operator applied for drilling permits late in September, 1951. Skelly owns a half interest, Monarch a quarter and Southland a quarter in the lease on section 43.

Ohio Oil Company No. 16 Thomson, another Huldale area test, is at plugged back total depth of 5,695 feet testing through perforations at 5,651-88 feet. Although it is making some oil, no actual gauges have been reported recently.

Ohio No. 22 Thomson, another test in the same area is at plugged back total depth of 5,715 feet in swabbing to test. Only load oil had been recovered on last gauges. Operator representatives say both the Ohio projects will make oil wells.

Standard Oil Company of Texas No. 2-1 Fowler, is drilling below 1,029 feet in lime. This also is a Huldale test.

Fullerton No. 1 McIntosh, Schleicher wildcat, is drilling below 5,674 feet after a drillstem test from 5,650-74 feet developed only 110 feet of drilling mud with no shows.

Taylor Refining Co. No. 1 Tislie Wardlaw, wildcat C NW NE 18-K-GH&SA, 20 miles southeast of Eldorado, was drilling at 5,172 feet in Strawn lime. Recovery on the last drillstem test, from 4,812-55 feet, lasting 2 1/2 hours, was 110 feet of muddy salt water and 760 feet of salt water. Open flowing bottomhole pressure was 360 lbs., 30-minute shut-in pressure 1,475 pounds.

Taylor Refining Co. and Chas. B. Renard No. 1 G. C. Crosby, slated 5,500-foot wildcat C SW NW 14-K-GH&SA, 18 miles southeast of Eldorado, was reaming hole from 6 to 10 inches at 275 feet, with total depth 461 feet in shale.

Stanolind Oil & Gas Company and Stephens Petroleum Company of Oklahoma City each staked location for a wildcat this week in Schleicher County.

Stanolind will drill its No. 1 J. S. Roach as an 8,000-foot wildcat in Northwest Schleicher two and three-quarter miles southeast of Humble Oil & Refining Company No. 1 Pearl Williams, assured Strawn lime discovery which is now in the process of completing.

Location is 960 feet from north and east lines of Texas Central Railroad Company survey No. 1216. That puts it 15 miles northwest of Eldorado.

Stephens will drill its wildcat as No. 1 Jeff Harkey in Northeast Schleicher. It is to dig to the Pennsylvanian.

Location is 660 feet from south and east lines of section 75, block H, GH&SA survey. That puts it two and one-quarter miles east and slightly north of Phillips No. 1 Mrs. W. J. Weddell, opener and lone producer in the Oliver-Strawn field.

Ab Williams is farther from home than he has ever been before. He accompanied his daughter Mrs. Jewel Smith to Phoenix, Arizona, leaving with her by car Sunday. Mrs. Smith expects to move back to southwest Texas, probably to San Angelo, in a week or two.

## BANK DIRECTORS REELECTED

At the annual meeting of shareholders of The First National Bank of Eldorado held Tuesday, January 8th, no change was made in the directorate and J. B. Christian, J. E. Hill, W. O. Alexander, V. H. Humphrey, and Sam E. Jones, who have served the bank as directors for many years will continue in that capacity for 1952.

It is reported that directors will meet at some later date this month to elect officers and employees for the current year.

## New Babies

Born in Carlsbad, New Mexico, a daughter named Nancy Ruth, to Mr. and Mrs. Bobby Gene Newman of San Angelo. The baby weighed seven pounds and 15 ounces at birth. Grandparents are Mr. and Mrs. Frank Newman of Marfa and Mr. and Mrs. John Shaw of Carlsbad, New Mexico, and a great grandparent is Mrs. W. H. McClatchy of Eldorado.

Born Tuesday morning at 4:00 in a San Angelo hospital, a son to Mr. and Mrs. Wilson Page. The baby weighed eight pounds and 15 ounces at birth and has been named Robert Wilson, after his uncle, R. J. and his father, Wilson. The young mother is the former Helen Brown of near San Angelo. Grandparents of the young man are Mr. and Mrs. Oscar Brown of the ranch near San Angelo, and Mr. and Mrs. Bert Page of this city, and a great grandfather is John D. Perkins, San Angelo.

## The Military

Wayne McGill of Scott Field, Illinois, spent the past two weeks here and in San Angelo with his parents and other relatives. He left for Illinois Tuesday.

Mr. and Mrs. George Neithercutt drove to Abilene last week with their son Charles Ray Neithercutt, who volunteered for service. He went from there to Lackland Field, but will be stationed at Wichita. He and his wife have been living here while he was employed with Ohio, but after he left for service she returned to Hobbs, New Mexico, to stay with relatives there for the time. Mr. and Mrs. George Neithercutt visited in Baird and Roscoe with relatives before returning to Eldorado.

Mr. and Mrs. Ed Phillips and two children left Wednesday morning, for Comanche, Okla., upon receiving word of the death of Mrs. Phillips' grandmother, Mr. Phillips, who works for Ohio, will return home with his family during the coming weekend.

## Pre-School Clinic To Open Monday; Everyone Invited

The first in a series of meetings offered to parents who are interested in pre-school children will be held next Monday night, in the high school, beginning at 7:30. Eight such meetings are planned to make up the 12-hour course, each session lasting 1 1/2 hours, and all bearing on the subject "Building Healthy Personalities."

Rev. Roy Shilling and Supt. T. E. Holcomb will be speakers and there will be round table discussion of pre-school problems, under direction of local leaders.

Mrs. Hollis McCormick is chairman of the pre-school clinic committee, other members of which are Mrs. John Stigler, Mrs. Wynndell Hall and Mrs. W. J. Humphrey. These met Monday night at the McCormick residence to map out plans, Miss Jewel Shelton also attending.

This is the first time the pre-school clinic has ever been held here. It is a part of the Parent Teacher program, and will be conducted under auspices of that group.

The committee members stress the fact that this is a really worthwhile program, and that a good attendance of all people who are interested in children is desired. It is expected that a variety of subjects will be taken up by the speakers, and also that a vital part of the value of the meetings will come from the group discussions under guidance of the round table leaders.

The opening meeting is next Monday night. All are urged to attend this meeting, and to make every effort to attend the entire series of eight.

Both parents of the children are urged to attend these meetings. To help both to get away from home, the home ec girls will baby-sit while the course is in session—enabling parents to bring the children to the schoolhouse.

## BAND MEETING TO DISCUSS NEW UNIFORMS

There will be an important band parents' meeting Thursday, the 17th, at 7:00 p.m., in the school auditorium, to which every person in the community is invited.

The question of new uniforms for the band will be brought up, and samples will be shown—this is just one of several important matters which will come up for consideration and discussion.

Band director Ludwig urges every person interested in the school and the band to be present at this very important meeting.

## Commissioner Belk Seeks Re-Election In Precinct No. 4

H. A. Belk this week authorized the Success to announce his candidacy for re-election to the office of Commissioner of Precinct No. 4 of Schleicher county subject to the action of the Democratic primary in July. Mr. Belk is now serving his first term as commissioner of his precinct.

In making his announcement Mr. Belk said he wished to thank the people of the county and of his precinct for their co-operation during his first term. "I hope," he said "that with the experience I have gained, that you will see fit to return me for a second term as your commissioner. If you do so I shall continue to serve you to the best of my ability. Your vote and continued support in the coming election will be deeply appreciated."

## Band Clinic Is Set For January 26th

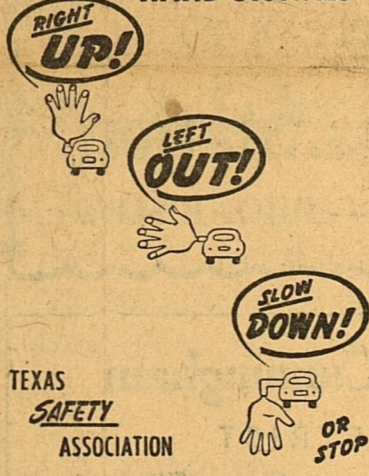

Plans for a band clinic, to be held here Saturday, Jan. 26th, were announced this week by Charles Ludwig, band director, and T. E. Holcomb, superintendent of schools. The event is expected to attract about 1,000 students from 10 or 11 schools over the area.

Mr. Ludwig said that sectional classes would be held in the morning, at which time 100 students would be picked for the master band. Rehearsals in the afternoon will be followed by a parade at about 4:00 o'clock.

The day will be climaxed by a free concert at 7:30 in the high school auditorium. This will be directed by Joseph Bellamah, band director of Sul Ross college.

Mrs. J. B. Montgomery is on the sick list this week.

## GIVE PROPER HAND SIGNALS!

## Southwest Texas Electric Co-Op To Expand In Crockett

Southwest Texas Electric Co-Operative, Inc., has received notice that loan of \$154,000 has been approved to build 108 miles of line in Crockett County. These lines will serve 35 members and will be extension of lines out of Midway sub-station and from sub-station four miles north of Sheffield.

The cooperative has made formal application for allotment of aluminum and copper wire for these lines. Since both are in very short supply it will probably be April before the cooperative will know in which quarter this allotment will be available.

As soon as supplier can furnish firm delivery date of this wire a contract will be let for construction.

## MRS. MOORE RESIGNS AS ENGLISH TEACHER

Resignation of Mrs. Jack Moore, English teacher in the seventh and eighth grades, was accepted by the school board Monday night, Supt. T. E. Holcomb announced this week. The resignation becomes effective with the close of the first term this week.

The Board approved the application of Mrs. Charles Ludwig for the vacancy at the same meeting. Mrs. Ludwig holds the Bachelor's degree with a major in English from Baylor University.

## NEW CAMERON BOOKKEEPER HERE FROM BROWNWOOD

David Stewart, who has been bookkeeper for Cameron's in Brownwood, has moved to Eldorado as bookkeeper for the local business. He succeeds Stewart Davis, who has entered service.

His family consists of wife and two daughters, Frances, age 14, and Ruth, 1 1/2. They occupy Mrs. Bob Evans' rent house. Mr. and Mrs. Stewart are members of the Church of Christ.

## LIONS CLUB

Sponsoring of a city-wide clean-up day to haul off rubbish from city lots and streets was talked at yesterday's Lions club meeting. The club will set a date soon Lion President Carol Ratliff said.

Reporting for the Cub Scouts, Rev. Roy Shilling said that skating in the Memorial building was now going on each Saturday, from 3:00 until 9:00 o'clock, under sponsorship of the Cubs.

Minister Marshall Davis of the Rock Church of Christ spoke to the group.

Mr. and Mrs. Tom McGill attended the reunion of the Mrs. A. A. McGill family in San Angelo on New Year's.

## Eight Teams Will Participate In Basketball Tournament

Eight high schools including Eldorado's will take part in the annual Invitational Basketball tournament to be held here starting Friday night, Jan. 11, it was announced this week by Coach Miers Johnson. Ozona, Sonora, Del Rio,

Uvalde, Rocksprings, Iraan, and the San Angelo Kittens will try for the championship during the two-day event.

School men state that admission for any of the games will be 50c and 25c, except for Saturday night

when all admissions will be 50c.

The first games are set for Friday night and Saturday morning, with semi-finals Saturday afternoon. Consolation final will be Saturday at 7:30 p.m. followed by the

championship at 9:00.

In recent games, Eldorado downed Iraan here Friday night 31 to 27, and Tuesday night the Eagle "A" team won 36 to 35 and the "B" team 35 to 31 over the San Angelo Kittens.

CONSOLATION		CHAMPIONSHIP	
		ROCKSPRINGS FRIDAY, 7:00 P. M. SAN ANGELO KITTENS	
SATURDAY, 2:30 P. M.			SATURDAY, 1:30 P. M.
		DEL RIO SATURDAY, 10:00 A. M. IRAAN	
SATURDAY, 7:30 P. M.			SATURDAY, 9:00 P. M.
		ELDORADO FRIDAY, 8:30 P. M. SONORA	
SATURDAY, 4:30 P. M.			SATURDAY, 3:30 P. M.
		UVALDE SATURDAY, 11:00 A. M. OZONA	

### Missionary To Preach At Eldorado Presbyterian Church

Dr. Arch C. McKinnon, a missionary of many years in the African Congo will fill the pulpit at both the morning and evening services on Sunday, Jan. 13th.

Dr. McKinnon is a native of Tennessee and was educated at Arkansas Presbyterian college of Batesville, Arkansas, and received his seminary training at the Louisville Presbyterian Seminary of Louisville, Ky. His work in the Congo has met with marked success. Mrs. McKinnon who is a native of Greenwood, Miss, will not accompany Dr. McKinnon due to other speaking engagements in Louisiana and Mississippi.

It is a singular pleasure for Rev. and Mrs. Bruce to have Dr. McKinnon in their home and church as he has been a lifelong friend of

Rev. Bruce, having worked as a boy for Rev. Bruce's father.

Mr. McKinnon is a forceful and pleasing speaker and will be especially interesting to the young people. We are planning to have a special service for the youth at the vesper service.

Mr. McKinnon will speak to the Young Adults of Rev. Bruce's class at ten o'clock on Sunday. The evening service will be six o'clock so that the friends from other churches may have the privilege of hearing Dr. McKinnon. We cordially invite all of the friends of our church to worship with us on these occasions.

On Tuesday at nine thirty o'clock the Presbytery of Mid-Texas will convene in the Eldorado Presbyterian church. This will be the first time that the Presbytery of Mid-Texas has met with the local church. However the old Brownwood Presbytery met with the Eldorado church on several occasions.

The Mid-Texas Presbytery is comprised of the area covered from Eldorado through Abilene to Sweetwater and over to Fort Worth and back down to San Saba and Coleman. The services will cover the most of the day. There will be around 75 ministers and elders in attendance.

At the close of the Presbytery a group of the men from the Eldorado church will meet in a Stewardship session at the St. Angelus hotel in San Angelo.

### Personal News Items

Bill Hatcher of Big Lake is cook at the City Cafe.

Jerry Wayne, daughter of Mr. and Mrs. Tom Westbrook, has been ill with chicken pox.

Guests Sunday in the home of Mr. and Mrs. Jack Ratliff were the Vernon Ratliffs of Ozona and J. L. Ratliff and the Curtis Smith family of San Angelo.

Elaine, daughter of the Chan Whittens, is ill with chicken pox.

Mr. and Mrs. E. L. McClure returned Sunday from Marlow, Oklahoma, where they visited the latter's parents.

Mr. and Mrs. Clemens Sauer had as guests Saturday Mrs. Sauer's parents, Mr. and Mrs. R. S. Trimble of Ft. McKavett and her sister, Mrs. Paul Patton and family of San Angelo.

Gaynell, seven-year-old daughter of Mr. and Mrs. Buster Dickens, had her tonsils removed in a San Angelo hospital last week.

George Williams, Jr., of San Antonio, and Mr. and Mrs. B. K. Neill and daughter Jo Helen of Odessa spent the past weekend here with their mother, Mrs. George Williams.

Mr. and Mrs. Tom Alexander and John Alexander, spent the weekend in Austin with relatives.

Mrs. Lynn Alexander has been on the sick list this week.

Mr. and Mrs. Arch Crosby and daughter Grace spent last Sunday in Villa Acuna.

Recent visitors in the home of G. C. and Arch Crosby were Mr. and Mrs. Jim Brown of Mason.

Mr. and Mrs. Thomas Baker spent the day Sunday in San Angelo with relatives.

Mrs. Bill Mund, who has moved back to Schleicher County, returned Monday to her old job at Hext's Zero.

### First Baptist News

We were still off in our Sunday school attendance. 176 present Sunday. Our goal for 1952 is 200 average attendance. Two orchid classes Sunday. The intermediates and beginners with a grade of 70. Onions to the adults with a grade of 40. Let each of us accept our goals for 1952 and work diligently to reach them.

Don't forget two important dates—January 21, Brotherhood supper at 7:00 p. m., and the picture "Mr. Texas" will be shown in the auditorium at 8:00 p. m. the same evening. January 28 through February 1 the pastor will teach the book of Revelation each evening beginning at 7:00. Let us put these on our calendars of activities.

Remember that the workers conference has been put off one week because of the evangelistic meeting at Fort Worth. Our next workers conference will meet with the Emanuel Baptist church in San Angelo. This will be an evening meeting beginning at 5:00 p. m. We are hoping that a good

group will go to this meeting.

The pastor will preach Sunday morning on the subject, "Less than Human." His message Sunday evening will be, "Why Attend Church?" We issue a cordial invitation to all to be in any and all of our services. If you are a missionary Baptist and are looking for a church home you need look no further. Come visit "The friendly church with a spiritual program." We have a place for the entire family.

Each Wednesday evening at 7:00 p. m. all of those who put a major place for prayer in their lives meet for prayer. Won't you come join with us as we seek God's leadership for our church and our lives. The greatest reason prayer is not answered is because we do not pray. Will you meet us at the place of prayer each Wednesday evening?

Our Lottie Moon Christmas offering has reached a total of \$695.00 through Sunday. We had hoped to reach the \$700.00 mark. Our goal was \$1000.00. All of this offering which is taken at the Christmas season each year goes to foreign missions. The goal of

Texas Baptists this year for this offering was \$1,000,000.00. The goal will be reached and exceeded. I know you will be glad that you had a part in it.

Pamela Calk, daughter of Mr. and Mrs. Eldon Calk, has chicken pox.

Mr. and Mrs. R. A. Rogers and Jo Nette of Uvalde visited last week here with Mrs. Rogers' sister Mrs. Kenneth Cheek and her family.

Mrs. May Mercer returned from San Angelo Friday, after a holiday visit with relatives there.

Barbara Fry, age eight, is one of the many children in the county with chicken pox.

Mrs. Homer Wolfe and baby, who have been staying in Eldorado during the holidays, are in Kilgore visiting Mr. Wolfe's relatives until Feb. 1.

Mr. and Mrs. Fred Gunstead and son Bill visited the Walter Dufraim family in Eden Sunday afternoon. Mr. Dufraim is publisher of the Eden Echo.

From where I sit... by Joe Marsh

### It's Slim's For An "Honest" Meal

Most people thought Slim Benson would probably go broke when he first started his system of letting customers figure out their own checks over at his big diner on the highway.

Slim trusts them to pay for as much as they eat—you simply tell Sally, his cashier, the amount of your bill. It works, too. Take the other day when Buck Harris told Sally his bill was 35¢.

Now I was right there with Buck and I knew all he had was coffee and pie which comes to a quarter. "How come thirty-five

cents?" I asked Buck. "Had an extra cup of java the other day, Joe, and forgot all about it—'til now," he says.

From where I sit, most people are basically honest—and that goes for their opinions, too, even though they may be different than our own. I like a glass of beer with my dinner; you may prefer something else... but we all ought to be allowed to "figure it out" ourselves.

Joe Marsh

Friends here will be interested in learning that the Rev. George Cartwright, who has been pastor of the Christian Church in Bement, Illinois, and who recently received his doctorate, have moved to Camden, Arkansas, where the pastor will serve the Christian Church. Mrs. Cartwright is the former Leola Sauer.

Thad Dildine, who moved recently to Eldorado, has started work for the county, replacing J. T. Ottabury, who has gone to Robert Lee to rough neck in the oil fields.

Bill Graham of Abilene visited early this week in the home of his wife's parents, Mr. and Mrs. Fred Riley.

### YE MUST BE RE-BORN

"Jesus answered and said unto him: Verily, verily, I say unto thee, except a man be born again, he cannot see the Kingdom of God." John 3:3.

Notice just who is speaking. It is the Son of God. That makes it to be the final in any language. Notice next that He says, "A man" which makes it "any man" even you and I. The reason a man must be re-born is that he was conceived in iniquity and born in sin. Psm. 51

So you and I were born in sin, so to get out we must be re-born and that is the only way.

Now you say: I want to be re-born and saved. Now what must I do. You go to a church where God the Holy Spirit dwells and the word is preached and when you hear and believe God will give you power to become the Son of God. For Faith cometh by hearing and hearing by the Word of God. Rom 10:17.

So come to church. Pray that God will convict you of sin.—F. H. Pryor, Fundamental Baptist Church.

25 YEARS in SAN ANGELO

**Physical Health Needs Attention After Holidays**

You're probably resolving all over the place these days, taking a backward look in order to see where you've been before looking forward to see where you are going. The division of years is a time to take stock and find out the aim and purposes of your life.

Resolutions mean re-solving, clearing up the difficult and complex, putting things in simpler forms.

After the fun and gaiety of the holiday season, there is likely to be a letdown in the spirits as this backward and forward glancing turns itself into re-solving the complexities of life, putting aims and ambitions into simpler terms. And when the holiday season has been too tense, too gay, too strenuous, there are not only mental letdowns but physical signs, too, that you've been overstretching yourself a bit.

Headaches, dizziness, the shakes and that plumb-tiredness are about the leading physical symptoms of the aftermath of tension. They may be expected after any excess, whether it be eating, drinking, playing, or partying.

Headaches may also arise from too much smoking, constipation, fatigue, insomnia, poor ventilation and noise. If the headache is part of the holiday hangover, it is usually a temporary thing easily controlled by rest and aspirin. But if it is continuous or returns often, a headache should be a warning that you may need medical attention.

Headaches across the front of the head may indicate an inflammation in the sinuses or nerve pains. When a headache causes pain on one side of the head, it may be due to eye strain. Those headaches that strike the top of the head may be traced to worry, anxiety or emotional conflict of some kind. Some headaches are felt in different places at different times, creating a combination of the pains named, arising from many different causes.

Some headaches pound and hammer, some take the form of a band of pain around the head and some feel like they are splitting the head. It is often significant to your doctor exactly where you feel those headache pains and the form the pains take.

Different kinds of dizziness, too, have different medical meanings. Stress and change in your regular routine of living may make you feel dizzy or giddy; when you say everything's been a mad whirl, you may be speaking literally.

Dizziness, called vertigo, is not a disease itself, it is considered a symptom of stress or a symptom of disease when it returns to bother you again and again. It may be a feeling of whirling or it may be a feeling of bewildering lightheadedness. In the whirling type of dizziness, whether it's you that whirls or whether it's the things you look at that whirl, the source of disturbance may be in the small canals that control balance associated with the ear or with the nerve connections of these semicircular canals with the brain. That disturbance may be caused by too much fluid in the body, too much salt in the body, allergies, infections, neuritis (nerve inflammations) or even by tumor of the nerve which connects the organs of balance with the brain.

The light-headed type of dizziness, when it persists over a long period, is thought to originate in the higher centers of the brain because of blood pressure disturbances, glandular changes, eye troubles, infections and sometimes even brain concussion.

So like most symptoms of disease, even dizziness can be a minor matter or if persistent, it may be an indication of something quite serious.

Tension, excitement, fatigue and exertion can also cause the shakes, the trembling of hands. Even quite normal people may have tremors at such times, the kind of shakes that start up when you start to do something, go away while you're doing your task, and then return when you relax from your task, such a task as stretching clear out to take the star down from the very treetop of the Christmas tree or putting the decorations away in that corner where you have to stretch so hard. You can make your fist shake. Clench your fist, arm and shoulder muscles. Your fist shakes. That is a voluntary tremor. It looks exactly like the involuntary tremors, the ones you have no control over.

In addition to fatigue, stress, and the other causes mentioned, drugs and alcoholic beverages can also cause involuntary tremor.

Like the other symptoms, tremor responds best to rest. If rest and resuming a sensible, non-exerting routine do not restore your control over the shakes, then it is wise to have a medical checkup.

Mental and physical overwork and overplay can also leave you plumb tuckered out. Lack of rest, "snacking" instead of eating balanced meals, and driving yourself beyond the normal realm of your activities can all lead to fatigue, which has a way of sneaking up on you right after the holidays. Rest in bed or at least as limited a physical activity as possible is the first necessity for overcoming fatigue; stimulating drinks such as tea, coffee and cola drinks should either

be cut out entirely or else cut down to a minimum.

"You can't re-solve your complex pattern of life when you're headache, dizzy, shakey or tired out. The year ahead deserves a better outlook than the one you can give it with any of these symptoms. Obviously, your first resolution should be, in such a case, to avoid excesses of any kind; and the other resolutions may have more meaning if you take a good rest first and simplify your aims and purposes after you get rid of your "holiday jitters."

Mrs. Andy Kirby and son spent the weekend in Dallas where Mike, age three, returned to the doctor for examination and further treatment. It is understood that the child, who injured his eye with a knife with which he was playing, has a good chance of saving his sight in spite of the seriousness of the accident.

Mrs. W. H. McClatchy has been on the sick list but is improving.

Mrs. L. T. Wilson is on the sick list but is improving.

SPECIAL CALL MEETING

**Emergency Ordinance**

Be it remembered that there came and was held a special meeting of the City Council of the City of Eldorado, Texas, on this the second day of January A. D. 1952 at the regular meeting place with members present to-wit—

J. C. Ratliff, Mayor, A. J. Atkins, City Secretary; W. M. Patterson, Jr., Gus Love, S. M. Oglesby Jr., Aldermen; and among other business transacted, an Emergency Ordinance was passed, to-wit

Be it Ordained by the City Council of the City of Eldorado, Texas, that an emergency has arisen, concerning the report of rabies within the bounds of Schleicher County, and the City of Eldorado,

We the City Council, of the City of Eldorado, Texas, deem it necessary to pass an ordinance regulating the vaccination of all dogs, against rabies, that are within the city limits, of the City of Eldorado, Texas.

Motion by W. M. Patterson Jr., seconded by Gus Love, aldermen, to pass an ordinance, prohibiting any dogs to run loose within the City limits, that have not been vaccinated, against rabies, and any person or persons, found guilty of violating any provision of this Ordinance, shall be fined not less than Five Dollars (\$5) nor more than Fifty Dollars (\$50), and each and every day continuance of any provisions of this Ordinance shall constitute a separate offense. Motion passed.

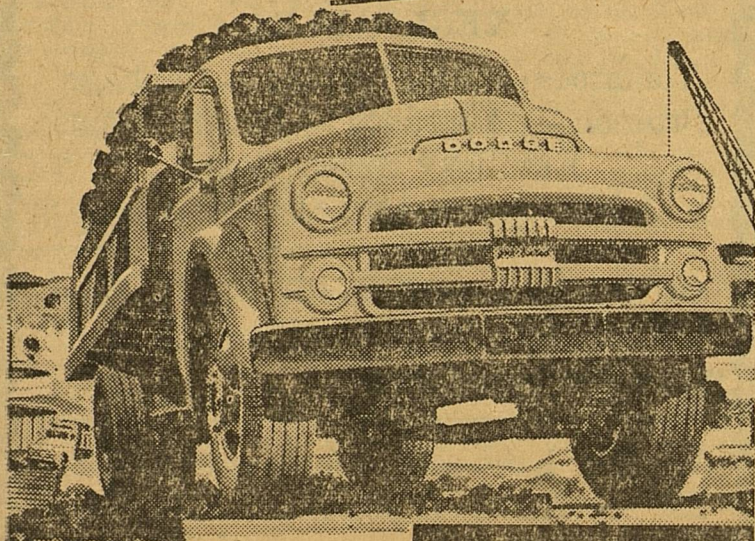

Emergency — This ordinance will take precedence over any existing ordinance, and will become effective five days after its passage.

After this limited time all dogs will be put in pound and held for three days, and if not called for and vaccinated against rabies, then dog will be disposed of.

A. J. Atkins, Secretary

J. C. Ratliff, Mayor

Help your cows produce a big Calf Crop  
SUPPLEMENT RANGE WITH

**PURINA RANGE CHECKERS**

While a cow is carrying her calf, nutritional needs are high, much higher than can be normally supplied by grass alone. For this reason, thousands of well-known ranchers supplement with Purina Range Checkers. Checkers supply vitamins, minerals, carbohydrates and a variety of protein. For big results—a big calf crop and lots of milk—feed Purina Range Checkers. The variety in Range Checkers makes a difference, all right!

POST - SCRIPT

It is understood that those who for some reason missed out on having their pets vaccinated Saturday may call the City Hall or Roy Andrews and make arrangements to have it done.

Dry Schleicher County continues to be dry. And it gets drier and drier, establishing what looks like an all-time record.

There is no surface moisture at all—furthermore, there is no subsoil moisture either.

People in the county who for some reason or other are having to dig down to rock, report seeing not one sign of moisture.

The situation begins to look more serious with the passing of each dry, and windy, week. There will be no planting until there is chance

of bringing up the seed. Just one surface rain will not do that—it will take many inches of rain before it can do any good.

Those who have studied the situation here over the years state that there has never been anything like it—that never before has the subsoil been so completely dry.

Roy Andrews, city fire marshal, is feeling quite grateful to the general public for the fine fire record established for the city in 1951: there was not a penny of damage in Eldorado from fire during the whole year!

He says to express his thanks, with the hope that there won't be a fire in 1952 either.

He expects to report each fire we do have in detail: when the fire boys are called out he will report the number of men answering the fire, the fire drills held and the number there, etc.

We'd been wondering what had happened to the city's trash hauler, when we noted a mounting pile of rubbish at our residence—now we learn that the trash collector had quit for lack of sufficient salary.

The City Council has done something about the situation by raising the fees on collections—a logical solution, of course. Details they've worked out are listed elsewhere in this paper, in a city resolution signed by the mayor and city secretary. Everyone should read it carefully.

A lot of headaches crop up in the running of a town—the brunt of the thing falling on the city council who may think sometimes that there is nothing in it for them except a lot of abuse. Anyway, they're due some consideration all the way along—the least the common man can do is try to understand what they are trying to do, and then cooperate by being informed.

With the start of the new year, the businessmen are busy on inventories and income summaries and other related subjects. Some businesses have to devote quite a lot of time to it. Then, too, the younger businessmen are slower at it than they will be when they get a few more years' experience at keeping records in order through the business year. It's all a painful process, though, and the paying never gets any easier.

It amazes us how many self-employed people in the business district are kicking about the new social security tax for people operating their own businesses.

We've kicked for years because we HAVEN'T been able to get social security—it takes a lot of property to support a man and his wife from the income, and anyway things can happen to the property too—losses than can leave him strapped. We've been wondering if they would ever get around to putting the self-employed on social security—they did, and we're paying it this year for the first time.

Personally we think this is a good thing for business folk and we're rejoicing about it even if we're practically alone saying so.

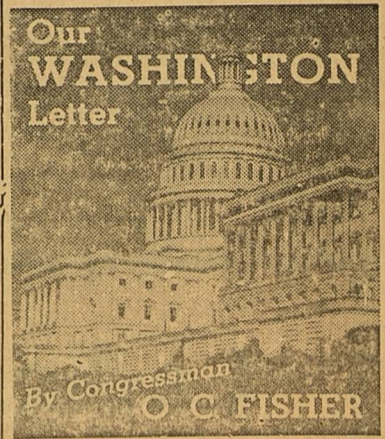

Courthouse happenings: T. P. Robinson, Jr., was installed as county attorney on January 2, succeeding Joab Campbell, and is taking care of county business along that line in the Robinson office on the top floor of the building. Mrs. Mabel Parker, county treasurer, now occupies a larger office, the partition having been recently removed between her old office and Mr. Campbell's on the main floor.

In the office of the tax assessor-collector, records show that quite a few people expect to vote this year: 441 had paid their poll taxes by Tuesday morning, out of a voting strength of possibly 1000.

Among those attending the funeral of Mrs. R. I. Key at San Angelo Monday were her grand daughter Mrs. Elton McGinnes and her family of Eldorado.

FIRST BAPTIST CIRCLES

Circle No. 1 met at the home of Mrs. T. W. Johnson Monday afternoon, ten adults and two children attending. Mrs. John Stigler was lesson leader, assisted by Miss John Alexander, Mrs. George Williams and Mrs. F. B. Calcote. The group decided to do as suggested and send individual letters of protest to congressmen concerning the proposed appointment of an ambassador to the Vatican at Rome. Refreshments were served.

With this first Newsletter of 1952, I extend my greetings and best wishes to each of you for the New Year. Though it's too much to hope for, it is my wish that the best day you had in 1951 may be the worst for you in '52.

During the past three months I have had the privilege of visiting in most of the counties of our large 27-county district. I made more than 40 appearances before different groups, including Farm Bureau meetings, Soil Conservation, REA, PMA, livestock producers, Angora Association, School and College assemblies, Chamber of Commerce, Service Clubs, and a multitude of other meetings. As I made the rounds I had a chance to talk personally with hundreds of friends and constituents and to obtain the benefit of their views on many complex problems with which our Nation is faced today.

Everywhere in our area the drought is, of course, taking its toll, and along with this misfortune there is a very serious shortage of labor to carry on ranching and farming operations.

I found the people to be of one mind on most of the basic issues with which we are confronted. They are very properly concerned about high taxes, the magnitude of the public debt and the present-day cost of government. Most of the people want this nation made strong and powerful during the critical and uncertain time. But they loathe the waste and extravagance by the military as well as all other agencies.

They feel there has been poor judgment used by the Executive branch in hiring many key officials, and that the Congress has acted with wisdom and propriety in exposing crime and corruption wherever it could be found. Many expressed the hope that these investigations be continued so long as they seem to be doing any good.

THE PRESIDENT'S action in calling for a complete revamping of the Bureau of Internal Revenue, with the offices of Collectors to be abolished and most key officials to be put under Civil Service, offers a plan patterned after the Hoover-Commission recommendations. The proposal will receive the attention of the Congress early in the session. While coming at a late date, the plan seems to be basically sound. There is no way of preventing dishonesty and corruption if dishonest or corrupt men are employed, whether under Civil Service or not. But the reorganization should discourage a practice of political rewards in making appointments, and through an independent inspection service, should be a very proper step in the right direction.

Commissioner of Internal Revenue, John Dunlap, is said to be

about the busiest man in Washington these days. Having taken over the job last summer after serving ably as Collector of Internal Revenue at Dallas, he has been prying into the caliber of personnel and has removed a lot of them. He has disclosed that a total of 166 employees of the tax agency were fired or forced to resign in 1951, including six Collectors. Dunlap and thousands of other Federal employees are considered to be honest, but it seems that he inherited a good many politically inspired appointees who turned out to be corrupt.

Tidelands due to be acted upon by the Senate this spring. A bill to confirm title to our tidelands in Texas, was passed by the House last July by a vote of 265 to 109—more than enough to override a veto. But the margin may be closer in the Senate despite the valiant efforts of Senator Connally, Senator Johnson and others.

Spearheading the opposition will be Senator O'Mahoney of Wyoming and Senators who are closely aligned with labor union pressure. Both the CIO and the AFL have been very active in supporting the Administration's grab of our tidelands. Last week the magazine LABOR, representing 15 railroad unions, joined in the demand that Uncle Sam gobble up oil reserves under the tidelands along the coasts where ownership in the States was recognized for more than 150 years. In the case of Texas, ownership was defined in the annexation agreement in 1845. It is believed here that most of the labor unions in Texas are not in sympathy with the attitude of the parent unions in the North with respect to the tidelands issue.

Please Do Not Shoot At Route Mailboxes!

It is brought to the attention of the sheriff's office that some mailboxes west of town have been damaged by shooting. Defacing of mailboxes is violation of the law.

This office has collected some of the bullets which have been fired at boxes. These could be traced to the guns from which fired.

E. H. Sweatt - Sheriff

# Rabies Shots Given to 129 Animals Here Saturday

One hundred and twenty-nine Schleicher County dogs and cats were vaccinated Saturday against rabies, in an effort to stop spread of the dread disease before it gets a real start in the county.

The animals—a mixture of dogs from Chihuahuas to sheep dogs, with a sprinkling of a dozen cats, some of them blue blooded and some strictly alley—were given their shots by Dr. J. W. Taylor, San Angelo veterinary. Roy Andrews was on hand to assist when needed.

The appearance of several two-dollar bills created some interest at one time during the morning, and the vet grabbed these for himself, ignoring the old superstition against bills of this particular denomination.

While many of the dogs were from town, where they are pets, there was also a good representation of ranch dogs, which are maintained to work sheep and to keep down "varmint." There were quite a few collies on hand, too.

Most of the dogs were brought in singly, though there were a few ranchers who saved themselves time by pooling their dogs and sending them in in a bunch—that is what the folks at Rudd did when they sent in seven in one pickup. These of course were mainly sheep dogs.

The average outsider marveled at the ease with which the vet handled the animals—only three or four tried to resist. One secret seems to have been the speed with which they were put on the table and the shot administered; another, and probably the main secret, was in the table top itself—a smooth metal material on which no animal could get enough toe hold to make a struggle!

### Rabies Control Possible

The vet told onlookers Saturday that the rabies virus is easily killed, and that just thorough washing of the wound immediately after the bite is inflicted will be 90 percent safe. The trouble is that it is not advisable to take that chance.

Another interesting fact which he brought out is that the rabies vaccine given dogs is stronger than the whole series given in small doses to human beings!

While all warm-blooded animals are subject to rabies, skunks and foxes especially are prone to get and carry the disease. As these range over wide areas there is never any predicting where a new outbreak of rabies may come from.

## Please Don't Hurt Our Puppy!

Nicky, Ray Lewis, and Vets

It was a new experience for Ray Lewis Batew, son of Mr. and Mrs. Lyonelle Ballew, when he brought the family cocker Nicky over to the City Hall Saturday morning at 10:00 for vaccination.

Ellen Wheeler gave the black Ellen Wheeler gave the black cocker spaniel to Ray Lewis's sister Ann for Christmas a year ago, and he brought the dog for his shots. He and Nicky accompanied Tom Bradley, the boy's uncle, in his car, and he was among the many children who showed up

with pets when the vet's work started at 10:00.

He is six years old and in the first grade at school. In recognition of the importance of the occasion, he was all dressed up Saturday in his blue jeans and cowboy jacket.

The dog is about a year and a half old, and is quite a family and neighborhood pet.

The above picture shows Ray Lewis and Nicky, in lower foreground, with Dr. J. W. Taylor, San Angelo vet and his assistant facing the camera.

It is expected that at about this time next year, the snots will be given again, as their effectiveness lasts only one year.

### Horse Gets Rabies

A horse on the Thomson T. Circle Ranch went suddenly mad in late December, and bit Mr. Frank Clarke, the ranch manager, and a mare. Mr. Clarke has been taking the treatment, and the surviving horse and dogs on the place have been vaccinated.

While it is not known where the

disease started it is thought that it may have been brought to the ranch by a skunk which Mr. Clarke said acted sick, and which he killed.

No more trouble has broken out there, and authorities hope that the disease is now under complete control. It is the first for the county in many years, and is possibly the first the county has ever had.

### Cooperation Is Good

All who were connected with the putting through of the vaccination program at the City Hall Saturday said that the people of the county had been most cooperative and that in their opinion much good had been done, and possibly lives have been saved.

The importance of carrying out a program seems to be realized by Schleicherites—or it should be: every case ever known has resulted in death.

## Womans Club Meets In Tuesday Session

Eldorado Woman's Club met on Tuesday in the home of Mrs. Arthur Mund. Roll call was answered by telling New Year's resolutions. Mrs. R. J. Page as program leader stated that "We live in deeds, not years." At the business session the following officers were presented by the chairman of the nominating committee, Mrs. S. D. Harper: President, Mrs. Edwin Jackson; first vice president, Mrs. Jess Walston; second vice president, Mrs. Marvin McAngus; secretary, Mrs. Arthur Mund; treasurer, Mrs. John Stigler; parliamentarian, Mrs. E. H. Nimitz; historian, Mrs. Walter Ramsey; club counsellor, Mrs. V. G. Tisdale.

All were unanimously elected. The hostess, who substituted for Mrs. Keno Ogden, who has been ill, served cake squares and coffee to 18 members and Mrs. Joe Edens, a guest.

### MAE RUNGE ENTERTAINS

May Runge entertained Sunday evening with a hamburger supper at her ranch home. With the hamburgers that were broiled over the campfire they had fritos, pickles, onions and Hawaiian punch. After the hamburger roast the group enjoyed the rest of the evening dancing and eating sticky caramel candy. Those attending were: Fred Barrett, Fae Davis, James Connor, Shirley Faulk, Derl Griffin, Wilma Lloyd, James Logan, Trudy Gaynor, Jack Stanford, Barbara West, Myrl Sudduth, Billy Jack Etheredge and Anita and May Runge.

Mr. and Mrs. J. D. Huckaby of Dallas are here for an indefinite stay with their son-in-law and daughter Mr. and Mrs. Paul Page.

Dinner in the Memorial building Sunday noon closed out the revival which has been under way at the West Side Church of Christ. In charge of the services were Woodrow Allen of Denison and his assistant from Eldorado, Ark.

Mr. and Mrs. W. J. Humphrey went to Abilene today to see Bill Lewis, their son, of Texas Western, and the team play against Hardin Simmons. Mr. and Mrs. Ray Alexander accompanied them.

## County Agent Gives Interesting Facts Concerning Rabies, Dread Disease Which Is Always Fatal

Schleicher County Agent W. G. Godwin, who has answered many questions on rabies since the recent outbreak of the disease in this county, has assembled pertinent facts for the general public, as follows:

### Facts About Rabies

Rabies is a disease of the central nervous system. It is transmitted either through the bite of a rabid animal or by having the mad animal's saliva get into a fresh scratch or similar opening.

It is an established fact that a bite on the head or face is more dangerous than being bitten on the extremities of the body, as the virus has a shorter distance to travel.

The course of the disease is divided into three stages: first, a premonitory stage; second, a stage of excitement, and third, a paralytic stage, the degree of madness being distinguished in animals as "furious" and "dumb" rabies.

The "furious" type is more pronounced because the animal is excitable and irritable, while in the dumb type the dose of infection virus is usually greater and drowsiness sets in.

The incubation period on the av-

erage in man is 40 days; horses 28 to 56 days; dogs 14 to 21 days, goats and sheep, 21 to 28 days.

All warm blooded animals are subject to rabies infection. Even birds sometimes get it. Dogs, foxes, cats and skunks in Schleicher County are perhaps the most important carriers of the infection. Livestock losses can be devastating.

If there is any reason to suspect an animal of being rabid, turn it over to a veterinarian. Do not kill the animal at the first sign of the disease—to do so may make laboratory diagnosis impossible. In the event there has been a human exposure, the physician will not know whether or not to begin treatment.

If the animal is wild, then it will have to be killed. Do not shoot the animal in the head as this makes diagnosis complicated and most of the time impossible.

Rabies is due to overpopulation of wildlife and of cats and dogs not vaccinated against rabies.

Schleicher county has made a big start with 129 dogs vaccinated Saturday.

Remember this about rabies—in 2300 years every case whether in animal or man has resulted in death!

## Cub Meeting

Plans for the next two months were made when the Cub Scout committee met at 7:00 p.m. on Jan. 7 at Memorial building. Next Pack meeting was set for Jan. 28. This will be a combined meeting of Cub Scouts and Boy Scouts, where there will be charter presentation and court of honor. All advancement awards must be turned in to

W. C. Hixson before Jan. 14.

The February Pack meeting will be the Blue and Gold banquet to celebrate the birthday of Scouting.

Present at the meeting were Rev. Shilling, chairman; Ted Kogut, district commissioner; Charles Gary, assistant Cubmaster; Frank Prochaska, program; Ray Boyer, program, and Mrs. Forrest Runge, secretary.

For Commissioner Precinct No. 4:

H. A. BELK

# Emergency Resolution

The City Council met in regular meeting, January 8, 1952, and among other business transacted, the trash hauler had quit, leaving the town full of rubbish with no way to dispose of same. The hauler's reason for this situation was not enough funds to carry on this project.

After going into all the details of the expense of hauling this trash from the City, the City Council decided to raise the salary of the trash hauler, and also raise the price of each residence and business house and house trailers in accordance to the work performed.

Motion by C. C. Henderson, seconded by Ray Hudgens, to amend the minutes of July 12, 1949, in which the tabulating of the trash hauling election passed by 74 in favor and 10 against, stipulating the amounts to be charged to the users of this service.

This including all residences within the City limits, all water users outside the City limits, and all trailer houses. The fee shall be fifty cents (50c) per residence, and the business houses shall have a two-dollar and fifty-cent (\$2.50) service, scaling the fee down to one dollar (\$1.00) according to the service rendered.

Business houses to be serviced daily and residence section of town to be serviced twice a month.

These new rates shall become effective February 1, 1952.

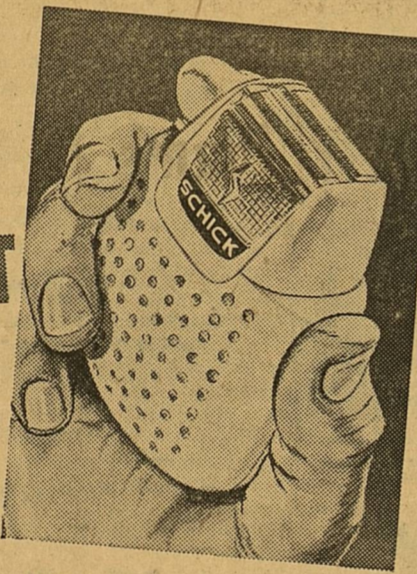

Motion passed, instructing A. J. Atkins, Secretary, to have the above resolution run in the local paper for a period of two weeks.

The above transaction was declared an Emergency, and will become effective when someone is found to haul the garbage from the City.

A. J. Atkins  
Secretary

J. C. Ratliff  
Mayor

**What About 1952 For The Farmer?**

Farmers and farm families are faced with a challenge for the coming year that can best be met through planning and more efficient production. The level of farm prices is edging downward; but the prices of materials, equipment, labor and other things that farmers buy are edging upward. At the same time, more and more agricultural production is needed to take care of a growing population at home and to meet foreign demands.

This situation, says C. H. Bates, farm management specialist for the Texas Agricultural Extension

Service, calls for careful planning if the present farm living standards are to be maintained. Crop yields must be increased and every job on the farm should be studied for the purpose of cutting down on expenses and labor requirements, adds Bates.

When the farm plans are made, the specialist suggests that they include the use of the highest yielding adaptable crop varieties. Research workers of our experiment stations are continually introducing new and improved varieties of crops and as these are tested and planting seed becomes available, Bates says, substitute them for the varieties now grown. The new corn hybrids and grain

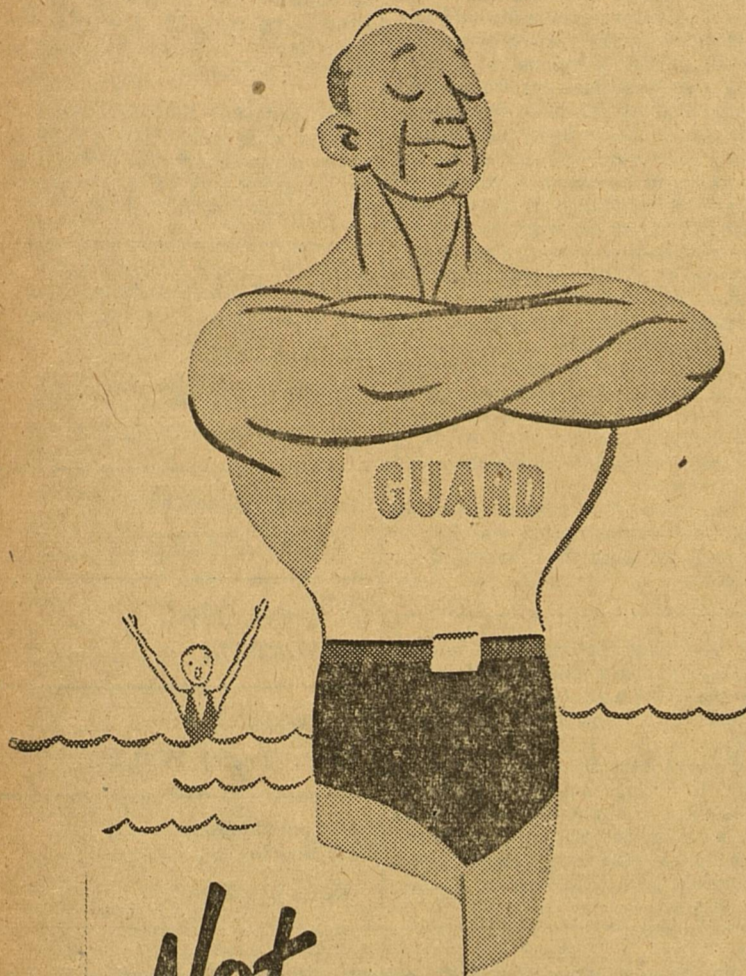

sorghums are examples.

He says the most productive part of the farm should be planted to cash crops. If you are in an area of the state where commercial fertilizers can be successfully used, get your fertilizers early and apply them generously. To help make their use even more profitable, he suggests that before the planting season rolls around that soil samples be submitted to the state laboratory for analysis. Local county Extension agents have detailed information on how to take and mail the samples to the laboratory.

Don't forget to include in your production plans, provisions for taking care of the insect enemies. Book orders now for enough insecticides to take care of your minimum needs. Planting seed should be treated to control seed borne diseases and then follow through with a good insect control program for better yields and quality in the crop, says Bates.

Another mighty important item is timing. Plan your production program for the farm so that peak labor loads can be avoided and so every piece of machinery and equipment can be used to the best advantage.

Finally, the specialist urges the use of good business methods in managing the farm. Farm records are a must. And Bates points out that detailed records should be the basis for making major changes in farm operations or practices. Complete records are also mighty useful about this time of the year for income tax figuring purposes, he adds.

**A Dangerous Practice**

A reward of \$50 is being offered for information leading to the arrest and conviction of persons shooting insulators on the Concho Valley REA lines. Carroll Land, manager, says this action is prompted by the fact that 14 insulators have been found shot and broken in the vicinity of Blackwell in recent months. —Robert Lee Observer.

**Leaves Hospital Post**

Carl Gross, Coke County Hospital superintendent for the past two months, has resigned to accept a position in the State of Nevada.

Gross wrote hospital authorities that the offer was too good to refuse. He left two weeks ago to look over the position. He is to be administrator of the Pioche Hospital and Clinic at Pioche, Nevada. The job pays \$850 per month, compared with \$450 which he was drawing here. —Robert Lee Observer.

**More Words for Cabbage**

The following figures might explain the government's red tape—or possibly the reason for the billions of bureaucratic blunders who inhabit Washington.

The Declaration of Independence contains 800 words.

The Ten Commandments contain 297 words.

The Lord's prayer contains 56 words.

The two Commandments that comprise the whole Law of God contain 23 words.

BUT, the OPS Order setting the price of cabbage contains 26,911 words. —Menard News.

**Spring Flow Near Year Ago**

Flow of Comanche Springs, which has been increasing steadily since end of the peak irrigation season at the beginning of the fall, was up to 33 cubic feet per second on Dec. 13, by official measurement of the U. S. Geological Survey's Ground Water Division, and has increased above that point since the measurement. There is prospect of a flow equal to the year's peak of 36.3 second feet gauged Jan. 15, 1951, by the time for the January measurement. —Ft. Stockton Pioneer.

**Highway Approved**

State highway 118 (Alpine-Big Bend National park road) has been officially designated from 70 miles south of Alpine to the park boundary near Study Butte, according to a letter received from the State Highway commission by County Judge Felix McGaughy last week-end.

The road is now paved from Alpine south a distance of 60 miles and an additional 10 miles was approved this past summer. —Alpine Avalanche.

**Roads for McCamey**

The full story was not known at press time Thursday noon, but apparently the State Highway Commission of Texas has given approval to the Farm to Market road leading south from McCamey into the Pecos County farming area, and at the same meeting gave approval to the balance of the Crane-Rankin road.

In a letter from D. C. Greer, State Highway Engineer of the Texas Highway Department, it was stated that the Commission passed an order approving 11.1 miles from the west boundary of Upton County toward Rankin on the Rankin-Crane road, and in a similar letter concerning Crane County Farm to

Market roads, it noted that an order was passed for 2.7 miles from Highway 51 in Crane east to the Upton County line which will complete the road. —McCamey News.

**New Business Building**

Stephen Perner has started construction of a new business building on the lot next to Miller Firestone Service on Broadway and across the alley from the Perner building at the highway intersection. It is understood the building has been leased to the Empire Southern Gas Co., supplying natural gas for Ozona consumers. —The Ozona Stockman.

**Junction Is Hot Spot**

Sunday, Junction, which has acquired reputation for low early morning temperature readings in mid-winter, went to the other extreme and recorded the highest temperature in the nation—91 degrees.

The high of 1951 was 109 on July 19, Cleve Stephan, official observer, said. Ten days during the year the mercury climbed above 105. Forty-two other days it went over 100. The low reading of the year was five below zero on Feb. 2, the coldest recorded in 22 years. —Junction Eagle.

**Publisher Dies**

Mark Wilson, 53, former editor of the Big Lake Wildcat, died at 12:25 Monday afternoon in the Veterans Administration Hospital at Waco. With the death of M. A. (Bronc) Wilson goes one more of those old time editors who learned the business from the ground up. He learned the profession when it was necessary to fill any branch of the field, from devil to editor and publisher. Funeral services were held in Big Lake at the First Baptist Church Thursday afternoon at 2:00 o'clock. Burial was in Glen Rest Cemetery in Big Lake.

**Time To Prune The Orchard**

Next year's fruit crop depends to a large degree on the care given the trees during the dormant season. One of the orchard jobs that shouldn't be neglected, according to J. E. Hutchison, horticulturist for the Texas Agricultural Extension Service, is the annual pruning and it should be done during the next few weeks.

A lot of equipment isn't needed but essential tools include a pair of long-handled pruning shears, a 14-inch briar tooth saw and a pair of hand pruning shears. Be sure the tools are sharp, says the specialist, before starting the job. Fruit trees, says Hutchison, are pruned to stimulate new growth for next year's fruit to grow on. Pruning also keeps the trees down to handling dimensions. It is much easier to harvest the fruit from properly pruned trees and he points out that fruit needs sunshine to ripen as it should, and pruning allows the sunlight to reach the ripening fruit.

Hutchison also points out that the tops should be cut back to balance with the root system on trees set this winter. This practice of balancing tops and roots will insure better growth and a better tree later.

Pruning, he says, also gives the orchardist a chance to remove dead or diseased limbs and branches from the trees and to check each tree for insects and diseases that might otherwise go unnoticed.

Mr. and Mrs. D. C. Hill have both been on the sick list again this week. Mrs. J. W. Walker of Plainview spent several days with them, then went on to Austin Tuesday. She expects to return to Eldorado the latter part of the week.

**Stephenville Steer Fattening Test**

COLLEGE STATION—Johnson-grass hay was a better roughage for fattening steers than either cottonseed hulls or peanut hulls in a test conducted last spring at the Stephenville unit of the Texas Agricultural Experiment Station.

B. C. Langley, superintendent of the Stephenville station, reports that steers fed cottonseed hulls or coarsely ground peanut hulls made about equal gain and finish. Finely ground peanut hulls gave higher gain and finish than either cottonseed hulls or coarse peanut hulls.

Finely ground peanut hulls were worth only slightly more than coarse peanut hulls, however, because a greater amount of fine hulls were required to produce 100 pounds of gain.

Feed costs for roughages used in this test were: peanut hulls, \$14 per ton; cottonseed hulls, \$26.50 per ton; and Johnsongrass hay, \$23 per ton. The results of this experiment are given in Progress Report 1386.

This test is part of a study of the use of peanut hulls as a roughage. The results of an earlier test, conducted at Stephenville in 1950, are given in Progress Report 1264. Progress Report 1385 gives the results of a test with peanut hulls conducted at the Prairie View sub-station this year. These reports are available from the Publications Office, College Station, Texas.

Mr. and Mrs. S. L. Stanford have completed a remodeling project on the small residence on their place, which Mr. and Mrs. J. E. Estes, Mrs. Stanford's parents, have been occupying. They added a room, and completely renovated the interior of the house. The Estes stayed with the Stanfords while the work was under way, but are back home this week.

The Houston Thigpen family spent the day Sunday at Big Lake with the Frank Crawfords.

Mr. and Mrs. Carl Stevens of Ozona spent Sunday with Mr. and Mrs. A. J. Stevens.

**Recipe of the Week**

**Fruit Salad**

- 1 orange
- 1 banana
- ½ pound grapes
- 1 dozen walnuts or pecans
- Lettuce
- French Dressing

Peel orange and cut sections from the membrane with a sharp knife. Peel banana and cut in quarter inch slices. Remove skins and seeds from grapes. Break nut meats. Combine these ingredients and chill. When ready to serve, place on lettuce leaves and serve with French dressing.

Wilson Smith and his mother, Mrs. Anna Smith, spent from Friday to Sunday on their ranch east of Llano, in Llano County.

Mr. and Mrs. Don McCormick and Donna Beth and Mrs. Rutha Boyer spent Sunday in Menard with relatives.

It is understood that work will start at McCamey on the new Rancho pipeline the latter part of January.

**Get Gay Colorful CARNIVAL WARE IN MOTHER'S "CARNIVAL" OATS**
