## Post Script

Education is nothing new. The first cave man and woman were teachers. They instructed their young in the use of the spear, the club, and the snare.

Classical education evolved in the nations of Ancient Greece. It survived the centuries of the Dark Ages, and was born again in the colonies that became the founding states of the United States.

It was in these colonies that the principle of free, democratic public school education was established. From this start has developed the great educational system that exists and flourishes in this nation today—the nation that is the world's greatest democracy.

This principle of free public school education was first recognized by the General Court of the Massachusetts Colony in 1642. The Court declared that each community should provide teachers for the children. From this grew the public school system of the nation. Historians say:

"The education of the masses through these schools which were public schools has been the bulwark of the liberties of the people and the national freedom of the country."

They have protected and nurtured the public school system, without which Democracy will wither and die, for it cannot live without learning the knowledge by its citizens.

Visit your schools during Public School week, March 2-8.

## Watch For Symptoms Of Whooping Cough

Parents of school-age children were urged this week to watch for any symptoms of whooping cough in their children. This announcement from Grade Principal Wyndell Hall came after some children were given booster shots following development of symptoms.

School officials point out that a minimum of one week's exclusion from school is required as a period of diagnosis for whooping cough. After that time the student is readmitted only with approval of a doctor. Where symptoms develop into the active stage four to six weeks are usually required for cure, it was stated.

Whooping cough is on the list of diseases specified by the State Health department as requiring a doctor's certificate for readmission. Mr. Hall said. Students are sent home when they develop symptoms of disease, or when they register fever on a thermometer.

Mr. Hall said that attendance in grade school is back to normal, 93%, following a low of 85% during the recent flu epidemic.

## PMA News Letter

Production goals for Texas for 1952 include Cotton 11,915,000 acres and Grain Sorghum 6,000,000 acres. Schleicher County's portion of the above acreages are Cotton 15,000 acres and Grain Sorghum 5,000 acres. Price support on grain sorghums will be based on \$2.38 per cwt. at Texas ports.

**1951 Conservation**  
Schleicher County farmers and ranchers earned \$65,800 for carrying out soil and water conservation practices under the 1951 Agricultural Conservation Program.

Pricklypear eradication accounted for about one-half of the ACP payment to the county. Assistance was given for the following conservation work in 1951:

Terraces: 246,410 feet of terraces were built on 15 farms.

Wells: 6 wells were drilled on 6 ranches.

Pricklypear: 44,667 acres of pear were dug on 70 ranches.

Mesquite: 1,806 acres of mesquite were poisoned with kerosene on 12 ranches.

Oak: 274 acres of oak were cabled on two ranches.

Cedar: 3,917 acres of cedar was bulldozed and grubbed on 19 ranches.

Deferred grazing: One ranch received aid for deferred grazing.

The 1952 conservation program is now in progress. A few farmers are building terraces and 31 ranchers are eradicating pricklypear. A letter was mailed to each operator early in the year listing approved practices for the county, which must be executed and returned to this office before an approval can be issued for any conservation work.

**Economizing**  
It is to your interest, both to your personal and federal spending, that you keep your land clean after it is cleared once with assistance. We suggest that you keep your maintenance work up to date. It is very doubtful that prior approvals should be issued for more work until you have brought your maintenance work up to date or that you intend to do so before the year is out.

**1952 Terraces**  
It is important if you are planning to build terraces in 1952, to give this office as much advance notice as possible, so that the SCS technicians can get to your farm in ample time to survey the lines before you are ready to start work.

**Grasslands**  
There are about a billion acres of permanent grasslands in the United States most of which are unimproved. Experiments and ranchers' experience show that production from much of this land can be doubled or trebled by using correct management practices.

## Schleicher County Oil News

Schleicher County last week received location for another Pennsylvanian wildcat. It will be drilled 17 miles southeast of Eldorado to 6,000 feet.

The new test is Headwaters Oil Company of Dallas No. 1 Mrs. R. E. Spencer, 660 feet from south and 1,980 feet from west lines of section 53, block A, John H. Gibson survey. Operations are to start immediately.

Delta Gulf Drilling Company No. 1-C H. F. Thomson Estate has been completed as a one-location southeast extender to production in the Huldale-Strawn field 10 miles north of Eldorado.

Operator reported a daily flowing potential of 215 barrels of 40.2 gravity oil through a 20/64-inch tubing choke and from perforations in casing at 5,720-40 feet. Gas-oil ratio was 505-1 and tubing pressure was 400 pounds.

Location is 2,920 feet from south and 1,620 feet from east lines of section 82, block TT, TC survey.

Following completion of No. 1-C H. F. Thomson Estate, Delta Gulf filed application with the Railroad Commission of Texas requesting permission to start drilling at once on No. 2-C H. F. Thomson Estate. The slated 5,900-foot test will be one location southeast of No. 1-C Thomson Estate and 2,158 feet from south and 598 feet from east lines of section 82, block TT, TC survey.

Pan American Production Company No. 4 H. F. Thomson Estate, new project in the southeast side of the Huldale field, has spudded and was drilling below 1,100 feet at last report.

It is located 1,100 feet from south and 593 feet from east lines of section 82, block TT, TC survey.

This project was temporarily abandoned early in January after it made salt water to open hole swabbing tests. Location is 2,980 feet from south and 660 feet from west lines of section 78, block TT, TC survey.

Stanolind Oil & Gas Company was to try drillstem testing the section from 7,193 to 7,209 feet in Pennsylvanian lime at its No. 1 Meador, Northwest Schleicher County wildcat. A previous attempt to test the same section resulted in packer failure.

This wildcat recovered 210 feet of heavily gas-cut mud, with a slight show of oil in the bottom on a 90-minute drillstem test from 6,654 to 6,699 feet in the Pennsylvanian. Gas surfaced in 30 minutes and rated 50,000 cubic feet daily.

Fullerton Oil Company No. 1 McIntosh, indicated gas discovery in Southeast Schleicher County, is still making preliminary production tests prior to completion.

No recent gauges have been reported.

The wildcat has show for 1,400,000 cubic feet daily from perforations at 5,730 to 5,756 feet.

This possible new gas field opener is 1½ miles southeast of Eldorado.

## Wool Mill Opening Recalled By Lions

The biggest and most successful project the Eldorado Lions club has ever had was recalled yesterday at the Lions meeting, when Joe M. Christian and H. T. Finley showed exhibits, pictures, and films of the West Texas Woolen Mills' formal opening on Feb. 27, 1941.

Finley was master of ceremonies on that day, which featured a parade down Main street, several visiting dignitaries including Governor W. Lee O'Daniel, and a barbecue served at noon. An estimated 5,000 out of town visitors responded to the Lions' invitation to this event.

A film was shown which depicted the crowd, the parade, and the mill. About \$3700 worth of blankets were auctioned off, proceeds going to the club. Finley added that some of that money was used a while back to furnish the Banquet room in the basement of the Memorial building, where the club now meets.

R. L. Sample as president of the Lions club at that time did much promotion in connection with the Wool Mill opening, Finley said. Lion Earnest Hill was put up as a candidate for district governor, but was defeated.

From this pre-war beginning, West Texas Woolen Mills, Inc., went on to turn out army blankets during the war and have since expanded production to include car robes and suiting materials as well as blankets.

We wish to congratulate these two departments. The efficiency banner for February was won by the nursery department with an average grade of 71. Second was the young people's department with an average of 63. Let us make March our loyalty month. This is our slogan, "Let us march to the Lord's house in March."

Date for our annual youth revival is set. Begins Sunday March 30 and will close on Sunday April 6. Bubba Woods of Baylor University will do the preaching. Bob Feather of Southwestern Seminary will lead the music. R. B. Cooper Jr. of Howard Payne will play the piano. All the youth of Eldorado are encouraged and invited to be in any or all of these services. Watch this column for further important announcements about our youth revival.

**THREE TENSES OF GOD'S SALVATION**

"We had the sentence of death in ourselves, that we should not trust in ourselves, but in God which raised the dead, who delivered us from so great a death, and doth deliver in whom we trust that he will yet deliver." II Corinthians 1:9-10.

Here we have some wonderful words from the word of God. Notice the several points:

1. "We had the sentence of death in ourselves." This is the one sentence of God that man has ever through the direction of Satan tried to avoid and deny. God even tells us why.

2. "That we should not trust in ourselves." Here, my friend, you can't afford to trust in yourself. It follows, of course, then that you can't trust in your works.

3. "But trust in God which raised the dead." Here is something for us to remember. We can't raise the dead. My friend if you die you know you can't raise yourself from the dead. So God wants you to trust Him who raised the dead even the Lord Jesus Christ.

4. "Who delivered us from so great a death." This deliverance comes in this life. It comes when you hear the word and trust God through Jesus Christ for remission of sins. Your sins. Has this happened to you or are you still in your sins.

5. After you trust Christ He ever lives to make intercession and deliver you from the sins you commit after you are saved.

6. "In whom we trust He will yet deliver us." This deliverance is yet future. It looks forward to the time when he will deliver us from the grave and physical death. This one I look forward to with great expectation.

Have you trusted in Jesus for these deliverances? Go to the church of your choice. —F. H. Pryor, pastor, Fundamental Baptist church.

## YOU SEE MORE because YOU GET MORE

NO doubt about the fact you see more GMC trucks on the roads today than ever before—and the reason's no mystery.

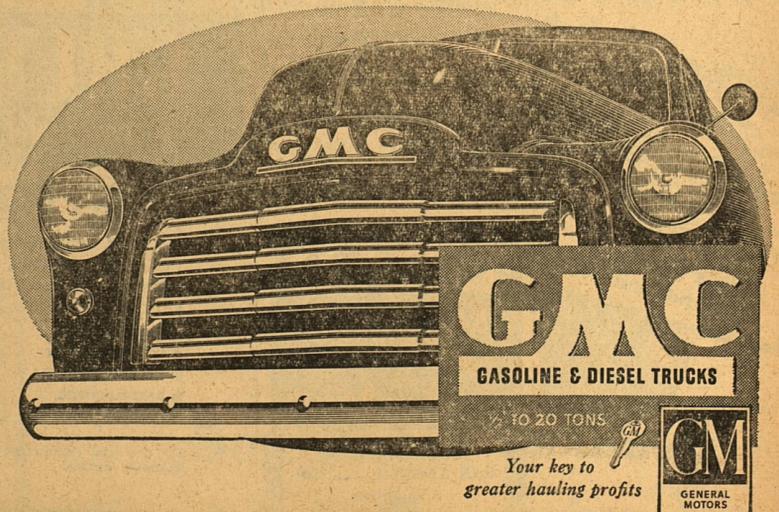

This popularity must mean that GMC owners are getting more of the kind of performance they appreciate in a truck. Like what?

Like more horsepower. Not more than you need, but all that you need to meet exacting schedules—without relying on excessive speeds to make up the time many trucks lose when the going is rough.

Like more hub-to-hub, bumper-to-tail-light stamina. Plenty of brawn in the right places—yet a GMC is a trim truck, engineered so that it doesn't penalize your pay load with dead weight.

Whether your hauling involves gasoline or Diesel power—light, medium or maximum loads—why not come in and see a new GMC? See why you get more!

Cub Scouts, parents, committee-men, den mothers, and their guests, over 100 in all, were present Monday night for the annual Blue and Gold banquet, which was held in the Memorial Building in observance of Boy Scout month.

Each den was responsible for decorating a table, and paper hats, small baskets of candy, and other decorations were used. Decorated cakes centered the long dining tables, at which families were seated together.

District Commissioner T. J. Kogut, as acting Cubmaster, had general charge of the program, and was toastmaster for the evening. He introduced guests, who included Bill Gunstead, Scoutmaster of Troop 18; Earl Breedlove, Cubmaster, Pack 9, San Angelo; Carrol Ratliff, president of Eldorado Lions club; Roy Shilling, Cub committee chairman; Earl Parker, W. C. Hixson, Ray Boyer, F. O. Prochaska, Wyndell Hall, committee-men; and Mrs. J. F. Runge, Mrs. T. J. Kogut, Mrs. R. L. Nolen, and Mrs. Lloyd Johnson, den mothers; each with several assistants.

Boy Scouts who are den chiefs, Dick Runge, Voy J. Mitchell, James Lee Swain, and Cecil Mac Walston, were present in uniform, as were many of the Cubs. They led their respective dens in songs and stunts.

Carrol Ratliff spoke to the group, saying that as always the Lions club would do its part in carrying on Scouting and other youth work in Eldorado. There are now 28 Cubs and 18 leaders registered in the Pack.

Den 3, with Voy J. Mitchell in charge, gave a skit, followed by Den 2, with Mrs. Hixson leading a demonstration of echoes, and there were other program numbers.

Mr. Breedlove called up some Cubs and with their help gave a history of Cubbing. He pointed out that the Cub sign reminded each Cub Scout to obey and be square. He went on to discuss the Cub promise and Cub law, closing his talk with the Cub motto, "I will do my best," and the parents' motto, "I will help my son to do his best."

W. C. Hixson then presented awards. Ernest Nimitz received his re-registration certificate. Alvin Ray Mitchell was awarded his Bobcat certificate and pin.

In counting up awards by dens it was found that Den 1 had four, Den 2, four; Den 3, three; and Den 4, two. The attendance pennant went to Den 2, who had 13 parents present.

A movie, "The Cub In The Home," was shown.

Rev. Shilling, as committee chairman, thanked the mothers for preparing the supper. He went on to say that the committee was trying to find a Cubmaster, and asked the parents and Cubs to bear with them until such a man is found.

Many of the Cubs and Scouters were in uniform at the banquet.

**1952 Highway Map Available To Public**

The shortest distance between 2 points is established by an old axiom, but from the standpoint of motorists, the shortest distance between two points can only be established by the Official Highway Travel Map.

Mr. D. C. Greer, State Highway Engineer, announced this week that the Department's new 1952 Official Highway Travel Map is now available free to the general public. The Official Highway map is revised and published annually. It is used by all state agencies as the basis for computing official car mileage. The new map is 28x36 in. and is chock-full of travel guidance and information on Texas. The material is illustrated and in color for easy comprehension and appearance. Several important changes have been made in this year's map which include a topographical relief drawing along with the addition of symbols which show the locations of the 854 roadside parks and turnouts. Special emphasis has been placed on indicating various recreational, scenic, and historical spots. All U. S. and State highways are shown. The more important farm to market roads which serve the cross-country motorist are also shown. The travel information re-

flected on the map is designed to supply motorists with guidance needed for safety, comfort and pleasure while traveling Texas highways.

The back side of the map is jam-packed with factual and pictorial Texas history. The story of Texas is unfolded through the map. Many famous milestones and landmarks are described and portrayed pictorially. There are 26 pictures in full color of the more popular historical points of interest in the State with a full caption explaining each scene. A panorama is used to introduce some of the more popular historical characters in a "passing parade" of Texas history.

Included also for the first time is a map of Mexico, incorporated with the small U. S. map, showing the principal highways and cities, however, it is primarily for geographical purposes.

This new map can be obtained by mailing the map card distributed by the tax assessor-collector office with the sale of license plates, or by writing directly to the Texas Highway Department, Austin, 14, Texas. Copies are also available in any Highway District office or the Highway Travel Information Bureau.

Remember that little old red schoolhouse? There have been plenty of changes, many improvements, but there is still room for more. The schools teach children to enjoy the benefits of democracy, how to become good citizens. During Public Schools Week every citizen should go back to school and see how well they are doing the job they were designed to do. Out of these schools will come the future leaders in government, finance, literature, sports, education, and so on. They are the people who are going to keep our institutions free; they are the people who must fight communism. Public schools are our investment in Democracy. Take a look at your schools, not only during Public Schools Week, but all through the year.

# Patrons Urged to Visit School Week of March 2-8

Patrons of the school are invited to visit the local schools during Public Schools Week, March 2 to 8, and observe the various classes as they go about their routine school duties.

Supt. T. E. Holcomb of Eldorado urges everyone who is interested to visit any classes he may choose—and assembly Friday, March 7, at 8:45 a.m.

School leaders throughout the state are helping to publicize the event. Quoted below are statements from a number of these, from the local to the state level:

**Eldorado P.T.A. President:**

Once more we are urged to dedicate time and effort for the fitting observance of Public Schools Week to be held March 2nd to 8th. The public school is as American as Uncle Sam. It is one of the strong links we have forged in our way of life as a free people.

Public Schools week was established last year to offer all of us an opportunity to annually re-examine our schools; to get acquainted with the teachers and the students and the work that they are doing. Times of national stress such as the present, are always testing times for our schools.

As your humble P. T. A. president, heading an active corps of interested friends of the school, I urge everyone to cooperate in this state-wide movement, and visit the schools March 2-8. And let us all boost our schools every week in the year!

Mrs. Marvin McAngus,  
Pres., Eldorado P. T. A.

**State P. T. A. President:**

Since school buildings are merely a physical agency through which public education of children and adults is carried on, they are important only as they serve this purpose. It is therefore difficult to judge the school plant unless we know exactly what it should do and what it is now doing. Through the schools the people prepare their children for the fullest measure of service and happiness. Through education the people determine the character of the community and state. To be effective the educational process must be constantly renewed and redirected by the people themselves working together through their schools.

During Public Schools Week in Texas last year, I heard many people say that it was their first time to really visit their own buildings. Possibly they had attended a school or community affair which took them to the gymnasium or auditorium, but that was the limit of their experience within the building. Great enthusiasm was manifested in the several areas where I was a witness and I know that the program will encourage more of our people to become acquainted with the whole structure of public education and as a result there will be more unification on the part of the public to support our public schools and offer constructive criticism to the local authorities and administrators.

As president of the Texas Congress of Parents and Teachers we endorse wholeheartedly the Texas Public Schools Week for this year, March 2 through 8, and ask that everyone within our organization cooperate with the committees within their various communities in assisting to make this week a success by getting all the people to visit a public school during the week, as it is only through DEMOCRACY IN ACTION that we can hope to survive.

Mrs. H. G. Stinnett, Jr.,  
President, Texas Congress  
of Parents and Teachers

**Teacher Association President:**

Governor Allan Shivers proclaimed the week of March 5-10, 1951, as Texas Public Schools week. The State Board of Education passed a resolution on March 7, 1951, supporting and sponsoring Public Schools Week for 1952 during the week, March 2-8. I should like to request that all public schools of our state actively support and participate in the Texas Public Schools Week in 1952. Last year, 721 communities cooperated in this program. For the year 1952, we may well set our goal for 1,000 communities participating in the program.

To help prepare children for living now and in tomorrow's world is our common obligation. This cannot be done by education alone, indispensable as public schools are in human development and general welfare, nor by any other single

agency. Involved in preparing children for living now and tomorrow are church leadership, home and school partnership, parent education, coordination of all forces serving children and youth, and legislation. Group action is needed to provide better schools, libraries, recreation, safety, health, and enrichment opportunities. Team work can remove the conditions which cheapen character and destroy basic values.

Citizens of Texas should visit their local public schools during Public Schools week in order to acquaint themselves with what the schools are doing and what the schools should do to develop programs and find resources necessary to equip youth to carry the ball on behalf of humanity.

Texans can afford to provide the finances necessary to guarantee Texas youth the basic education necessary to equip our young people for self-government, regardless of who they are or where they live.

I commend this movement to the public school people of Texas as one which is proceeding in the right direction to interpret our public schools to the citizens of Texas.

Mortimer Brown, President,  
Texas State Teachers  
Association

**District PTA President:**

We read of and hear much criticism of our schools. Perhaps much of it is not true and should be investigated before it is passed on. Constructive criticism should be and is welcomed. We do want good schools and capable teachers. Then, we must, as parents, cooperate with the teachers and must help make available to them materials for their use in teaching our children.

We urge every parent and citizen to visit our schools, show our interest in better education, show our willingness to cooperate, give encouragement to administrators and teachers.

An opportune time to visit our schools: March 2-8, Texas Public Schools week.

Mrs. Edwin Jackson, Pres.,  
Congress of Parents and ET  
Sixth District P. T. A.

**Gov. Allan Shivers:**

As we take inventory of our blessings and our accomplishments we view with satisfaction the progress that has been made in education, the basis of which is our public school system.

The little red schoolhouse which was the symbol of public education a century ago expanded into a network of elementary and high schools, junior colleges and state colleges.

It has been a great cooperative venture. Both state and local governments have made their contributions. We like to believe that through their joint efforts the opportunities afforded our children for a sound, basic education are not excelled anywhere. If we are just-

fied in this conclusion it is only because our citizens have shown a personal interest in education and because public-spirited men and women have been willing to devote their lives to the teaching of our youth.

It is of paramount importance that this civic interest be strengthened and that those in the teaching profession be supported and encouraged in their efforts. One of the best ways of accomplishing these results is for each citizen to know the public school system. The best way to know it is to keep in constant touch with it.

Allan Shivers  
Governor of Texas

Mrs. Coralee Mebane has returned from a visit with Dr. and Mrs. M. G. Holcomb in El Paso. On her way she stopped in Alpine to visit friends, Dr. and Mrs. John O'Donnell, and also talked with Milvia Hill, who teaches at the college.

Among those attending the Mister Roberts show at San Angelo were Mr. and Mrs. Ralph Fowler, Mr. and Mrs. Ray Hudgens, Mr. and Mrs. Marvin McAngus, Mrs. S. D. Harper, the Palmer Wests, Myra Bob Harper, and others.

Mr. and Mrs. Charlie Trigg attended the wedding of a niece at Albuquerque, New Mexico, and were accompanied home by Trigg's mother and his sister, Mrs. C. H. Trigg and Ollie Trigg, of Aledo. The Triggs spent from Friday to Monday in New Mexico.

Mr. and Mrs. Bud Russell of Ozona spent the weekend here with the latter's mother, Mrs. Ora Davis.
