Little League Games Off To A Good Start

Little League season started off; large crowd of fans on hand both Elected President with a bang last Thursday with a Thursday and Friday nights. Weather was perfect, grounds in perfect shape and all games were played as scheduled.

In the first game, which was called at 6:00 p.m., Thursday, the Tigers put it over the White Sox by a score of 9 to 3.

At 8:00 o'clock, in the second game the Christoval Cougars outplayed the Red Sox 7 to 3.

Friday saw another doubleheader and another large crowd of fans. In the 6:00 o'clock game White Sox defeated Red Sox 11

At 8:00 o'clock the Cougars tangled with the Tigers and it was a real game. It ended at 9:30 with a 6-to-6 tie score.

We had never read anywhere or heard the statement that the city of Waco furnished five general officers to the Confederate Army until we read Roger N. LYNN MEADOR ATTENDING BOYS STATE AT AUSTIN Austin, June 9.—The American

Legion Boys State commenced today as 676 high school boys from throughout the state began registration. Among those registering was Lynn Edward Meador of Eldorado, who was sponsored by the local American Legion post.

Upon arrival each citizen was assigned to one of two political parties, the Longhorn or Pioneer. Each citizen then functions as a member of his party; he attends its conventions, caucuses and votes in its primary.

In Boys State, the young citizen has the opoprtunity to learn for himself that his government is just what he makes it. The boy "learns to do by doing."

Highlight of Boys State will be a trip to the Capitol on Friday morning, followed by the Governor's Ball Friday evening.

Among the speakers who appeared before Boys State this year were Waggoner Carr, former Speaker of the House of Representatives; Judge Robert W. Calvert, Chief Justice of the Supreme Court of Texas; and Walter Long of the Texas Legislative Service.

Grandma may talk about the good old days, but a whole team of horses couldn't drag her back to an old fashioned kitchen. When you compare the two pictures, you observe an important fact. All the marvelously improved conveniences you see are made possible by electricity - every single one. Yes, electricity makes the difference, and what a difference it makes! It eliminates drudgery and creates more leisure time by performing countless tasks in the home at the flip of a switch. It turns factory wheels, lights the darkness, and does all these things effortlessly and economically. That is one of two reasons why the use of electricity is increasing here in the Center of the Southwest. The other is that more people, more businesses, more industries are coming our way. Our expansion program is keyed to this increase, for we are convinced our service area faces GROWTH UNLIMITED.

a nonprofit government study organization that does many administration studies at the request of the state, has issued a report on its year-long probe of the Railroad Commission. Many of its recommendations on agency management and oil and gas conservation already are being programmed.

One scheduled change involves the staffing and management of Railroad Commission district offices. Commission now has 12 such offices. Responsibilities with respect to wells and staff members are so varied that the League believes the system unfairly imbal-

District 8 in Midland, for example, has approximately four times as many wells as District 4 in Corpus Christi, but each office is staffed with only four engineers. Wichita Falls has more than twice as many wells as Houston, but two less field men.

Four field men watch over 62,-148 operating wells in the Midland district, yet 21 men oversee 26,036 wells in the Kilgore area.

League's answer to the problem is to redistrict and cut the districts from 12 to 10. The huge Midland district would be divided into three areas with

Committee met and decided to send their chairman, H. B. Zachry of San Antonio, suggestions on how to approach the challenge. They meet again in August.

Special Session Talk Dwindles

Rumors of a special session to get an appropriations bill more to Governor Connally's liking still are going around. But now predictions are being made about a January session, rather than one in the summer or fall.

Connally said he didn't like the one passed by the Legislature in the regular session because it 'short-changed" higher education.

Home-Building Abuses

Reported abuses of home building practices and loans were the subject of a recent conversation between Governor Connally and Lubbock District Attorney Alton Griffin, president of the state district and county attorneys associ-

ation. Connally said, "It may be that additional legislation will be necessary to get at the heart of the matter."

One reported abuse that concerns them is the alleged practice of "double contracting" wherein 100% home financing is achieved by cushioning appraisals and other real estate sales documents.

Appointments Connally appointed three new members to the State Finance Commission, including S. R. Jones Jr., president of the First Pasadena State Bank in Pasadena, and Rex Baker Jr., president of Southwestern Savings Association of Houston. He also appointed Taylor

attorney Roman J. Bartosh.
Bert Fields, Dallas oil operator, was reappointed and named chairman of the Texas Turnpike Authority, on which he has served since 1953. A new appointee is J. M. Haggar Jr. of Dallas, vice-president of the company that manu-

factures Haggar slacks for men. Haggar replaced Armistead Rust of San Angelo.

Carr's Chores Lightened After August 23, the governor will have to make 15 more state board appointments. These 15 citizens named will take the place of just one man—Attorney General

Waggoner Carr. Switch was made possible by a bill, supported by the attorney general, which passed during the recent legislative session. End result will be to peel down the pile of "ex officio" jobs, which have burdened attorneys general in the past, and give Carr more time for his main job as the state's head

Speakers at the seminar included Rep. Dick Cherry, Waco Democrat, and Rep. Ike Harris, Dallas Republican, and Sen. A. R. (Babe) Schwartz of Galveston.

"The 58th could turn out better than the 58th," Cherry said. "Next time, you'll have the problems of a big tax session and a secondterm speaker (Speaker Byron Tunnell, supposedly) running for Attorney General." As session achievements, Cherry

listed the Padre Island bill, Municipal Annexation bill, Tourist Development program, Water Storage expansion and provisions for teacher retirement.

Measures for rural development, which did not pass, were among what he considered failures of the Legislature.

Good News

Although state and federal animal health officials reported that 72 Texas counties are now tagged 'screwworm infested" the report was good news, said Dr. R. G. Garrett, executive director of the Texas Animal Health Commission.

Garrett said that 333 samples confirmed as screwworms in the March 31-April 27 period represented a decrease of 95 to 98% in the number of cases in years before the screwworm eradication

project went into effect. "We're real happy with the success of the program," Dr. Garrett said. "We hope to be completely successful in wiping out the screwworm by the end of the 3year program." He said livestock producers were responsible for the stamping out of the costly pest in at least two ways: Through their \$3 million contributions and thru 'excellent" cooperation in report-

ing cases and sending samples. "It's strictly a producers' program . . . initiated by livestock producers and wholeheartedly supported by producers."

The three-year, \$12 million producer-federal-state program almost has reached the mid-way point in its progress.

Bus Driver Of The Year

Records of more than 8,000 school bus drivers were screened before Elmer J. Ashby of the Carlisle Independent School District, Rusk county, was selected "Texas Public School Bus Driver" by the

Texas Education Agency. In 25 years of service, Ashby transported school children 300,-000 accident-free miles, without missing a day for personal or superficial reasons.

'States' Rights' Bills In Air The 58th Legislature passed two proposed "states' rights" amendments to the U.S. Constitution. But both are a long way from

changing the law of the land. One would make it simple for the states to initiate other amendments to the constitution; the other would prevent federal courts

Miss Phelps Wins I In State In Vocal

TERRY PHELPS

Mrs. Oliver Teele, director of the high school choral groups, took the students who had won rating in Regional Music Competition Festival in San Angelo in February to the State Vocal and Piano Contest in Austin June 10. In vocal contest Terry Phelps won I George Draper III, Bob Lester III, and in piano Mary Ann Page won III and Kay Peters III.

These pupils did a fine job. They were competing in vocalwith 115 students and in piano there were 50 contestants. The state only gives five first places in vocal and three firsts in piano.

They grade very hard. The accompanists were Mrs.
James Page for Terry Phelps, Judy
Hext for Bob Lester, and Terry

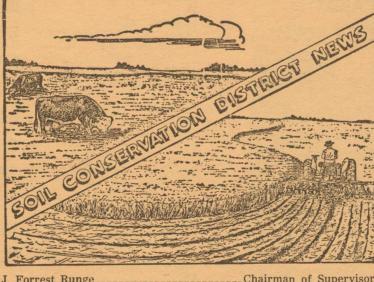

Phelps for George Draper.

Mrs. Peters went with Mrs. Page to Waco on Sunday to get the students who were at the Baylor Music Camp, and brought them over to Austin.

Burt Lancaster Stars In 'Birdman' Film

Actor Burt Lancaster and company have combined their talents to produce a movie that merits a listing in the front ranks of the Lilburn has had assignment in most unusual motion pictures ever

Nothing could be farther from The hostess served frosted cokes the facts. "Birdman of Alcatraz" does concern a federal prisoner, but it is, as its title really suggests, the fascinating story of a man who won international distinction because of his work with birds in a prison cell. And the film is all the more fascinating because is a true story.

Robert Stroud, the real life 'Birdman" who is portrayed by Lancaster, is probably the most celebrated prisoner since the Man with the Iron Mask.

The facts of his life are these: Stroud killed a man in the Terriance and co-operation in this mportant livestock endeavor.

For this, Stroud was sentenced to hang, but President Wilson commuted his sentence to life imprisonment. Through an unusual clemency action, Stroud was placed prison-hospital at Springfield, Mo.,

during his 20 years at Leavenworth (he was taken to Alcatraz in 1936) Stroud through patient research and study of birds in his prison cell made himself the world's leading authority on diseases of birds.

Stroud is now past 73 years of age. His more than half a century in prison is a world's record. No other convicted person has served so long in this country.

It is this which Lancaster creates on the screen in the film. Tom Gaddis wrote the book about Stroud's life upon which the film was based, and Stanley A. Furman has been Stroud's attorney for the last several years.

Gaddis has never seen or talked with Stroud—the prison system has seen to that. Nor has Lancaster seen the man he portrays on film. Furman has seen Stroud on a number of occasions in the course of serving as the prisoner's legal
