## GRASS JUDGING TRIP TAKES PLACE LAST WEDNESDAY

The first annual Grass and Soil Judging contest sponsored by the Eldorado-Divide Soil Conservation District got off to a good start on Wednesday, June 29th.

The contest was sponsored for 4-H and FFA boys, by the Eldorado Divide Soil Conservation District of which Wm. Rountree is head. The 28 participating youths were divided into three groups according to age, Seniors, Juniors and Novices. Prize money totaled \$112.

The high individual in the Senior group was Jimmie Whitten, son of Mr. and Mrs. Chan Whitten, who is 15 years old. He has won a number of other contests in the past few months also.

High Junior winner was Judge Whitten and high novice was Ray Lewis Ballew.

Because the rains on the Ed Willoughby ranch were not as heavy as in many other parts of the county, the contest could go ahead as scheduled with only a half-day of delay.

The contest was postponed from morning until afternoon by a most welcome rain. It received a good start at noon when the contestants and the businessmen were guests of the Eldorado-Divide Soil Conservation District Supervisors at a barbecue dinner.

J. Forrest Runge, chairman of the Board of Supervisors, introduced John Royal of Menard, president of the state association of Soil Conservation District supervisors. Mr. Royal spoke to the group concerning the importance of soil conservation to the general welfare and prosperity of businessmen and cities. D. C. O. Wilson, winner of last year's district award as Outstanding Soil Conservation Rancher, donated the goats for the barbecue.

The contest was held under the supervision of technicians of Soil Conservation Service, and Extension Service personnel. Supervisors of the Eldorado-Divide Soil Conservation District and local businessmen presented the awards and assisted with the contest.

The contests were held on the C. O. Bruton farm and the Ed Willoughby ranch. A number of ranchers and other interested people accompanied the group on the tour. A visiting reporter won a jackknife for the closest estimation of the number of pounds of grass produced on a plot of ground at the contest site.

Judging of soil, an unusual feature, first occupied the attention of the contestants, then later they went to grass sites in a draw and on a hillside, where they classified the plots of grasses and identified the individual grasses.

The supervisors were well pleased with the turnout for the contest. At present it is their aim to make it an annual affair.

Here is how the boys ranked:

## BOY SCOUTS MEET

## THREE COUPLES RETURN FROM TRIP TO MEXICO CITY

Three Eldorado couples have returned from a pleasant vacation trip to Mexico City. In the group were Mr. and Mrs. Jack Hext, Mr. and Mrs. Jack Shugart and Mr. and Mrs. Dick Preston. The first-named couples made the trip there along the coast and the Prestons crossed the line at Laredo.

They all met at their hotel headquarters, the Regis Hotel in downtown Mexico City and took their side trips and did their sight seeing from there. They especially enjoyed Cuernavaca, the former summer palace of Emperor Maximilian, and Taxco, which has silver mines and many specialty shops using silver for novelties.

They report that they got around well in the resort city with the help of a guide, whom they employed for several days. The Shugarts returned Thursday with the Prestons, the Hexts returning a little earlier.

Their only delay was occasioned when they reached the border, where they had to wait two or three hours to cross because of heavy traffic.

# Sinclair Leases 40 Acres in Huldale As Location For Gas Products Plant

On Friday—last week—the first day of July—in the County Clerk's office of Schleicher County, there was filed for record the first instrument that gives definite assurance in "black and white" that a gasoline plant of major proportion is in the cards for the Huldale field of Schleicher County.

For the past four months rumors have been current on the streets of Eldorado that Sinclair was about to build a gasoline plant in the Huldale area—but not until last Friday did anything of a legal nature take place to corroborate the rumor. The papers filed are lease agreement for 40 acres in the Huldale area between Thomson Estate and Sinclair Oil & Gas Company to operate thereon a gas products plant.

Following are the principal and interesting points of the agreement:

The lease papers are designated No. 1684 Miscellaneous, Gas Products Plant No. 23 Plant Site, Schleicher County, Texas.

Sinclair Oil & Gas Company leased a part of Section 81, Block TT, T. C. Ry. Co. Survey, "more particularly described as follows: "Beginning at a stake on the South line of said Section 81 which is 2750 feet West of the Southeast corner of said Section 81, for the Southeast corner of this tract;

"Thence West 1320 feet along the South line of said Section to stake for the Southwest corner of this tract;

"Thence North 1320 feet to stake for the northwest corner of this tract;

"Thence East 1320 feet to stake for the Northeast corner of this tract;

"Thence South 1320 feet to the place of beginning and containing 40 acres of land, more or less, for the term of twenty (20) years commencing the 1st day of June, 1955 and terminating the 1st day of June, 1975, subject to further extension of such term as hereinafter provided."

Section 2 of the lease agreement sets forth the right of the Sinclair Company, as Lessee, to use the leased premises:

"Under the terms and conditions of this lease and for the term hereof, or extension thereof, Lessee is granted the sole and exclusive right to occupy, use and enjoy the surface of the leased premises for such purposes as Lessee may see fit, including but not limited to the right to construct, erect, maintain and operate upon the leased premises a plant or plants for the processing, extraction and manufacture of the products of gas, including oil-well gas, with all machinery, equipment, stills, tanks, boilers and appliances of whatever nature necessary or useful in connection with such plants; loading racks, machine shops, warehouses, garages, camps, houses and all structures and buildings of whatever nature, necessary or useful to the purposes of Lessee, and to lay and erect thereon pipe lines, telegraph and telephone lines, and such other improvements as Lessee may desire, build roads and construct and maintain fences on the leased premises as Lessee may desire, to dig and operate water wells thereon and to appropriate water from such wells to Lessee's use, whether used upon the leased premises or not, including the right to sell water from such wells to others, subject to the payment to Lessors, as royalty, one-eighth (1/8) of the proceeds of such sales, and to dig and operate wells thereon for the disposal of waste, and, in general, to use and enjoy the use of said

land as fully and to the same extent as though the Lessee were the owner thereof in fee simple during the term of this lease and extensions thereof . . ."

The Section goes on to discuss prior rights of prior lessee to the use of the surface of the leased premises for the operation of said premises for oil and gas; and in addition Sinclair agrees to remove any hazards to livestock and fill any excavations, upon termination of lease.

Section 3 sets forth the Lessee's rights to use adjacent or other lands:

"For the same consideration, Lessors hereby grant unto Lessee the right and easement to construct, use and maintain such roads, pipe lines, telegraph and telephone lines and electric transmission lines at such locations as Lessee may desire upon and across all of the aforesaid Section 81, as well as upon and across all of Sections 71, 80 and 82 of Block TT, T. C. Ry. Co. Surveys, Schleicher County, Texas, and the full and complete right of ingress and egress over all of such lands that Lessee may desire for and in connection with its operations upon the leased premises, for the term of this lease or as same may be extended, without the payment of any other rental or consideration for such right, easement and privilege than the considerations mentioned in this agreement; and subject only to the liability of Lessee to pay damages for injury to or loss of livestock or other damage to a grazing lessee, or lessees, of Lessors arising out of the use by Lessee herein of such rights, privileges and easements embracing such other lands in said Section 81 and said Sections 71, 80 and 82."

Signers for the Thomson Estate are as follows: Myrtle Thomson, Mary Lee Thomson Fowler, Katharine Kirk, George Kirk, Dorothy Thorp, Cecil Thorp, Tom F. Penn, Jimmie Taylor Penn, Gordon Thomson, Wylie Sue Thomson, Helen Thomson Heard, James A. Heard.

The agreement was signed for Sinclair in Tulsa on June 2nd by L. G. Rheinberger, as vice president.

Also filed in the Clerk's Office were agreements between Sinclair and H. A. Chapple of Sterling County, owner of the grass lease on the plant site; and between Sinclair and Ohio Oil Company, owner of the mineral lease.

Chapple receives payment for damages to the land incurred by laying of lines, and Ohio is allowed to continue oil and gas operations which do not interfere with the new plant.

## CITY VOTE FAVORS SALE OF STREET TO LOCAL SCHOOL

Twenty-three votes were cast, all of them favoring the city's proposal to close off and sell to the school the land lying in the street on Hill Avenue, from Highway 277. The proposal allows for the sale of one block of such land with the city retaining easement for utilities.

The block had already been closed and has been used as a tennis court. The vote Tuesday will enable the school to put permanent improvements on this land as they see fit for school expansion.

J. N. Ramsay was election judge at the election, which was held at the city hall.

## PEYTON CAIN TO BE SPEAKER AT HOMECOMING CEREMONIES

Ed Meador, master of ceremonies for the Homecoming events, announces that Peyton Cain of Alpine is to be the speaker at the Homecoming meeting Saturday morning July 16 at the school house.

Mr. Cain, superintendent of the Alpine schools, is a former teacher in the Eldorado school system. He taught several years in the Bailey Ranch school system and left that school to accept a teaching posi-

tion in the Alpine school system. After several years in that school system and several years in the Army he returned to Eldorado in 1946 and '47 as principal of the high school; returning to Alpine the next year as superintendent, a position which he still holds.

Mrs. Cain is the former Alta Stevens, daughter of Mr. and Mrs. A. J. Stevens of Schleicher County. The couple have two children, Beep age 9 and Jane who is 7.

## MEETING CALLED BY DEM. AGENT FOR ORGANIZATION

The women and girls of the town of Eldorado who are interested in organizing women's Home Demonstration Clubs or 4-H Clubs are invited to a meeting which will be held in the District Court room on Tuesday, July 12 at 9:30 in the morning. Anyone living in, or close enough to Eldorado to be members of the club or clubs in town are welcome.

The meeting will begin on time and adjourn early enough not to interfere with lunch.

In its broadest sense the aim of County Home Demonstration work is to provide growth on the part of a person. Growth is the result of education being used. We are never too old to learn and the happiest person is one whose education goes on and on.

Home Demonstration clubs offer an opportunity for unceasing education on many phases of home, family, and community living. The divisions of information are referred to as demonstrations. These demonstrations are varied as the aspects of life today. No longer should community organizations be thought of as canning clubs, as they once were actually called in the early days of county extension work. Today a popular demonstration is family life education which has as its purpose helping families to live and work together with better understanding and more fun.

Home management takes in equally the same size area of living. The house, its rooms, equipment, furnishings, and colors come in for study here. Convenience, livability and beauty are considered too.

Always popular are foods and nutrition with their manifold angles. Clothing for the entire family never fails to interest nearly everybody.

Homestead improvement and recreation are two other interesting demonstrations. In all these named the 4-H girls clubs have the same big headings with the approach and subject matter changed to meet the age needs of the club.

Similar meetings in all community centers of the county are being planned and will be announced as soon as plans are complete. At these meetings groups may discuss and possibly decide which demon-

Total depth of this project was 6015 feet.

The V. G. Tisdale well located in NE 1/4 of Survey 16 in Block A HE & WT Railway Survey in Schleicher County to be drilled by Fortune Drilling Company has surface set and is waiting for a rotary rig to be moved in. The contract calls for a shallow test to be made at 3500 feet.

## New Service Station In Eldorado to Handle Col-Tex Products

Johnnie Mayo, native of Voca, former operator of the Bailey Ranch Gin and for several years operator of a Cactus Oil Co., station in San Angelo, opened Cactus Oil Co., Station 18 Sunday for business in the former Shaw grocery location.

Workmen have been getting the building and grounds in condition and the pumps in operation in time to catch some of the 4th of July gasoline sales.

Mayo was born in Voca and graduated from Brady High School. He owned and operated the Bailey Ranch Gin in this county from 1934 to 1942, then went into

service for 3 1/2 years. Returning to Eldorado he sold the gin, and moved to San Angelo where he owned and operated a Cactus station for nearly five years.

He then moved back to Schleicher County where he has been stock farming and where he will continue to live. Mrs. Mayo is the former Thelia Luedcke and the couple have two children, Sammie and Johnnie.

The building which he has renovated for his station is the former Shaw grocery location, which had been vacant a number of months.

Mayo's opening ad appears in this issue of the Eldorado Success.

**Health Department Urges Clean Community**

Every Texas family needs the assurance that it is living in a clean and healthy community, according to Dr. Henry A. Holle, Commissioner of Health. The family needs the assurance that when disease threatens, there will be a local health agency ready to combat it on a community wide basis. Texas now has 47 full time city and county health units covering 57 counties. These 57 counties have 62% of the state's population.

An adequately staffed and financed local health department provides six basic services to the citizens of the town or county. It keeps public health statistics, controls communicable diseases, promotes maternal and child health, enforces environmental sanitation, operates a public health laboratory and works to educate the community for better health. Each local health department will of necessity differ from the others and the most effective public health program must be tailor made to fit the particular health needs and problems of its own community.

At present 197 counties in Texas do not have full time health protection. Dr. Holle has as one of his goals complete health protection in every county of the state. Some counties now have a large enough population to provide this service but for counties having sparse population, two or more could pool their resources and have the advantage of up to date public health methods.

Dr. Holle points out that giving full time health service to the entire state will require a substantial increase in the expenditure of funds for public health purposes. In his opinion this is the best investment any community can make. Although great strides have been made in maternal and infant health and in disease prevention, Texans cannot be content with less than complete eradication of preventable deaths.

Jimmy and Jerry Doyle were honored with a birthday dinner at the home of their parents, Mr. and Mrs. Claude Doyle, last Saturday night. Guests were members of the family and Loretta Billhartz of San Antonio who visited Burnell Doyle over the weekend.

Mrs. Victor Sauer and Kathy returned home Thursday from San Angelo where they had visited with friends and relatives four days.

**Ex-Eldorado Chats With Prexy of U. of Houston**

William O. Alexander, Jr., formerly of Eldorado, discusses university days with the president of the University of Houston, A. D. Bruce.

"A strange thing, perhaps, but I am probably happier than I have ever been in my life."

That is the feeling of a 29-year-old victim of polio who has been confined to a wheel chair since 1946. He is William O. Alexander, Jr., son of Mr. and Mrs. W. O. Alexander of Eldorado, Texas.

Today, Alexander is the proud possessor of BS and MS degrees from the University of Houston, a straight "A" scholastic average broken only by one "B", a wife and four children, a home, and a bright outlook on life.

Alexander received his MS degree in mathematics at the end of the 1955 Spring semester.

In May of 1946 he contracted both spinal and bulbar type polio six weeks before his discharge from the Navy. After almost three months in an iron lung and two years in a VA hospital, Alexander embarked on his education career at the Houston university.

Concerning his handicap, which is almost a misnomer in his case, Alexander stated, "It has been responsible for the development of many new interests which I possibly would not have acquired had it not been for polio."

At the present time he is torn between a desire and a necessity. He would like very much to con-

tinue his studies toward a doctor's degree in mathematics. But, he feels he will have to accept a teaching job for the time being in order to support his family.

When asked what single factor has been most responsible for his accomplishments in recent years, Alexander looked at his wife. "She has contributed seven-eighths of the incentive for me."

And when Mrs. Alexander speaks, one detects a great deal of pride in the accomplishments of her husband.

It was she who related some of the things Alexander failed to mention—his high scholastic average, his first place in an essay contest sponsored by the ATLANTIC MONTHLY, his receipt of a high French award, and his honorable mention in National Science Fellowship competition.

Alexander rates the University of Houston very highly. In fact, he said, "The University has been the means of my getting education. Students and teachers, alike, were friendly and most helpful."

Born and reared in Eldorado, he graduated in 1943 from high school there. His father is vice president of the First National Bank in Eldorado and his three brothers are in the banking and insurance bus-

iness. Although he feels he is well adjusted and able to cope with the future, Alexander has no specific bit of advice to offer others who might find themselves in a similar position.

Each individual, he believes, faced with a handicap must work out his own problems in his own way keeping in mind that he can find a rightful place in society.

In any event, Alexander has proven his own advice.

FAMOUS TEXANS' RECIPES

Texas Sage Recommends Old Pioneer Beef Dish

J. Frank Dobie

of "jerked" beef: "It has always seemed especially wholesome and is certainly nourishing.

"My way of cooking it is to chop it up and boil it with potatoes, plenty of onions and a few Mexican peppers. It makes a whole, satisfying and balanced meal."

"Jerked" beef, not to be confused with dried or corned beef, is a cured meat which is still very much in evidence around cow camps, even in this era of refrigeration. During round-up time, cow hands feast on the forequarter cuts the first few days after killing an animal, after which they rely on "jerked" beef for their meat supply.

To preserve freshly killed beef by the "jerked" technique, it is boned and stripped in one-half inch lengths, seasoned and stretched over wire or rope to dry in the sun. The sun-cooked beef, called "jerky," keeps indefinitely.

Some cowboys like to chew on a hunk of jerky as a substitute for the less-nutritious black-horse tobacco.

The Texas Beef Council, in its search for authentic pioneer jerked beef recipes for inclusion in the Famous Texan Cookbook, asked Mrs. A. C. Jones of Beville, a third generation Texan and family-friend of Dobie, for her "Picadilla" (jerked beef hash) recipe. The following measurements will serve four:

- 4 cups chopped jerked beef
- 1/2 cup shortening
- 1 cup chopped onion
- 3 cloves garlic
- Chilipetines or jalepanes (optional)
- 2 cans tomatoes
- 2 tablespoons chili powder
- 1 tablespoon pepper

Salt to taste  
Soak jerky in warm water until softened; place on meat board and chop into small pieces. Sauté light onions and garlic in shortening in heavy skillet; add beef, tomatoes. (4 cans tomato sauce may be substituted for tomatoes.) Add seasonings; cover and simmer for about one hour.

For Carne Con Arroz, another Dobie favorite supplied by Mrs. Jones, add two cups uncooked rice to shortening with onions and garlic and brown slightly; add potatoes, canned corn or hominy.

Recently the Community Chamber of Commerce put placards in all business houses in Santa Anna warning solicitors that they would not be recognized unless approved by the Chamber of Commerce.

However, it would be almost impossible to put one of these placards in all the homes of the town. The House passed a Reserve training bill and a foreign aid measure last week before recessing for the July 4 week-end. The reserve bill had been bogged down because of an amendment offered several weeks ago to the original bill. The amendment offered by the negro Congressman from Harlem, which would have forced desegregation of National Guard units, was tentatively adopted and that forced the bill to be pigeon-holed. In the meantime the President appealed to the colored member not to persist in his move; but the latter flushed with initial victory, said Eisenhower had bad advice and didn't know what he was talking about. The President had insisted that a civil rights amendment to the bill was "extraneous" and was the wrong time and place for that issue to be fought out. He said the move jeopardized national security. Anyhow, the new attempt to wreck the National Guard, which except in time of national emergencies is under control of the respective Governors, failed when the Harlem member's new attempt was voted down this time by a two-to-one margin.

The \$3 1/2 billion foreign aid bill also sailed through the House after lengthy debate. While I strongly favor some portions of the program, such as further military supplies for Pakistan, Turkey and others known to be in need and worthy of our help, I voted against the package bill because of a num-

ber of aid items which I felt was unjustified. For example, the \$70 million hand-out earmarked for India. And the aid to Yugoslavia, I feel, should be reexamined in view of Tito's lovey-dovey attitude toward the Kremlin of late. Should we send more jets to Tito until and unless we have more definite assurance of which side he is actually on? Maybe he will stand firm against capitulating to Moscow, but his recent behavior calls for an explanation and certain assurances that have not been forthcoming.

## Ebba Jean Blaylock Weds Air Force Lieutenant Here

Mrs. John Nikolauk

Ebba Jean Blaylock, daughter of Mr. and Mrs. W. A. Blaylock, was married to Lt. John Nikolauk of Waco Saturday, July 2 in the home of Rev. and Mrs. J. C. Hancock in Eldorado. Rev. Hancock performed the double ring ceremony before a background of white chrysanthemums in baskets.

The bride wore an ice blue afternoon dress styled on princess lines. White lace was used at the neckline and small lace flowerets were sprinkled on the bodice. She wore a shoulder corsage of white chrysanthemums with white satin ribbon.

Miss Jane Mund, cousin of the bride, was maid of honor and John Kubarych of Stamford, Conn.,

cousin of the groom, was best man. The only other attendants at the wedding were the bride's parents, Mr. and Mrs. W. A. Blaylock, and her niece, Frankie Nell Blaylock.

The couple left immediately after the ceremony for Waco where he is a pilot in the Air Force. They plan a trip to the New England states, New York and Canada, in August, when he receives a leave from his military duties.

The bride is a graduate of the Eldorado High School and Baylor University, and her husband is a graduate of Greenwich H. S. He is attending Baylor in addition to being a pilot in the air force. He is a son of Mrs. Mary Nikolauk and the late Mr. Nikolauk of Greenwich, Conn.

### Three Are Appointed To Serve On Committee To Assist Sanatorium

Mrs. E. H. Nimitz, Mrs. T. P. Robinson Jr. and Mrs. Edwin Jackson attended an organizational meeting at McKnight Sanatorium for the discussion of volunteer county councils, in the 16 counties of the San Angelo district, for assistance in promotion of humane assistance to the patients at the sanatorium and their families.

Dick Bearce, county judge, appointed Mrs. Edwin Jackson county chairman and Mrs. T. P. Robinson Jr., assistant chairman, for Schleicher county.

The object of the council is: 1. to promote acceptance of bed rest by these patients; 2. to furnish facilities for physical therapy; 3. to help patients to develop an active interest in and desire for complete recovery; 4. to help prepare patients to return to self employment within their limitations. Other than the chairman appointed by Mr. Bearce the council will be made up of volunteer workers.

At the meeting attended by Mrs. Nimitz, Mrs. Robinson and Mrs. Jackson it was stated that many patients leave the sanatorium before they are completely cured, thereby endangering the lives of themselves, their families and the general public. Reasons for leaving are too numerous to name but a few are: unhappiness of the patient due to inactivity, finances and worries over problems of the family. The greater number of patients leave without permission during the Christmas holidays.

This is caused by patients' desire to be with their families during the holidays, and worries over family problems at Christmas time. Last year the volunteer council in San Angelo worked with the patients and the number of patients leaving without permission during the holidays was reduced to 2 in comparison to 40 the year before.

IRRIGATION FROM WELLS CONTINUES PLAINS EXPANSION

College Station. — more than 4,000,000 acres of land is being irrigated by 33,537 wells on the High Plains of Texas.

Hale county with 3,700 wells is the leader in this category. These wells supply the water to irrigate 470,000 acres.

Butane is used on 15,447 wells while natural gas powers another 11,881 pumping plants.

Fewer Eggs, Higher Prices Are Forecast

College Station. — Production from egg laying flocks is expected to dip five percent or more this fall.

"Farmers have raised 19 percent fewer replacement chicks this year," explains John McHaney, extension farm economist.

While the number of replacement chicks started over the nation closely parallels farmer's February 1 intentions, in Texas and other south central states the cutback has exceeded the expected 15 percent mark.

Poultrymen who bought replacement stock during the first four months of 1955 will profit most from the situation because of high egg yields at times when prices are more favorable.

69 Poisonous Range Plants In Texas Listed

College Station. — Bitterweed, milkweeds, loco weeds and the groundsels are among range plants most common and poisonous to livestock in Texas.

These plants are among 69 listed as poisonous grazing to livestock in Texas Range Plants Poisonous to Livestock, a new joint publication of the Texas Agricultural Experiment Station and Extension Service.

A complete description of each plant, a list of animals commonly affected, and the management and control of each is given in the bulletin.

Overgrazing and periodical droughts, says the publication, mainly are responsible for the decrease of more desirable plants and consequent increase of toxic and less desirable brush and weeds.

Dehorning Is Urged For Beef Cattle

College Station. — Horns and choice beef carcasses do not go together. Feeders having horns, says U. D. Thompson, extension animal husbandman, do not feed out so well as dehorned cattle.

Badly bruised carcasses are usually found in shipments of horned animals. These bruises detract from the appearance of the carcasses and lower their sale value. Aside from the damage to the meat, the hide is frequently damaged as a result of cattle goring one another.

In general, dehorned cattle usually command better prices in the market place than horned cattle of similar quality and condition, Thompson adds.

SPOT OILING JOHNSONGRASS GIVES 99 PER CENT KILL

College Station. Farmers can now get rid of Johnsongrass completely without swinging a hoe.

Spot application of diesel and naphtha-type oil sprays is proving a practical answer to row crop control of Johnsongrass. At College Station four treatments of such oils killed 99 per cent of all Johnsongrass in cotton stands in one season.

Homier E. Rea, agronomist for the Texas Agricultural Experiment Station who has been working with various Johnsongrass killers, believes that successful spot oiling of Johnsongrass is highly significant.

AUSTIN—School-age children of Texas will be given a second round of polio inoculations before the month ends.

Assurance has been given State Health Officer Henry A. Holle, by the National Foundation for Infantile Paralysis, that manufacturers of the vaccine will have completed production and safety testing of enough vaccine to permit another round of inoculations and booster shots by the end of July.

Fifty five new cases of polio were reported for the latest reporting period, which ended June 25. It brought the state total to 509.

Austin has had 12 cases to date.

Draft Evader Sentenced

Two years in the federal penitentiary face Fred D. Jackson of Comanche.

He was sentenced by Federal Judge Ben H. Rice, Jr., when convicted of draft evasion. Jackson handled his own defense.

Asst. U. S. Dist. Atty. Lonny Zweiner, said that the Jehovah Witness minister refused to work in the Austin State hospital when ordered by his draft board—in lieu of military service. Yet he admitted working in a Fort Worth plant that manufactured military aircraft.

Adrian Case Delayed

Federal Judge Ben H. Rice, Jr., has postponed until next January a hearing to determine if 75-year-old John Cass Adrian of Austin is "mentally incompetent."

Adrian is a retired Austin mail carrier and Spanish American War veteran.

He is charged with writing a threatening letter to Former Land Commissioner Bascom Giles on May 13, and attempting to extort \$800,000 from Giles.

Parr Appeals

George B. Parr, "Boss of Duval County" has asked the US 5th Circuit Court of Appeals for permission to file two writs in his fight against charges of income tax evasion.

Parr wants the higher court to vacate an order setting his trial for July 18, and to stop proceedings until the Appeals Court reaches a decision.

Also, he wants the case heard in Laredo. Originally it was scheduled for Corpus Christi, then moved to Austin.

Parr has denied the government's charges that he failed to pay \$85,000 in income taxes for the years 1949, 1950 and 1951.
