BAPTISTS LOSE 2 TYPEWRITERS OVER HOLIDAYS

Two portable typewriters, which disappeared from the First Baptist Church during the holidays, are still missing, and the sheriff has been notified and a search started. Church officials have sent for serial numbers of the machines to aid in the search.

One of the portables was a practically new Underwood, and was the property of the associate pastor, Perry Cox; the other was a Royal, and was the property of the church. Both machines were in excellent condition.

They disappeared from the offices of the church during the holiday season.

Roscoe M. Parker

Roscoe M. Parker, 44, died at Dallas Methodist Hosp., Thursday night from a heart attack. Funeral services were held Saturday at Lamar & Smith Funeral Chapel, Dallas, and interment was made in a Dallas cemetery.

Roscoe Parker was born in Schleicher County and attended the Bailey Ranch and Eldorado schools. He graduated from Eldorado high school in 1929 and from Sul Ross college in 1933. Following his college graduation, he coached at Sanderson and later at Palmer, Texas. He married Irene Benton, also a Sul Ross ex, and the couple have one daughter, Gail, now of high school age.

At the time of his death Roscoe Parker was an employee of the Tempo Aircraft Co., in Dallas, a position he had held for some time. He had a heart attack about four years ago, from which he recovered and returned to work. He and his family were members of the Cliff Temple Baptist Church in Dallas.

The second heart attack last week was fatal in thirty minutes according to his family.

In addition to his wife and daughter, Roscoe Parker is survived by one brother, Luther of Abilene, and a sister, Mrs. W. T. Mills of Big Lake; also his parents, Mr. and Mrs. Gene Parker, long-time residents of Schleicher County, who recently moved from Eldorado to Big Lake because of the father's frail health.

Relatives from here were in Big Lake Saturday to stay with Gene while other members of the family went to Dallas for the funeral.

Services were held at Lamar & Smith Funeral Home with burial in the Garden of Gospels in Restland Cemetery. His mother, sister, brother and Jene Kay Mills attended the funeral.

Mrs. Hollis McCormick went to San Angelo Tuesday to enter Shannon Hospital, where she was expected to have major surgery today, Thursday.

VANDALISM FOR SCHLEICHER

Vandalism seems to have hit Schleicher County Sunday night, according to reports filed with the Sheriff. Window glasses were broken out in the Bob Hill and Olsak (Gillispie) places, and damage done to the interior of both houses.

The houses are in the southwest part of the county, and are not occupied part of the time. Ray Willoughby leases the Hill place, and Olsak batches on the old Gillispie place only when he is here to work the place.

The sheriff is investigating the extent of the damage and possible clues.

Post Script

Pay your poll tax!

This will be a theme song over all of Texas during the month of January.

You are going to get to vote on nearly everything from Justice of the Peace to President.

State politics already give promise of getting real hot and national politicking will probably be of the same temperature.

In county politics the four-year term law excuses five of our officials from running this year. They are the County Judge, Treasurer and Clerk, and Commissioners in Precincts 2 and 4—namely: Bearce, Parker, Enoch and Pope and Potter.

The officers who will be obliged to run this year are the Sheriff, the County Attorney, Commissioners of Precincts 1 and 3 and the Justice of the Peace. The incumbents are: Sheriff Sweatt, County Attorney T. P. Robinson Jr., Commissioners Jim Williams and Carol White, and Justice of the Peace Payne Robinson.

—ps—

The summer and fall of any election year, such as this, will see magazines and radio and TV stations telling their national public to be sure to "register" to vote. Most states now have voter registration laws, and these are the states the magazines and stations have in mind.

Texas is one of the few states in which voters must still qualify themselves for voting each year by paying a poll tax, and it must be paid by January 31st.

—ps—

The last national election year, 1952, was the first one in which the national conventions of both major parties were televised to a national audience. We remarked at that time that TV in Eldorado was a rarity, only two or three persons having sets, because there were no nearby Tv stations. It was predicted that the next national election would see television in many more Eldorado and Schleicher county homes.

A drive around town shows many houses with TV antennas. The prediction has come true, despite the interval of four years being a continuation of the drought.

A number of relatives and friends from here attended the funeral.

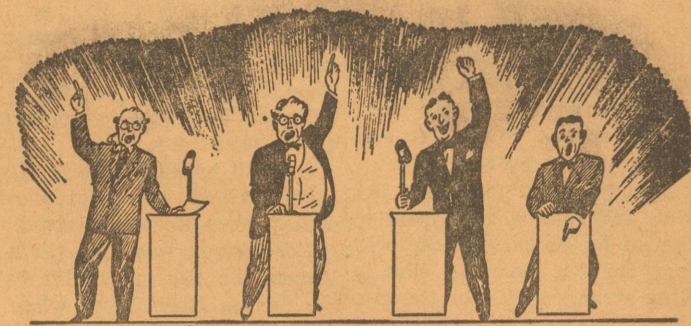

Surviving are four sons, Loyd of Ranger, Dennis of Bangs, Ulys of Fort Worth and T. J. of Cross Plains; three daughters, Ruby Machin of Fort Worth, Mrs. J. W. Row of Coleman and Mrs. C. E. Slone of Eldorado; 28 grandchildren, and 29 greats.

Two Are Injured When Car Turns Over

A late-model Mercury was turned over and wrecked about 15 miles north of Eldorado last Friday. The wrecked vehicle was towed in to Eldorado, and the injured occupants, Mr. and Mrs. Lawrence Phillip Smith, were taken to Shannon Hospital.

Smith, who had worked for the last two months on an oil rig in this county, was returning with his wife to Stamford. The accident occurred when his car skidded on the pavement which had become slippery from drizzling rain. The accident took place in the Huldale area.

Mr. and Mrs. Don McCormick drove to Austin with their daughter Donna Beth, who returned to her school work at the University.

REA Power Sales Up; Consumer Cost Down

Power sales of REA borrowers is up 16%; price to consumer is down 5%.

Sale of electric energy by REA-financed power systems went up 16% and the cost of power to consumers dropped 5% during 1955, the U. S. Department of Agriculture reported today in a year-end summary of the activities of the Rural Electrification Administration.

For the first time in the history of the 20-year-old REA program, the average cost of power to residential consumers, including farm and non-farm, dropped under 3 cents per kilowatt-hour. The average cost was 2.95 cents per kwh. In 1954 this average was 3.09 cents and in 1953, 3.22 cents.

Average monthly consumption among the residential consumers went up from 223 kilowatt-hours to 244, and the average monthly bill increased from \$6.88 to \$7.21—a 9% increase in consumption, yet only a 5% increase in average cost to each consumer.

The REA-financed systems sold an estimated 19 billion kilowatt-hours of electricity, an increase of about 16% over the 16.5 billion kwh sold in 1954. Their generation of power was up 21% and their purchases of wholesale power up 13%. In 1955 they paid an estimated \$154 million for the power they distributed. In 1954 this figure was \$138 million.

REAs preliminary figures showed a loan total of \$180 million for 1955, about \$9 million more than was loaned in 1954. Loans over the life of the program now total \$3.1 billion. Of this amount \$2.6 billion has been advanced to the borrowers.

At the year's end there were 1,026 borrowers with systems in operation. They were serving 4,244,000 rural customers.

Ancher Nelsen, REA administrator, said the borrowers, largely farmer-owned electric cooperatives, were never in better financial condition. In 1955 revenues from operations amounted to 453 million, an 11% increase over 1954. Net margins from operations amounted to \$61.8 million, a 41% increase.

The number of borrowers whose current operations might be considered financially unsatisfactory is going down, Nelson said. Where there were 194 such borrowers in June 1954, there were only 143 in June 1955, a 25% drop.

In 1955 the systems paid \$111.2 million in principal and interest on their 2% loans and continued their excellent repayment record. At the close of the year only 15 of the agency's borrowers were delinquent in payments more than 30 days and the amount overdue was less than one-tenth of one percent of the amount billed. In 1955 the borrowers also increased their advance repayment of borrowed money by \$13.2 million. Payments on principal ahead of schedule now amount to \$91.8 million.

Mr. and Mrs. M. C. Stearns were in San Antonio early this week.

SWEATT ANNOUNCES FOR RE-ELECTION AS SHERIFF, ASSESSOR

E. H. (Greasy) Sweatt this week has authorized the Eldorado Success to place his name in the political announcement column as a candidate for re-election to his present office of sheriff and tax assessor-collector, subject to the action of the 1956 Democratic primaries in July.

He states that he is seeking re-election upon his record of efficiency in carrying out the duties of his office. He further states that in addition to gaining valuable experience he has improved his special qualifications by attending instruction schools for law enforcement officers and in every way has been working for increased efficiency. He states that the records of his office are open for inspection and that he has shown no partiality or favoritism in discharging the duties of his office.

He says, "I have gone along with the changing law enforcement facilities and believe I have gained valuable experience which will enable me to serve you better during the new term.

"I appreciate your support during the years I have been your sheriff and tax assessor-collector, and pledge myself to carry out the duties of the office in such manner in the future as to continue to merit your confidence, conducting the three combined offices with only the interest of Schleicher at heart. I ask that the people of the county give my solicitation for their vote and influence due consideration, upon the basis of my experience and conscientious service I have rendered."

Local Postal Receipts Are Up For December, But Down For Year

Postal receipts for December 1955 were the highest in Eldorado's history, but receipts for the year 1955 were less than 1954, according to figures assembled by Postmaster Waller this week.

Receipts for the last four calendar years are shown below:

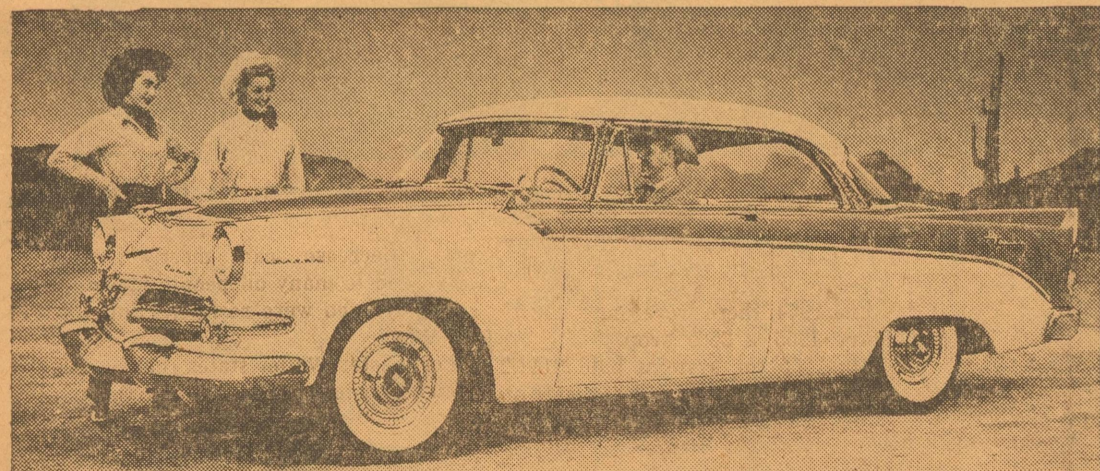

1952	\$19,224.40
1953	\$20,325.30
1954	\$23,224.47
1955	\$19,702.79

This decrease can mostly be attributed to many oil people moving away, who were residents during 1954.

Postmaster Waller states that he would like to express his and the office force's appreciation for the fine co-operation of the public in the way Christmas mailings were made—that is the suggestions that were followed in tying out cards separately and taking advantage of slack periods of the day to do their parcel mailings.

Perry Cox has returned from a vacation visit with relatives in Corpus Christi, Laredo and San Antonio. He was accompanied on the trip by his house guest, his brother Allan, returning to Eldorado Saturday.

It's Tax Reporting Time On The Farm

College Station. — Farm and ranch operators should be happy to know that their income tax reports are not due until February 15, 1956. The previous deadline for filing the reports was January 31. The ruling was made in 1955 but was not announced in time to affect many taxpayers, says C. H. Bates, extension farm management specialist.

There is an exception, points out Bates. Every farm employer who owes the two percent employer tax and the two percent employee tax must file a return on Form 943, and pay the taxes, on or before January 31, 1956. Farm employers should file their returns on time in order to avoid the penalty which may be charged for late filing.

For the first time this year self employed farmers who net \$400 or gross \$800 or more annually are subject to reporting for social security benefits. The Act was amended by Congress in 1954 and applies to farm and ranch income for 1955.

Because of the possibility of retirement benefits and insurance features of the plan, farm and ranch operators should study the procedure for reporting. Each person will need a social security number before making report for benefits and paying the tax.

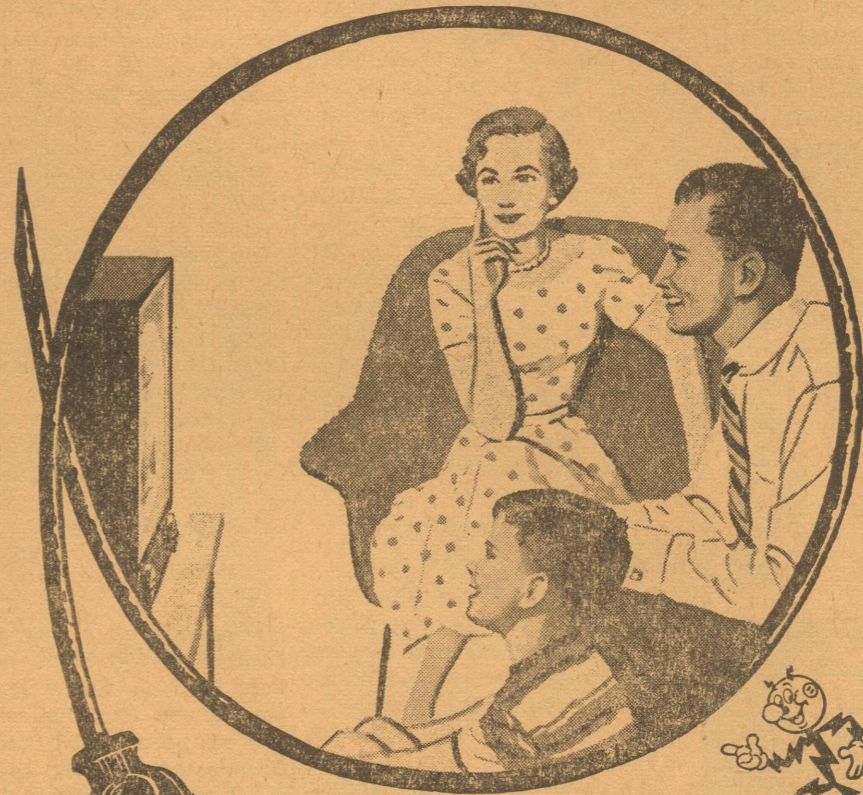

Information on various phases of tax reporting says Bates, may be obtained either from county extension agents or the Social Security and Internal Revenue offices. Even if copies are available only for study, persons interested will find the reference covers the self-employment phases in some detail. A helpful booklet, "Farmers' Tax Guide for 1955" is available in limited quantity from county extension service offices.

Highlights and Sidelights FROM your State CAPITOL

Austin. Scandals, investigations, trials and political upheaval kept Texas news lively in 1955.

Most of the big '55 stories are expected to have even bigger sequels in '56. In them may be answers to now-tense questions, solutions and attempted solutions to a raft of state problems.

Some 1955 stories and topics for their 1956 chapters include:

1. Veterans land frauds were revealed, and former Land Commr. Bascom Giles was convicted. More trials are pending, and scandals are a likely summer campaign issue.

2. U. S. Supreme Court decree and follow-up action by Texas Supreme Court wiped out Texas' school segregation laws. Desegregation moves also begin in public parks and transportation facilities. But many Texans in areas with large Negro populations formed Citizens Councils that will still be fighting in '56.

3. In an earliest-ever start two candidates, Reuben Senterfitt and Sen. Jimmy Phillips, entered the governor's race. Some half-dozen others jockeyed for position.

4. Wright Morrow was replaced by Lt. Gov. Ben Ramsey as national Democratic committeeman. How successful Ramsey is in uniting the feuding factions of Texas Democratic party will bear directly on these big '56 questions: What candidate will carry the Texas delegation support at the national Democratic convention? What party will carry Texas in the presidential election?

5. Seven-million-dollar collapse of U. S. Trust and Guaranty Company left thousands of depositors and policy-holders with potentially heavy losses. For '56 it meant more investigations, a hot new campaign issue and possibly new laws.

Auditor's Answers Awaited

Answers to two big questions resulting from the bankruptcy of U. S. Trust and Guaranty Company of Waco hang on the auditing of the company's tangled financial accounts.

What the public wants to know is: (1) What percentage of their money will depositors get back? (2) What did the company do with all its money?

Estimates of depositor's recoveries range from 15 to 100 cents on the dollar. State Auditor C. H. Cavness said he is hopeful investigators will recover 50% or more, but added "enough may not be known for a month or two to make a good guess."

Cavness, at the request of the Senate investigating committee, also is trying to find out who got the money from checks totaling \$25,000. They were issued by the company payable to "cash" during a period that coincided with the last legislative session.

Liquidation proceedings are expected to take one to two years. Garland Smith, chairman of the Insurance Commission, said the commission does not have enough staff to carry on the receivership work.

State Sen. Searcy Bracewell of Houston has advocated a special session if necessary to provide the commission with more examiners to enforce new laws passed last session.

Depositors Map Strategy
A statewide meeting in Houston sometime this month is planned by depositors in the defunct U. S. Trust and Guaranty Company.

At separate meetings last week in Waco, Dallas and Houston several hundred of the 5,600 holders of "certified drafts" kicked off their campaign to recoup losses.

They have hired legal counsel, and enlisted the aid of state officials and legislators.

Depositor's chances for substantial recovery are based on hopes that: (1) they will be made "preferred creditors" and (2) assets of subsidiary companies will partially offset liabilities of the parent firm.

Bob Whitley and Mr. and Mrs. J. H. Moore attended the funeral in Midland of Bobby Luckett, 27, former Eldoradoan, who died of a heart ailment. The youth had accompanied his parents when they left Eldorado during the war after

operating a bakery here, and the family lived in Sterling City, and Lubbock, before moving to Midland. He leaves a wife and other relatives. He attended school in Eldorado during the years the family lived in this city.

The Bob Skurlocks have had as guests during the New Year's weekend Mr. and Mrs. Rosco Behrens and family of Mason.

Mr. and Mrs. W. P. McConnell spent the holidays in Sonora with relatives. The McConnells live at McKavett Humble Station.

Mrs. Mae Tisdale continues to improve at Memorial Hospital in San Angelo.

Callers at the home of Mrs. Frank Webb Tuesday were Mrs. C. A. Spencer from Harper and Mrs. Odes Sudduth of Schleicher County.

Dial Mercer and his family of San Angelo spent the day Wednesday with his mother Mrs. Mae Mercer.

Mr. and Mrs. Will Whitten left this morning for Edinburg, where they will visit Mrs. Whitten's mother Mrs. J. S. Pelt and her two sisters.

Danny, youngest child of Mr. and Mrs. Roy Boyer, had his tonsils removed in a San Angelo hospital on the 27th. He is doing well, his parents report.

Mr. and Mrs. Carol Lange of Llano and three daughters spent Sunday night with Mrs. Irene Rutland and Barbara. On Monday the Lange family and Barbara went on to San Angelo to visit the Durward Rutlands. Mr. Lange is a deacon in the church which Durward formerly served as pastor.

Mr. and Mrs. Hollis McCormick had as guests during the weekend Mr. and Mrs. Joe Neely and daughter of Big Spring.

The Congregational Methodist Missionary Society met in regular session at the church. Mrs. Wiley Hight taught the Bible lesson.

Mr. and Mrs. Houston Thigpen have vacated the Sam Jones rent house and have moved to the Vernon Hazelwood rent house.

Farmers in the Eldorado Divide Soil Conservation District are starting to get their conservation practices lined up for the coming planting season.

Every drop of rainfall that is lost to runoff is worse than not even receiving this moisture at all. He not only loses the rainfall but also part of his soil. From now until the crops are mature each drop of rain must be made to count to the fullest. To make our rains go farther in making these crops a complete system of terraces and contour planting should be on the land.

Now is the time to terrace and contour your cropland. Hold all of the pre-planting moisture you possibly can. The same goes for rangeland. If you expect to grow grass on any areas which are nearly nude of grass you must hold the moisture which falls on it. Let's plan now to pit those areas. Hold your midwinter moisture to grow grass with next spring.

The time to contour, terrace and

pit rangeland is now. Don't lose part of any winter rains we might receive. If you feel you should reseed some areas in your pastures the time to buy this seed is now. The supply of good locally grown seed is usually short in the spring.

The Schleicher County ASC will provide assistance up to 70% of the cost of terrace construction not to exceed \$118.00 per mile. They will also pay 50% of the cost of pitting not to exceed \$1.00 per acre.

W. O. (Whip) Faull has purchased a terracing plow which can be mounted on his tractor. He intends to use this in maintaining his own terraces and build new terraces also. At present he is building a system for Hanson Nixon.

Bob Reynolds, Ross McAngus and Vernon Pfluger are constructing terraces on some of their fields. Soil Conservation Service technicians made a topographic map of a field Pete Parker plans to irrigate. He has leveled this field and ditches have been laid out for him.

On Sunday night Mr. and Mrs. Charlie Trigg were among those attending a party given in Ozona by Mrs. Joe Davison, honoring Joe Tom, who was celebrating his 36th birthday. Joe Tom played football at SMU at the time Mr. Trigg was coaching there.

Interest In Irrigation Running High In County After Five Drouth Years

Parker Bros.

As a result of five dry years, a marked increase in interest in irrigation was shown in Schleicher county during 1955 when several individuals invested in irrigation wells and facilities. More testing is expected to take place during 1956.

While irrigation is not new to the county, the late Henry Mittel having set up his project in Huldale several years ago, it was not until this past year that other parts of the county were tested.

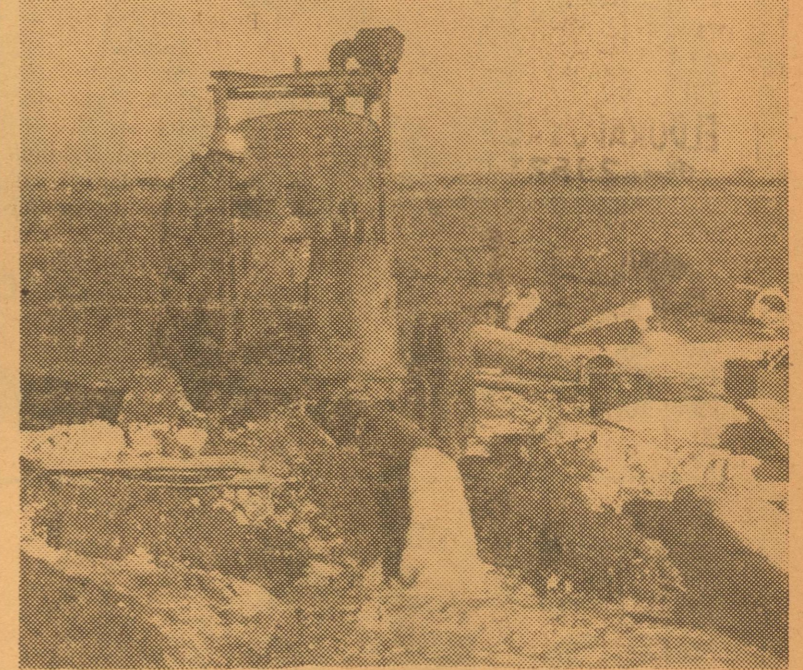

Nick Jurecek was the first of the group shown to get his system in operation.

July saw acidizing and testing under way at Clyde Keeney's and Parker Bros., while August saw Henry Moore and Leonard Lloyd making tests.

By September irrigation water pumps were being installed at Parker's and Keeney's.

The most recent irrigation test went on during December at Perry Mittel's place about a mile and a half north of town. It was being tested recently at 600 GPM.

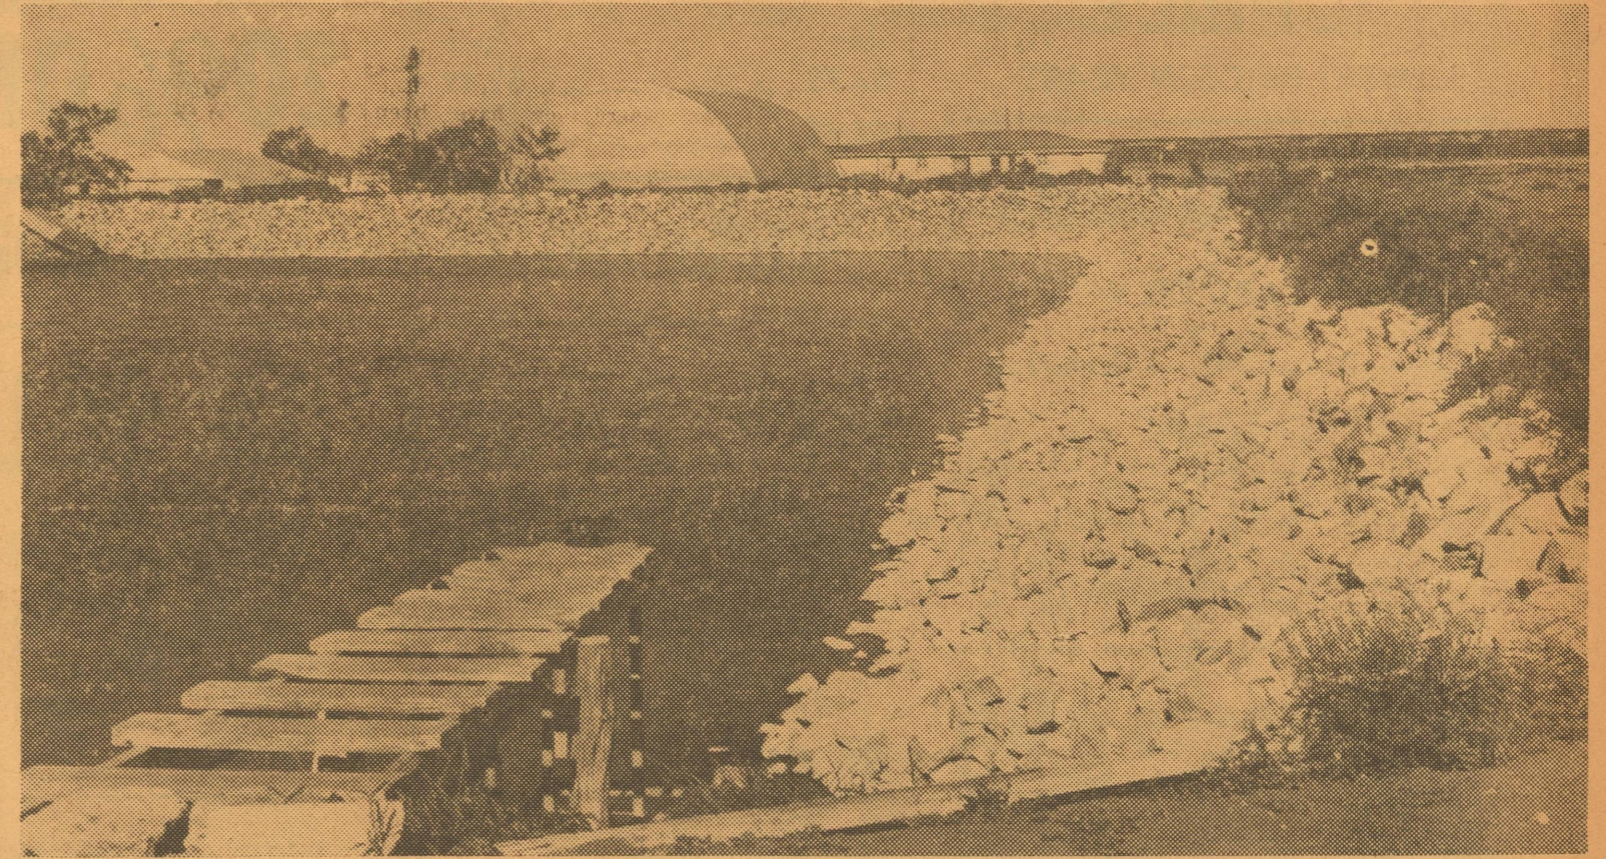

Not shown are the irrigation projects of Leonard Lloyd and Henry Moore in the Reynolds community, and Henry Mittel and Curtis Stockton in the Huldale area.

Presbyterian News

As we grasp the first rungs of the ladder of 1956 we can't help but get a thrill from it, realizing the challenges that will come to us during the year and the enthusiasm that ought to be ours as we accept them. There was never a greater challenge from any one than that which our Lord gave us. We are so anxious about this world's goods. We worry because we don't have all the money we want. We fret because things just don't go like we feel they ought and we do many things and say more that we shouldn't. Why not climb the ladder of 1956 with this challenge ringing in our ears, "Seek ye first the Kingdom of God and his righteousness; and all these things shall be added to you." (Mat. 6:33). Our Lord told the truth at all times. If you believe him do what he says. —James L. Spencer.

What's Your Name?

"What's your name?" would seem to be a simple and easily answered question. Yet, the variety of answers which many people give in response thereto is surprising. For example, take this hypothetical case.

Albert Charles Smith died and his lawyer filed the petition of probate for his estate, entitling it: "In the Matter of the Estate of Albert Charles Smith, also known as Albert Smith, also known as Charles Smith, also known as A. C. Smith, also known as A. C. Smith and also known as Charley Smith."

With such a simple name, what did Mr. Smith do to make the probating of his estate so complicated?

When Albert Charles Smith was born, the attending physician filed a birth certificate with that name. During his school years, his friends called him "AL."

Mr. Smith went to college and decided that his name would look more distinguished if he wrote it "A. Charles Smith," and he was so regarded. His college diploma carried that name.

Starting out in business Mr. Smith took a job that required him to write his signature many times a day. To simplify the work, he signed his name "A. C. Smith." His bank account and telephone number were recorded that way. Mr. Smith lost a part of his identity since there were eleven "A. C. Smiths" listed in his telephone book.

Mr. Smith decided to get married and he rushed to the courthouse to get his license. Without giving the matter much thought, he told the clerk his name was "Charles Smith." The name was recorded on his marriage certificate.

Mr. Smith bought a house, and the lawyer who handled the transaction asked for his full name. The deed was registered at the courthouse under the name "Albert Charles Smith."

A life insurance agent had previously written a policy for Mr. Smith under the name, "Al C. Smith." During his middle life, Mr. Smith took out other policies from another agent, and all of them carried the name "Albert C. Smith." He took a position with a railroad and appeared on the pension roll as "A. C. Smith."

Mr. Smith owned some securities and several pieces of real estate and also owed various bills. They were all listed under varying combinations of his name.

Then Mr. Smith made his will under the name of "Albert C. Smith." A year later he died, and that is when his attorney started working and trying to find out just who Mr. Smith was and what he owed and owned.

Of course this case is imaginary; but it illustrates how difficult and

costly such a practice can be.

Every person should use the name appearing on his birth certificate and should make sure that all documents which have a legal bearing, such as school diplomas, deeds to property, certificates of stock and bond ownership, and insurance policies, carry the same name. This will often avoid complications in the probating of an estate.

(This column, based on Texas law, is written to inform—not to advise. No person should ever apply or interpret any law without the aid of an attorney who knows the facts because the facts may change the applications of the law.)

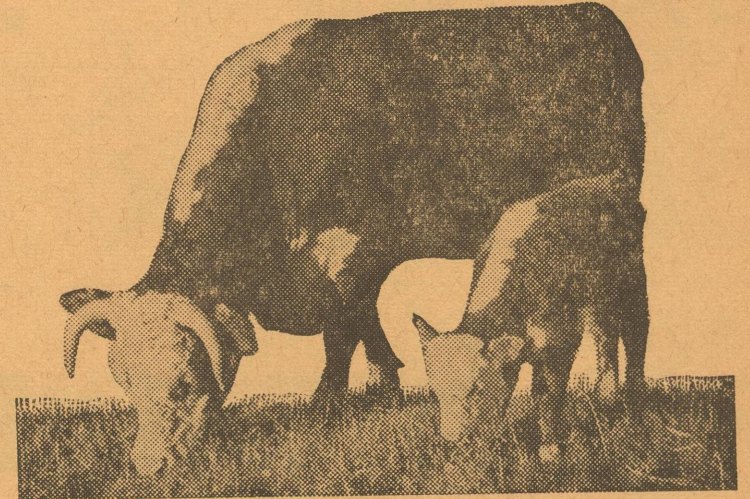

J. D. Ashmore entered the hospital in Sonora Wednesday afternoon for minor surgery and will be a patient there several days.

Mrs. Gene Horton returned Tuesday to her home at Ft. Worth after a two weeks' visit with her daughter Mrs. Joe Ed Hill and her family.

Mr. and Mrs. Harold Grelle and daughter returned Sunday to their home in Snyder after a holiday visit with Mr. and Mrs. W. O. Faull.

Mr. and Mrs. J. B. Swain and family have vacated their residence in the west part of town and have rented the T. E. Donaldson house in the northeast section of Eldorado.

Mr. and Mrs. Ray Jones came in for the holidays from their Oak Hill Ranch at Drumright, and opened their house for the Christmas season. Local relatives had Christmas dinner with them.

calves on the ground are like MONEY IN THE BANK

It costs a lot of money to keep a cow. A lot of that money is lost if she fails to settle or drops small, weak calves that die or develop into "tail-enders."

BIG CROPS of husky calves are a must, if a fellow is going to make money ranching. This is especially true when the price of cattle is off.

Your range needs help. It takes more than grass alone to give your cows what they need to grow and drop the kind of calves that will bring top prices next fall.

PURINA RANGE CHECKERS have proved their worth in research tests and on thousands of ranches. This favorite range supplement has what it takes. Cattle love Checkers, do well on them. Cows stay up in good shape at calving time, have lots of milk for the calves, too.

Feed for big calf crops the Purina Way. Purina Range Checkers can help you keep your operation on the profit side of the ledger.

COME IN. We'll visit about Purina Range Checkers and profitable ranch management. Make it soon!
