SCHLEICHER COUNTY'S ONLY NEWSPAPER — CARRYING HOME NEWS FIRST — OFFERING THE BEST ADVERTISING MEDIUM — Est. 1901, THIS COUNTY'S OLDEST BUSINESS ENTERPRISE

60TH YEAR 5c COPY ELDORADO, — SCHLEICHER COUNTY — TEXAS THURSDAY, JULY 20, 1961 NUMBER 29

## It Is, Too, 50 Million!

This newspaper last week quoted local oil operators as expressing doubt that the TXL-Henderson gas discovery well was actually rated at 53 million cubic feet, but further information since that time confirms the fact that that is the correct figure—making it one of the biggest gas discoveries in the county in many years.

One operator reported that leases had been taken last week on at least 20 sections on the strength of the new discovery, and that the whole western section of the county was "hot."

### THIRD PAY FOUND IN NORTHEAST SCHLEICHER

Fortune Drilling Corp., et al, San Angelo, No. 1-A A. T. Cheaney, in 61-GH&SA, Schleicher County Harkey sand oil and Strawn sand gas prospect, 14 miles northwest of Fort McKavett, has indicated oil production in the Strawn lime with the flowing of oil on a test between 4,743-56 feet.

Gas surfaced in seven minutes and oil in 45 minutes, no gauges. Recovery was 3,850 feet of free oil, 340 feet of oil and mud and 450 feet of salty sulphur water.

Flowing pressure was 340-880 pounds; and 30-minute shut-in pressure, 1,705 pounds.

Drilled to 4,810 feet, operator was preparing to run 4½-inch casing.

Strawn sand gas production earlier was indicated with the flowing of gas at the daily rate of six million cubic feet on a drill-stem test between 4,560-76 feet; and Harkey sand production still earlier, with the recovery of 145 feet of free oil and 30 feet of mud-cut oil on a test between 4,267-78 feet.

Standard Oil Co. of Texas Meckel 4 well no. 5 finished for daily allowable of 210 bbl. oil. Potential on a 16/64 choke for 348 bbl. oil in 24 hours. TP 475, CPO GOR 750-1, total depth 6273 feet.

### News of the Sick

Vernon Hazelwood was taken to the Clinic-Hospital in San Angelo Sunday where he underwent surgery. He is in room 215 and reported to be doing nicely. His son, Lilburn Hazelwood and family came in Sunday from Temple to visit him, and returned home Monday.

Mrs. E. E. Newlin is improving and able to be up.

Mike, son of Mr. and Mrs. W. W. Sudduth, was admitted to the Sonora hospital Monday afternoon.

Mrs. Alma Sauer took her mother, Mrs. Emma Castello, who had been making her home with her this summer, to the Clinic-Hospital Tuesday, after she became ill Monday afternoon.

B. A. Whitten is completing his stay of several months in the Rehabilitation Center at the Gonzales Warm Springs Foundation, and is expected to come home to stay tomorrow, Friday.

Mr. and Mrs. Roy Andrews have returned from the San Angelo hospital and both doing well at home.

Tom Henderson was brought home yesterday from the Sonora hospital.

Lawrence Steen had surgery recently in the Baylor hospital at Dallas, and he and Mrs. Steen are expected home today.

Mrs. C. O. Neff sustained a broken knee-cap when she fell at her home Sunday. She entered the Sonora hospital Monday and had surgery Wednesday morning. She will probably have her knee in a cast for several weeks. Mr. Neff is in charge of the local State Highway Department maintenance office.

### EASTERN STAR PICNIC SET

Members of the Eastern Star will honor their families and Masons and their families with a picnic supper on August 7th. The event will be held at 8:00 p.m. at the court house lawn.

### Four FFA Boys Attend State Convention

The State convention of Future Farmers of America is being held in Dallas this week, July 19-21, at the Statler-Hilton hotel. FFA members from Eldorado attending the convention are H. A. Belk, Leonard Kent, Pete Logan and Danny Burk. They left for Dallas Tuesday and will return Friday night.

Chapter Advisor Oliver Burk accompanied the boys to Dallas.

Members of the Eldorado chapter to receive the Lone Star degree are Leonard Kent and Mikel Jurecek. There will be over 600 Lone Star degrees awarded during the convention.

Other business at the convention will include the election of the state FFA president, state sweetheart, and talent team.

There are about 5,000 Future Farmers from all parts of Texas attending the convention.

### Donations Of Livestock Sought For Boys Ranch

"When It's Roundup Time in Texas" is more than the name of a well-liked range song to everybody connected with Boys Ranch of West Texas near San Angelo. It reminds them of the annual Fall Roundup Sale of donated livestock which was instituted last year and which has already become vitally important to the Ranch's hard-pressed budget.

The whole month of August will be roundup time this year. That's when generous West Texas ranchmen will be asked to donate whatever livestock they can afford—whether it be a good calf or a nearly worthless old ewe—for sale. Donated livestock will be accepted and sold for benefit of Boys Ranch of West Texas, without handling charges, by the auction firm at any regular sale during the month. Proceeds of the sale will be entirely net, thanks not only to generosity of the ranchman who gives the livestock, but to the auction company as well.

Local "Wagon Bosses" will participate in the campaign, contacting prospective donors, explaining the program, and otherwise rendering all possible help to stockmen and auction operators in making the drive effective. These Wagon Bosses will be active west of San Angelo where no auctions exist. Stock from their localities will be sold in San Angelo. The Wagon Boss for the Eldorado area is Gerald B. Hartgraves.

It's an area-wide effort to give West Texas stockmen an opportunity to do whatever they can to help a cause they'll all agree is worthwhile—and to lend a helping hand to some boy they may never meet but whose chance for a better life depends on their generosity.

For further details local ranchmen should contact Mr. Hartgraves.

### Work Shop Set On Bread Making

A series of five work shop days on bread making will start on Tuesday, July 25, at 9:30 a.m. and will be held in the high school homemaking department. In announcing this work, Mrs. Vida Kreklow, County Home Demonstration Agent, is stressing the fact that the classes are for everybody and that non-club members are as welcome as they can be.

Instruction on quick bread mixes and yeast breads of many varieties will be given. Would you like to attend? Then call Mrs. Kreklow at 22592 and let her office make a reservation for you. When you call, other directions will be given which will help you decide on which sessions you may want to attend.

Loaves of plain bread, French bread, Danish coffee kringles, brown-and-serve rolls, pizza and other yeast breads and cakes are to be made or demonstrated. Reserve your place now—you are welcome. The number is 22592.

### PLAN ALASKAN TRIP

Mr. and Mrs. Fred Watson arrived home from Houston Sunday night, accompanied by Mrs. Truett Stanford. They were in Houston where their granddaughter, Sandra Perry, had heart surgery last week. They report that Sandra is continuing her satisfactory recovery.

The Watsons and Mrs. W. T. Whitten are planning to leave July 26th by car for an extended trip which will take them to Alaska. They will go on the Alcan highway and camp out much of the way. The three plan to be gone eight or ten weeks.

## Tigers and Cougars Start Little League Series Tonite

The Little League schedule closed Tuesday night with the Tigers-Red Sox game, and now all that remains is a three-game "world" series starting tonight between the two top-ranking teams.

The undefeated Tigers, of course is the top team, and the Christoval Cougars gained second place standing during the past week. While the Tigers are favored to win, the Cougars have been putting on some scrappy performances and they have probably been saving their best pitchers for this contest. The series is scheduled for tonight, Friday, and Saturday, but if one team wins the first two games there will be no Saturday game.

Over 100 cars of spectators were on hand for Tuesday night's game, and the crowd is expected to be larger tonight.

Following is a brief review of the last four games:

### Thursday Night

The White Sox put up a good scrap last Thursday night when the crossed bats with the League-leading Tigers, but they just weren't strong (or lucky) enough to

come through in the pinches.

The White Sox were the first to score, and they were leading 5 to 2 at the end of the 3rd. In the 4th the Tigers tied it up, 5 to 5. In the 5th it was 7 to 8 in favor of the Tigers, who also picked up 2 more in the top of the 6th, making it 7 to 10.

In their last time at bat, the first two batters were put out, and then they loaded the bases. Their luck ran out when the last batter fanned. It was a good game.

### Friday Night

Last Friday night the Red Sox had their last chance to beat the Cougars and tie them up for second place, but it turned out to be the Cougars lucky night and they ran away with the game.

The first inning was full of bases on balls by both pitchers and the score was tied 6 to 6 at the end of the first. The Red Sox came to bat in the top of the 2nd and it was 3 up and 3 down. Then the Cougars came to bat and started a batting spree that brought them 8 runs, making the score 14 to 6. By the end of the 4th the score stood 16 to 7. In the 5th the Reds

were shut out, and the Cougars came in for another batting spree and added 7 more scores to their total, making it 23 to 7.

The Reds were shut out quickly in the top of the 6th, and that ended the ball game.

Stanley Stafford, Cougar, hit the only home run of the season, with the bases loaded.

### Monday Night

Monday turned out to be the night for the White Sox when they tackled the Christoval Cougars and defeated them by a score of 16 to 8. The Cougars, after performing so brilliantly last Friday, turned out to be the underdogs on Monday.

The game was real close for the first four innings, with the Cougars 4 to the White Sox 6. But in the top of the 5th the Cougars defense seemed to go to pieces. They walked 7 White Sox batters and allowed them to run in 10 scores (or was it 9?).

After that the Cougars came back and gained 4 more scores, but it was not enough to overcome their opponents' lead.

### Tuesday Night

The Tigers made short work out of the last regular game of the season when they met the Red Sox Tuesday night.

The Reds came up to bat in the top of the first and were retired 3 up and 3 down. And then the Tigers came to bat and immediately started a merry-go-round. They got 13 scores in the first inning and 4 more in the second. The hapless Red Sox got 2 in the second and 4 in the third.

The game closed at the end of the 4th with the Tigers undefeated for the whole season.

### Top Batters

Chris McCravy—W. Sox—813  
Jay Halbert—Tigers—667  
Roy Davidson—W. Sox—636  
Abby Galan—Cougars—571  
Lonnie Gibson—Tigers—538

### Team Standings

| Team      | w  | l | Ave. |
|-----------|----|---|------|
| Tigers    | 11 | 0 | 1000 |
| Cougars   | 5  | 6 | 455  |
| Red Sox   | 3  | 8 | 273  |
| White Sox | 3  | 8 | 273  |

### Farmers Advised To Ask For Gas Tax Refund

College Station—Farmers are reminded by C. H. Bates, extension farm management specialist, of their eligibility for a refund of the 4-cent per gallon Federal gasoline tax on that used for farming purposes. The claim should include all eligible gasoline gallonage purchased between July 1, 1960 and June 30, 1961.

The claim for refund should be filed on Form 2240 and not later than September 30, Bates said.

The gasoline on which a refund may be claimed covers that used for farming purposes and includes most normal production operations. Three exceptions, however, are noted by the specialist. They are gasoline used on the highway, even though for transporting farm products; that used for processing, packaging, freezing or canning operations and that used for non-farming or personal purposes.

Records of fuel purchases should be kept to verify the refund request and care should be exercised to avoid inaccurate or excessive claims, Bates said. He noted that Form 2240 does not apply to diesel and special motor fuels. Farmers who have questions regarding taxes on these fuels are advised to contact an Internal Revenue Service director.

## Formal Opening of New Station Set For Saturday

BENNIE HARKEY

### Mrs. W. E. Baker Dies At 92

Funeral services for Mrs. Mary West (Mollie) Baker, 92, were held yesterday afternoon at 5:00 in the First Christian church, with H. B. Bilbo officiating. Mrs. Baker died at noon Tuesday at her home.

Interment was made in the Eldorado cemetery under direction of Ratliff-Kerbow Funeral Home.

Pall bearers were Gene McCalla, Gene Edmiston, Palmer West, Bernard Carr, Edgar Spencer, and Richard Jones.

Mrs. Baker was a Schleicher county resident since 1906. Her husband was W. E. Baker, who was a stockfarmer in the county's early days and also served for a time as tax assessor. He preceded her in death on July 4, 1935.

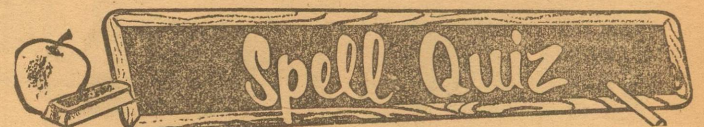

Mrs. Baker was born Mary West Wilson in Grayson county, Texas, on April 25, 1869. She married W. E. Baker in Van Alstyne Oct. 3, 1895. She was a member of the First Christian church.

Her survivors include two sons, Leslie Baker and Thomas Baker, both of Eldorado; one daughter, Miss Ruth Baker of Eldorado; a sister, Mrs. Edith McCrary; four grandchildren and four great-grandchildren.

She was preceded in death by three children, two of whom are buried in Grayson county.

Mr. and Mrs. Alton Dunn and son, Randal, of Jal, New Mexico, are visiting in the home of Mr. and Mrs. Vernon Bailey this week. The two women are sisters.

Mrs. Lynn Alexander has as her guests this week her three grandchildren, Lynda, Sonny and Douglas Willett of Austin. They are the children of Mr. and Mrs. W. L. Willett, her daughter.

Which of the following is spelled correctly?

Economize Economise Economize

(Meaning to avoid waste and extravagance)

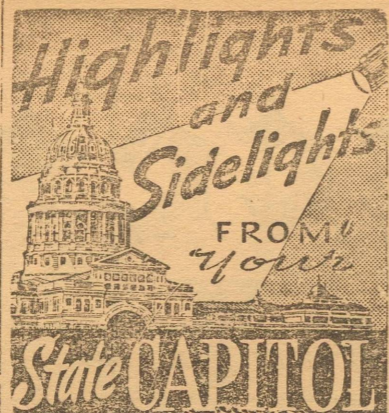

See Want Ad Page for correct answer

Melody Davidson Is Six

Mrs. Bud Davidson honored her daughter, Melody, on her sixth birthday and her son, Charlie, on his fifth birthday with a wiener roast at the roadside park Thursday.

Hot dogs, potato chips, punch, and birthday cake were served. Favors were coloring books and model cars.

Present were Mrs. Glenn Parker and David and Bobby, Mrs. Jimmy Doyle and Jimmy Dan, Mrs. Bob Rutledge and Raymond, Kathy, Jimmy, and Jo Ann; Keith Williams, Jeanie Newport, Mark and Buddy Calk, Marilyn Norman, Janet Davis, Lynn Sanders, and Judy and Roy Davidson.

Austin.—After years of tax argument in Texas, debate now seems to have narrowed down to one question.

It is whether to have a sales tax on specified items or one on all but specified items.

First is known as the Pennsylvania-type sales tax. It is favored by Governor Price Daniel as a means of raising \$303,000,000 of the \$360,000,000 he feels is needed. It would list the items on which a 2% sales tax would be levied. Goal would be to cover all items selling for 50 cents or more except food to be eaten at home, prescription drugs, clothing costing less than \$10, feed, seed, fertilizer, books, farm machinery, livestock and gas and electricity used in manufacturing.

Other approach would be a bill like the Senate passed last session. It does not attempt to list all the items to be axed but applies to everything except the items exempted, including the usual groceries, drugs, farm needs.

Aim of both bills is the same: to raise a lot of money with a lot of retail sales taxes. There is no serious attempt to raise the bulk of the needed money by any means other than retail sales taxes.

To some it might seem a Tweedle Dee-Tweedle Dum choice. But not to Governor Daniel and to many legislators. A sales tax that applies to everything except exempt items is, in the governor's eyes, a "general sales tax" against which he is dead set.

Objectors to the Pennsylvania tax contend it would be one long pain in the neck, both for state tax collectors & retail merchants, to keep up with what is in the long, long list and what isn't. Too, they point out that new products are constantly coming on the market and would be tax-free.

Atty. Gen. Will Wilson appeared at the hearings as one of the critics of the Daniel (Pennsylvania)

plan.

In The Mill

Legislature is moving swiftly in its short session, trying to avoid re-plowing the same ground covered on tax bills last session.

Among revenue raising measures under consideration are these:

Governor's Package Bill, by Rep. Charles Ballman of Borger. This would include the Pennsylvania-type 2% sales tax, a provision for a minimum levy of 1 cent per 1,000 cubic feet on gas, a two-factor franchise tax on interstate corporations, a 50% increase in drivers' license fees, a transfer of that portion of gasoline taxes allocated for schools at the end of August each year and a leveling of the tax on coin-operated machines at \$10 each per year.

Hinson Package Bill, by Rep. George Hinson of Mineola, frequent sponsor of measures favored by the governor. Hinson's bill would include a sales tax on purchases of \$5 or more, a corporate income tax, real estate transfer tax, a severance beneficiary tax on natural gas, a utilities tax and a 1% transfer from the permanent school fund. Estimated yield: \$368,000,000.

Gas Tax Bill, by Rep. Bob Eckhardt of Houston. Bill is designed to insure that the state would collect a minimum tax of 1 cent on each 1,000 cubic feet of Texas gas. If the present 7% gas production tax did not supply it, the purchaser would have to pay the difference. Estimated yield: \$30,000,000. It is included in the Ballman bill.

Selective Excise Tax, by Rep. Ben Atwell of Dallas. It is similar to the Pennsylvania tax, also, and would yield an estimated \$355,000,000.

Escheat Bill, by Rep. Charles Hughes of Sherman. This is the well-worn proposal to provide enforcement procedures so that abandoned property, bank accounts, etc., would go to the state.

Battle Of The Polls

Two citizens groups are engaged in a duel plan of poll taking, each trying to demonstrate more public support for its tax plan.

Citizens for a Sales Tax announced that of 11,000 persons replying to its post card poll, 83.6% favored a retail sales tax.

Citizens for Fair Taxation, a group which supports Governor Daniel's tax program, immediately declared that the CST poll was heavily weighted with Chamber of Commerce members and not a true reflection of public sentiment.

Citizens for Fair Taxation is at work on a poll of its own.

Spending Bills Pushed

A general appropriations bill and a bill to raise teachers' salaries are moving through both houses with little re-hashing. Senate quickly approved a two-year appropriations bill calling for spending of \$2,469,000. It is essentially the same as the Senate appropriations bill in the regular session.

Both Senate and House education committees approved bills that would give public school teachers an across-the-board raise of \$810 a year. House passed the teachers' bill on the floor, 141 to 1.

Senate committee also approved education bills providing for educational films, driver education, assistant principals for larger schools, and five days sick leave a year for teachers.

Money Needs Upped

State Comptroller Robert S. Calvert had a new revenue forecast for legislators at the beginning of the session that showed an expected revenue from existing sources at \$24,000,000 less than the January forecast.

Part of the difference between the old and new forecasts was due to some \$6,000,000 in additional school and welfare payments authorized during the regular session. Most of the rest of the drop was attributed to a decline in revenue from auto sales taxes and franchise taxes.

Calvert also estimated that the general fund deficit at the end of the fiscal year Aug. 31 will be \$64,000,000. This is \$1,000,000 more than his January prediction.

Lobby Regulations Offered

At Governor Daniel's suggestion, a bill to impose further lobby controls has been introduced.

Daniel has consistently blamed "lobby interference" for the regular session to agree on a tax plan.

Five House members are co-sponsors of a bill that would require that all contributions of \$50 or more to be used to influence legislation be reported. It would also prohibit lobbyists from being on the floor of House or Senate during sessions or calling members off the floor during debate.

Sen. A. R. Schwartz of Galveston has said he will sponsor a companion measure in the Senate.

Insurance Inquiry Set

House has authorized a special five-member committee to look into the reasonableness of a 15% raise in auto insurance rates recently ordered by the State Board of Insurance.

Rep. Will Smith of Beaumont sponsored the resolution to set up the investigation.

Resolution expressed concern that the higher rate might cause

1,200 ROOFS DAMAGED IN BRADY HAIL

Brady's brief but violent hail-storm of June 8 caused some \$168,000 damages to about 1,200 roofs.

This estimate was made by W. R. Strobel, branch manager of the General Adjustment Bureau, Inc., in Brownwood, who has headed a six-man team in the Chamber of Commerce office since the storm working with insurance companies.

The average loss to each person was about \$190, but most of the policies were \$50 deductible which averaged the insurance payments at \$140 each, Strobel said.—Brady Herald.

GOOD REPORT FROM MEXICO

Texans returning home through the McAllen port-of-entry to Mexico tell McAllen travel directors they were met with cordial, friendly welcome in the favored tourist centers such as Mexico City, Monterrey, Acapulco, Reynosa and others.

The American tourists report that a few earlier pro-Castro disturbances in a few cities in Mexico have apparently ceased, so far as the usual resort and tourist centers visited, are concerned. Natural hospitality of the Mexican people, value of the tourist dollar and a government edict against demonstrations, seem to be fast reviving travel on the new, shortcut highway from McAllen to Mexico City, officials say.

Mr. and Mrs. Jack Etherege left on vacation Sunday. They will go to Denton and will be accompanied on their trip by Mr. and Mrs. F. J. Miller. They will be vacationing at Lake Ouachita in Arkansas.

Teacher Training Hit

Member of the Commission on Higher Education looked over a 140-page report on teacher education courses being offered in state colleges and decided that there was too much folderol.

A number of legislators also have been critical in recent months both of the content and the amount of time spent on teaching method courses. State Board of Education has recently reduced the number of method courses required for teacher certification.

Commission on Higher Educa-

tion members expressed hope that the college administrators could and would do for themselves the necessary pruning in education course offerings.

Mrs. Lewis Whitten was hostess to her Night Bridge club on Monday night. There were three tables of players. Guests were Mrs. W. L. Kinser, Mrs. L. D. Mund and Mrs. R. L. Ballew. Coffee and cake were served. High score was won by Mrs. Mund, low by Mrs. Jim Martin and bingo by Mrs. Clay Porter.

Mr. and Mrs. Billy Sam Hale of Lubbock visited his parents, Mr. and Mrs. W. H. Hale, over the week end.

SCHOLARSHIP FOR NIXON

College Station.—89 high school graduates have been named winners of four-year Opportunity Award Scholarships at Texas A&M college, it was announced recently by Dr. G. M. Watkins, director of agricultural instruction at the college. Dr. Watkins is chairman of the faculty committee on scholarships.

An additional 17 students have been listed to receive other scholarships, including Farris Glen Nixon of Eldorado.

Mr. and Mrs. E. T. Davis visited in London over the week end. They returned home early Monday morning.

### New Commanding Officer For Troop B

New commanding officer of Troop "B", Captain Merton M. Skaggs, 4th Reconnaissance Squadron, 15th Cavalry, Junction, Texas, is a member of Junction High school social science and science departments. Captain Skaggs succeeds Major M. J. Netherly who was recently promoted to major moving up automatically from the Junction command by United States Army Reserve Tables of Organization.

The change is of direct interest to the First and Second Platoons of Captain Skaggs' command as members of these platoons are composed of Army Reservists from Eldorado and Sonora.

Saturday night, July 15, Captain Skaggs along with Army Reservists from Junction, Eldorado, and Sonora honored their former commanding officer, Major Netherly, with a barbecue and swimming party at O. C. Fisher Lodge about 20 miles northeast of Junction.

### ★ The Military ★

San Diego (fhtnc)—Hard-hitting, fast moving, and far ranging, the attack aircraft carrier is the Navy's chief weapon for controlling the seas.

Serving aboard the USS Lexington, an attack aircraft carrier operating out of San Diego, Calif., is Pete L. Fay, aviation machinist's mate airman, USN, son of Mr. and Mrs. D. Fay of Eldorado, Texas.

Forming the heart of the Navy's striking forces, the carrier's aircraft range far, ready to engage an enemy's sea, air, and ground forces. Carriers are on station around the world maintaining vital sea lanes and watching for possible aggressive moves.

The Lexington, a unit of the powerful Pacific First Fleet, operates along the western coast of the U. S.

Mr. and Mrs. Vernon Bailey spent the week end visiting in Abilene.

### FORMER SCHOOL BOY HERE STRUCK BY CAR AT BRADY

The July 11 issue of the Brady Herald had an account of Ernest Dean Massey, 15, being injured when struck by a car while riding on a motor scooter.

Ernest is the son of Mr. and Mrs. E. E. Massey who moved to Brady a few months ago from Eldorado. Young Massey attended school here and was in the local FFA chapter.

The Brady newspaper account described the mishap which happened Sunday, July 9. Massey was riding on the rear of a motor scooter with John Roy Hunter, 16, when they were struck by a car which did not stop.

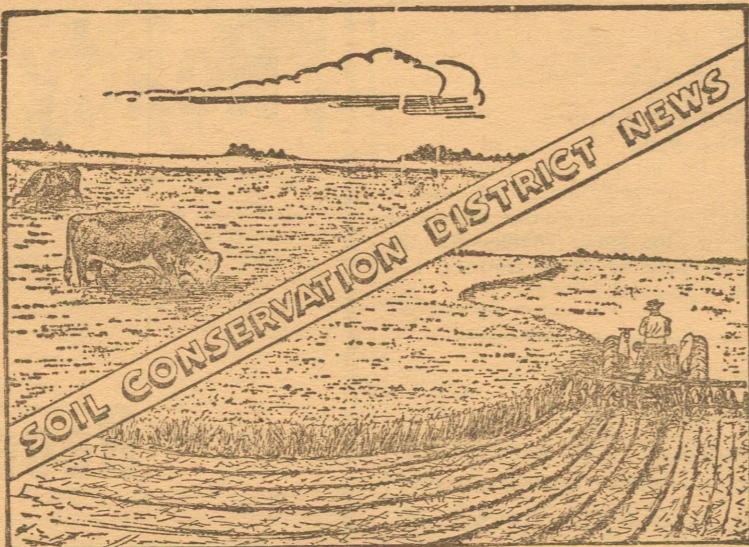

The account continued: "Ernest Dean either fell or was knocked off into the street against the curb in front of the Methodist church parsonage.

"John Roy kept the scooter upright for about 60 feet before it skidded and turned on its side.

"A Wilkerson ambulance took Ernest Dean to Brady Hospital. He was scratched and bruised but not believed seriously injured. He was expected to be released from the hospital in a day or two."

Brady police were trying to get a lead on the car and its driver.

Paula Jo Mace has gone to Chickasha, Oklahoma, to spend two weeks with her brother-in-law and sister, Mr. and Mrs. Albert L. Stanford, and family.

For farmers of the Eldorado-Divide SCD this is one of the busiest periods in producing a crop. Cultivating, hoeing, and insect control are three of the important farming practices that farmers will be confronted with until crops are made. All farming practices along with the soil and water conservation practices applied and maintained, are used to accomplish one ultimate goal of making money.

How to make more money is something a big percent if not all people are interested in. Since farmers do not control the price received for their farm products, only two things remain that they can do to make more money, produce more per acre or reduce the cost of production.

Farming practices that are used by most farmers are used because the farmers feel they benefit crop production. What farming practice then, if any, can be eliminated to decrease the production cost? For the practices used at this time of year, hoeing for grass and weed control would undoubtedly be one practice considered by all good farmers as essential in good crop production. The control of insects is another practice considered by most everyone as essential.

Cultivation to control weeds and to aerate the soil, has high priority with most farmers in good crop production. However, the number of cultivations have been decreased by some farmers. In the past crops were cultivated each week, regardless of the need of weed control or aeration of soil. What cultivation does to soil moisture was not considered. With each cultivation moist soil is turned up and is dried by the wind and sun. In seasons of short moisture supply, cultivation should be only to control weeds, as the dry top layer of soil acts as an insulator against moisture loss.

The application and maintenance of the needed oil, water and not be placed second to any needed farming practice. Without the needed soil, water and plant conservation practices to maintain or increase the productivity of the soil, the maximum returns can not be attained from the needed good farming practices.

More profit comes in two ways: making more or spending less. Unless each farming practice used helps make bigger yields, you can't afford it. Neither can you afford not to apply and maintain conservation practices that conserve soil and water whereby good yields can be attained.

# Why It Pays To Have Soft Water In Your Home

Economically, hard water is no bargain. Fabrics washed in hard water wear out faster. You use more soap (and more water) to wash clothes, dishes, and take baths. When hard water is heated, the hardness builds up inside pipes and other household equipment. Hard water can cost you money in repair and replacement of water-using appliances.

On the other hand, using SOFT water saves you time, work, and money.

- Makes washing easier, keeps fabrics softer, better looking far longer. You use less soap.
- Keeps pipes clean, cuts costly plumbing and fuel bills.
- Prevents deposit of dull film on dishes, glassware, and in your tub and wash bowls.
- Actually cooks vegetables more tender and preserves their flavor.
- Makes shaving and bathing easier; won't cause skin rash. Soft water shampoo leaves hair lustrous.
- Cuts grease faster and better.
- Lifetime Fiberglass tanks.

**In Those Days**  
Compiled From Success Files  
**ONE YEAR AGO**  
July 21, 1960—Dedication services were set for Sunday at the newly completed First Christian church.  
Robert Milligan's funeral was held.  
Carroll Scott and Sherwood Barker were elected to the school faculty for the ensuing school year.  
The Russell Heaner family were involved in a car accident while on a trip through Oklahoma.  
Mrs. John McGee, the former Suzanne Evas, was honored with a gift tea in the Sam Oglesby home.  
**FIVE YEARS AGO**  
July 19, 1956—Coming up Saturday was open house at Bennie Harley's newly remodeled service station.  
Charlene Atkinson was receiving her degree from Sul Ross at Alpine.  
Whit Smith was preparing to move to California.  
Edgar E. Bird of Patagonia, Arizona, visited here for the first time in nearly 50 years. He attended the Mias Amigas meeting.  
Ethel Etheredge was crowned Queen of the homecoming, by Ed Meador. The parade float entered by the EHHS Class of '56 won first place.  
The Hollis McCormick and Dick Preston families left on trips to California.  
Juanice Williams and Charles Orr were married.  
Mr. and Mrs. Joe Andrews returned from a trip to Canada.  
The Democratic Primary was coming up with local interest centered mainly in the Sheriff's race, in which Orval Edmiston was running against incumbent E. H. Sweatt.

**12 YEARS AGO**  
July 21, 1949—Bob McWhorter and W. F. Edmiston returned from the firemen's short course at A&M. The west highway route was approved.  
Ralph Guage of Ft. Worth was to preach at a Church of Christ revival getting under way.  
Katherine Davis was spending the summer here after receiving her degree at North Texas State.  
Iola Sutton became the bride of Ted Kirby, in a ceremony in the Church of Christ at which Marshall Davis officiated.  
Bunch King Brittain was home for the summer from the U. and was visiting his mother, Mrs. Georgia Brittain, on the John I. King ranch.  
Paul Page went to Baltimore, Md., to start training with the Baltimore Colts.

**35 YEARS AGO**  
July 23, 1926—Funeral services were held for Mrs. T. G. Chaney, 56. Mrs. Madie Potter died in San Angelo.  
Ethel Tisdale, youngest daughter of Mr. and Mrs. Joe Tisdale, had both legs broken when run over by an auto 18 miles from El Paso.  
During July you can buy kerosene oil at 75c for 5 gallons at Eldorado Hardware Co.  
Rev. W. P. Ray announces that the Bailey Ranch meeting will begin the third Sunday in August and that Rev. J. A. Loftin of Howard Payne college will preach.  
Saturday evening Melie Poiner and Miss Fay Jones were married by Rev. J. C. Young. The bride is the daughter of Mr. and Mrs. A. L. Jones. The groom, known as "Shorty," is employed at the Eldorado Gin Co.  
Born, Tuesday, a son to Mr. and Mrs. W. O. Alexander.  
R. P. Hinyard and family are visiting in San Saba and Austin.  
Miss Ruth DeLong, who visited Yellowstone Park, has returned home and reports a fine trip.  
Miss Rosemary Young of Dallas, niece of Mrs. E. C. Haynes, was married June 29 to Mr. Bartlett Sidney Stroud. The bride recently visited here.  
G. H. King of Gonzales, who was here buying mules, was found dead in his room in the Eldo hotel Thursday morning, having died of natural causes. The body was shipped to Gonzales.

**Home Demonstration Agent's Column**  
By MRS. VIDA KREKLOW

If you were on a party line or had a little home made listening device, it would make interesting listening to hear what people are asking by telephone these days. The answers are not as definite as the questions sometimes, but a day's run will produce these typical queries.

1. What will take the mildew out of the shirts I forgot to iron? Soak in buttermilk.
2. Do you happen to know anyone who has or will have black-eyed peas to sell? I didn't, do you?
3. What chemical could be causing an unpleasant odor which is believed to be coming from the living room carpet? I don't know.
4. Is it necessary to blanch (dip in hot water for two to three minutes) vegetables before freezing? Yes.
5. How do you freeze a whole ham. I would cut it in small pieces and then freeze it.
6. Do I have a recipe for sour pickles? I did, but it's too long to put here. I'll send you one, though, if you want it. In fact, I'll send you any kind of bulletin we have and we have some good ones.
7. How does one make fig preserves? Do you need a recipe—if so call 22592 and I'll mail one.

Now—back to the washing. We started this weeks ago. Could I do a little clearing up on terms which are being used frequently and freely today, but which still can mix one up?

Anti-static agent. This is a laundry aid which you can add to the final rinse to prevent build up of static electricity which causes crackling and clinging in some fabrics.

Fabric softeners. When you add this product to your water, it gives softness or fluffiness to all washable fabrics. It will reduce

wrinkling and make ironing easier. Often used on infants' garments.

Brightener. A product which clings to fabrics like a dye to produce greater whiteness or brightness. Brighteners are included in most washing products, but are also available separately.

Rinse conditioner. To be used in your first rinse to prevent minerals in hard water from forming a curd. It will also redissolve detergent residue from previous washes.

Water softener. There are two types: One "locks up" minerals in hard water to prevent them from forming curd or film. The other combines with the minerals in hard water and forms insoluble articles that settle to the bottom.

I saw a sign not long ago which read—"When everything else fails, read the directions." In the case of laundry aids don't fail first and then read the directions; do it the other way around. Directions were meant to direct, let them do just that.

\*\*\*

**Things To Remember**

A vacation can be a state of mind as well as a long trip.

It's one half cup kerosene and one half cup vinegar to one gallon water to clean windows and mirrors.

The good old days: when August was one solid whrrrrrr of sewing machines making "school clothes."

That the Extension offices—county agent and home demonstration agent, are at the service of all the people in the county and not just club members or other described groups.

Good for somebody, I don't know who, but I read that table lamps are getting shorter. It's time, they had gotten completely out of hand, and I could say, reach.

You have been invited to a series of work shops on making bread next week. Look through this paper for the announcement and call me at 22592 for a place in the classes.

That Goethe said: "Words are good, but they are not the best."

**James Williams Car Market**

The best is not to be explained by words; the spirit in which we act is the great matter."

Home Demonstration agents are just like every other home maker; they like to trade recipes and at a recent meeting of over 20 agents we got around to quite a bit of that. One morning after a work session seeing everybody as busily writing on calendars, paper and clip boards, I couldn't imagine what important set of directions I had missed. They were not working on assignments but were simply copying the recipe for this chocolate cake. The agent from Sweetwater declares it's gorgeous.

**Candy-Bar Cake**

- 2 sticks butter or oleo
  - 2 cups sugar
  - 4 eggs
  - 8 5-cent size chocolate bars
  - ¼ teaspoon soda
  - 1 cup butter milk
  - 2½ cups sifted flour
  - 2 teaspoons vanilla
  - 1/8 teaspoon salt
  - 1 cup chopped pecans.
- Cream butter and sugar. Add eggs one at a time, beating well after each addition. Melt the chocolate bars in the top of a double boiler (or over hot water). Add chocolate to egg mixture. Add soda to buttermilk, then fold flour and buttermilk in alternately to the first mixture. Stir in vanilla, salt and nuts. Pour into a 10-inch stem pan lined in the bottom with wax paper. Place in moderately slow oven (325 F.) for 90 minutes. Remove from pan and cool.

By Dayton Kelley  
Mary Hardin-Baylor College  
Belton, Texas

A dream of long standing will become a reality when a \$100,000 monument is erected at Vicksburg, Mississippi where a handful of Texans in 1863 sealed a breach in the lines surrounding that besieged city and perhaps delayed its capture by a little known Union General named U. S. Grant.

The monument, due to be constructed soon, is a part of Texas observance of the Civil War Centennial and is the fulfillment of over a half century of planning and working toward the erection of a suitable memorial to all Texans who fought at Vicksburg during the Civil War.

Through the courtesy of George W. Hill, director, and Walter E. Long, chairman, of the Texas Civil War Centennial Commission, we were recently permitted to preview plans for the monument which will be dedicated late this year or early next year.

Designed by an Austin architectural firm, the monument is to be built of Texas red granite and will be an imposing 17 feet in height and 30 feet across. A Texas star will hold a prominent place in the center of a pavilion which serves as the base for a statue depicting the sealing of the dangerous breach by Texans in Waul's Legion.

Texas is one of the few remaining states of the Confederacy which has never erected a monument on the Vicksburg battlefield, but efforts to raise a suitable memorial go all the way back to the turn of the century. It was then that Texas veterans of the siege of Vicksburg began making plans and even chose the site for the proposed monument.

The site has long been known as the Texas Circle and overlooks the place where troops from Iowa opened the breach in the Confederate lines only to be repulsed by 35 Texans and three men from the 30th Alabama. Oddly enough, the monument to these same Iowa troops is in plain sight from where the Texas monument will stand.

Each of the three granite panels forming the background of the monument will be suitably inscribed with information about Texans who participated in the siege. The right panel will be inscribed with a list of all Texas units present during the siege. The left panel will bear an inscription reading: "The sealing of the breach. At this location the lines of the Confederacy were broken and Texans were called in to seal the breach. They not only accomplished their mission but captured a number of the enemy and seized their standard."

The center panel will be inscribed with a dedication to all troops from the Lone Star State who participated in the siege. The inscription will read: "Texas remembers her sons who served at Vicksburg and in other theatres of the war between the states. Though their guns have long been stilled and the breach has been healed, difference of opinion continues to be a vital force in American Democracy."

Ten other states already have erected monuments on the Vicksburg battlefield, including the Confederate states of Alabama, Arkansas, Louisiana and Mississippi. Northern states which have erected monuments are Rhode Island, Pennsylvania, Wisconsin, Iowa and Illinois. The border state of Missouri also has a monument to her men who participated in the siege.

The Texas monument will pay a part of the state's debt to her men who fought for the Confederacy. But this is only one of the places where the Lone Star State needs a memorial. We are told that there is no memorial at Gettysburg marking the presence of Texas troops in that crucial battle.

**LIONS MEET YESTERDAY**

Buster Hale presided at his first meeting of the Lions club, yesterday at noon in the Memorial Building. His year as president is now under way.

Joe Kreklow rendered some piano selections as part of the program.

"Operation Abolition," the documentary film which depicts the Communist-inspired demonstrations against the House Un-American Activities subcommittee in May of 1960, was shown by Paul Jeffers and Pat Hall of San Angelo.

Mr. and Mrs. Frank G. Kemble and Karon spent the week end visiting in Dallas with his parents, Mr. and Mrs. F. G. Kemble.

There were three tables of players when Mrs. E. H. Sweatt was hostess to her Night Bridge Club on Monday evening, July 10. A salad plate was served to nine members and three guests. High club prize was won by Mrs. John Murr, high guest by Mrs. W. L. Kinser. Mrs. Earl Yates won low and bingo prize was won by Mrs. Lewis Whitten.

Mrs. Pat Enochs was hostess to her Thursday night bridge club on July 13, with three tables of players. Ice cream, cookies and coffee were served to members and two guests. Mrs. Pete McDaniel of Monahans and Mrs. Jack Montgomery. Mrs. W. L. Kinser won high, Mrs. McDaniel second high and Mrs. Oliver Teele won bingo.

Mrs. Richard Cheatham was hostess to the Nixon class of the First Baptist Sunday School this last Wednesday. Fourteen members and one guest, Mrs. D. C. DuBose, were present. Mrs. George Cales was presented with a going away gift.

Mrs. Bert Page has her two grandchildren, Jeanne and Debra Keffett, of San Antonio, visiting with her this week.

Mr. and Mrs. Lewis LeBaron have moved from the E. S. Matlocks house to one of the houses that J. L. Ratliff recently completed.

Mr. and Mrs. Bert Page are planning to spend the week end visiting in San Antonio.

Guests in the home of Mrs. Alma Sauer Sunday were Mr. and Mrs. Clyde Baker and Cynthia of Fort Worth.

The Earl Yates family visited recently with Mr. and Mrs. Otho Morris at DeLeon.

Mrs. E. H. Sweatt, Jr., and son Tirk of Rankin visited here recently. Tanya Yates returned to Rankin with them for a visit.

## COUNTY AGENT'S COLUMN

by Tiny Godwin

Schleicher County Agricultural Agent

Producers are reminded of their eligibility for a refund of the 4-cent per gallon Federal gasoline tax on that used for farming purposes. The claim should include all eligible gasoline gallonage purchased between July 1, 1950 and June 30, 1961.

The claim for refund should be filed on Form 2240 and not later than September 30, 1961.

The gasoline on which a refund may be claimed covers that used for farming or ranching purposes and includes most normal production operations.

Records of fuel purchases should be kept to verify the refund request and care should be exercised to avoid inaccurate or excessive claims.

If you have turned in a claim before this year, Form 2240 will come direct from the Internal Revenue Service director, otherwise a copy may be secured from the county agent's office.

The coyote killing lambs and kid goats on the Sam Oglesby and neighboring ranches met quick fate at the hands of Carl Baker, trapper for the Rodent Control Service. Mr. Baker reported at the Oglesby ranch on Monday afternoon, studied the terrain and signs Monday morning, set traps and cyanide guns (coyote getter) Monday afternoon. The coyote was subdued during the night by a cyanide gun, being found dead approximately 200 yards from the scene, Tuesday morning.

There is no way of knowing the total damage in dollars done by this one coyote, but for Mr. Oglesby, it was hundreds.

No one can make a fool of you without considerable co-operation from you.

Passage of new Social Security legislation by Congress marked another important advance in the long fight to secure better living conditions for our senior citizens. Beginning September 1, this year, the minimum monthly payment under Social will be raised from the present \$33 minimum to \$40 minimum per month. This will mean an additional 29.9 million in Social Security payments to 195,000 Texans over the next year.

Between 30,000-35,000 elderly Texans who now receive small old age assistance and Social Security checks will be included among those who receive increases by law.

Another part of the Social Security bill provides that men 62 years of age may retire on reduced Social Security payments, if they choose, instead of waiting at 65 for full payment.

In addition for every \$3 put up by the state of Texas, the Federal government will put up \$9 to help see that old people get medicine and medical and nursing care.

If funds are appropriated by the state, there will be some \$32 million a year available to help pay

### Ozona Concerned About Water Supply

A move toward assembling scientific information on the underground fresh water supply under Crockett county with a view to protecting such supplies against contamination and pollution from various sources and from exhaustion through industrial or agricultural uses was made Tuesday morning at a meeting in the county courthouse.

Present for the conference were members of the Commissioners Court, interested citizens and three technicians from the State Board of Water Engineers at Austin.

Underground water supplies in this area, particularly that which supplies the town of Ozona, are under threat from three different angles, Mr. Schueber pointed out in opening the discussion, contamination by salt water from oil well operations, excessive use of fresh water in water flood oil recovery operations and spreading use of Ozona's probable supply for irrigation in Schleicher county.

The threat of salt water pollution has been partly minimized by elimination of salt water pits in oil producing areas in northern Crockett county, Schueber said.—Ozona Stockman.

Mrs. Richard Bruton and son Gary, 5, had daughter, Joann, 8 months, arrived by plane from New York last Thursday for a visit in the C. O. Bruton home. Richard and the two older children, Sharon and Jimmy, joined them here this week after driving through.

Mr. and Mrs. H. D. Bradley of Brady were week end guests of Mr. and Mrs. Frank Bradley and Mrs. F. M. Bradley.

for medicine, nursing and doctor bills. This will be about \$12 per month for each 221,000 Texans receiving old age assistance. The money will be paid directly to nursing homes, the druggist, or the doctor.

Idleness travels so slowly that it doesn't take very long for poverty to overtake it.

Grain should be stored only in bins that have been cleaned thoroughly. Old grain, trash, feed sacks and other debris that furnish living quarters for insects should be removed.

After the bin has been thoroughly cleaned, spray the inside surfaces of the following formulations at the rate of 2 gallons per 1,000 square feet of surface area:

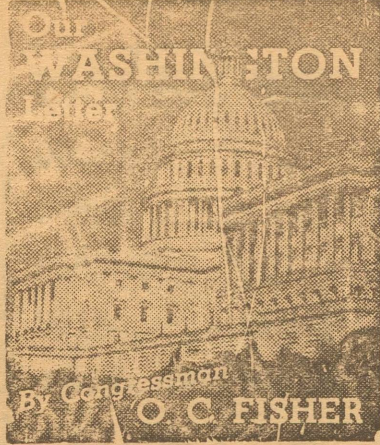

Malathion, 2½% or Methoxychlor 2½%

½ gallon of 25% emulsifiable concentrate in 5 gallons of water, or 2 pounds of wettable powder in 5 gallons of water for a 2½% or Methoxychlor.

1.6 pints of 50% Malathion concentrate in 5 gallons of water will give a 2½% mixture.

Store grain with a moisture content of 12% or less. Grain with a high percentage of moisture attracts insects, promotes mold growth and may induce heating. Avoid filling the bins too full.

Women were made before mirrors, and have stayed there ever since.

With but a few more weeks to go, the one recent development of special nationwide interest in Congress relates to Federal Aid to Education. Right now observers and some congressional leaders are saying there will be no school aid enacted at this session. At least it looks that way right now.

In all likelihood aid for impacted areas will be extended in a separate bill before Congress adjourns. Under that program some money is sent to communities where federal projects have caused an extraordinary burden to be imposed on local schools.

The right of cattlemen to do cattle brand inspection work on posted markets, recently ordered revoked by USDA, may be reinstated, at least on a limited basis, according to information given me by the Department officials. The order is to be effective on Sept. 1. The cattle raisers have asked that

Dwight McDonald of Carlsbad, N. M., is visiting his grandparents, Mr. and Mrs. Marvin McDonald, and his father, Gordon McDonald in San Angelo.

A guest in the Glen Matthews home is her grandmother, Mrs. F. M. Johnston of Broken Arrow, Oklahoma.

the order be rescinded. The Department contends there are some marker areas where there is practically no branding carried on, and under federal law 8c per head is deducted for each head of cattle sold. This goes into an inspection fund. And the cattle raisers also contribute.

It is believed a plan can be worked out to apply the law on a limited basis, but make it fully effective in all markets where very many branded animals are sold. The inspection program has been valuable in the fight against cattle thieves, and should be continued.

#### Jury Duty

Jury duty is an experience everybody ought to have.

In a criminal case 12 jurors have a duty to do justice as each one sees it, and yet be unanimous. In most trials both sides have much to say, and the evidence is conflicting. The 12 jurors vary in their ability, temperament, character, education, and their experience in the world, and in the question at stake.

Yet a jury made up of both sexes, with wide age and educational differences, jobs and origins must all come up with the same verdict. Upon their verdict much depends—the life or liberty of others, and the public good. So it may take them days of talking among themselves, all to agree.

Jury duty calls for insight, common sense, courage, tact, fair-

mindedness, patience (especially toward the jurors who disagree with you), good humor, tolerance, balance, willingness to hear others out and change one's mind, readiness to go over and over the facts to find something to bring agreement. In short, jury duty demands a "decent respect to the opinions" of others.

More and more women share civic duties, especially as jurors. Time was in Texas when women could not serve on juries. They still cannot in four states.

A jury finds facts. It hears and weighs evidence and then comes

to a verdict. It does not make the law—the legislature does; and the judge "charges" or instructs the jury concerning the law applicable to the particular case it is considering.

The judge will tell you not to find the accused guilty until he is proved so under strict rules of evidence. If you have any "reasonable doubt"—not imaginary or far-fetched—acquit the accused.

Civil cases do not demand a moral certainty, merely the "preponderance" of what you regard as reliable and believable evidence.

# GRAND OPENING SATURDAY

## HARKEY'S SERVICE STATION

DEALER IN ENCO PRODUCTS

HIGHWAYS 277 & 33

ELDORADO

You and your family are cordially invited to the grand opening celebration of this fine service station on Saturday. Your neighbors under the Humble sign are eager for you to come in and get acquainted. You'll always find a friendly welcome,

prompt, courteous service, a clean station, spotless rest rooms and top quality gasolines and motor oils. Drive in Saturday and help celebrate the grand opening of this sparkling service station where you'll find "Happy Motoring" every time!

**FREE!** SOUVENIRS FOR ALL THE FAMILY!  
S&H GREEN STAMPS GIVEN WITH EVERY PURCHASE!

### ON CALIFORNIA TRIP

Mr. and Mrs. Buster Gunn and Mrs. Sadie Davidson are on a trip to California. They left Eldorado during the week end and plan to be away several weeks. The Gunns will visit her sister, Mrs. R. R. Roseman, at 2334 Linden Avenue, Long Beach, and Mr. Gunn will remodel the Roseman house. Mrs. Davidson plans to visit other California points. The group will return to Eldorado in August.

### NANCY JO JACKSON VISITS

Miss Nancy Jo Jackson, daughter of the J. T. Jacksons, visited in Eldorado over the past week end from Texas Tech in Lubbock. Accompanying her were Miss Mary Hand of Lubbock and Miss Ella Lester of Houston. The girls returned to Lubbock Sunday to enroll in the second session of summer school.

Mrs. Minnie Coker of Kerrville visited her sister, Mrs. Claude Doyle, this week. Another sister from Odessa, Mrs. Rex Welty and her family, also visited here.

#### All Out and Nothing In?

Thank goodness, the days of the boomtowns are no longer. Wink, the little city right here in West Texas, has been feeling the ill-effects of the "boom" days for many a year, and now has applied for and received a controversial huge Federal grant to remedy the situation.

Wink, at its peak, had over 20,000 population with the town built almost overnight with sheet iron and two by fours. Then almost as fast as it came, the boom declined and with it prosperity and pride. Residential areas were abandoned, commercial structures were left to rot as Wink dwindled to a low of 1501 citizens.

The trouble at Wink was that a majority of the people during the boom days and since, went there to make their fortunes. They filled their sacks full and moved off without leaving a dime in improvements and betterment of the city; leaving behind only the derelicts of their businesses as thanks. This has been the case of the majority. Yet, there has been that minority of life-long loyal citizens who have remained. They have been staunch supporters of the town. Behind the scenes of the decaying buildings are modern residential sections, some new business buildings, a huge park, swimming pool, a small hospital, library, and probably more blocks of paved streets and curbing than any other town of its size. The pride of the loyal citizens has brought about these improvements. But trying as they have, they have been unable to rid the town of the derelicts of the fortune hunters.

Have you ever tried to get some landowner here in Van Horn to tear down an old vacant dilapidated building or house that is an eyesore and should have been razed years ago? That has been the problem at Wink.

As the Advocate has indicated before this is an example of a lack of pride and a lack of interest in the improvement and betterment of the community. Just as in Wink, only on a smaller scale without the fortunes of a "boom," too many people are still trying to get the most they can out of our community without having to put much back into it except their own selfish desires.

Van Horn has a lot of needs as far as community facilities are concerned, as do most growing towns. But with a little help and co-operation from everybody most of these needs can be full-filled. Let's hope we don't get in Wink's shape and have to rely on the all-too-available government hand-outs. With more pride in your community you could do a few things that would help the other fellows—your neighbors—too. — Van Horn Advocate.

Mr. and Mrs. Sam McGinnes attended the Doyal family reunion Sunday at Mason.

## How about a Fair Break for Railroads?

we're asking your support for equal treatment by government of all carriers, including the railroads

The Association of American Railroads has drawn up a document called "Magna Carta for Transportation."

We're asking for public support of this common-sense statement on public transportation policy, hoping citizens will recognize that an entire industry that serves them is being deprived of its natural rights—and will want to help.

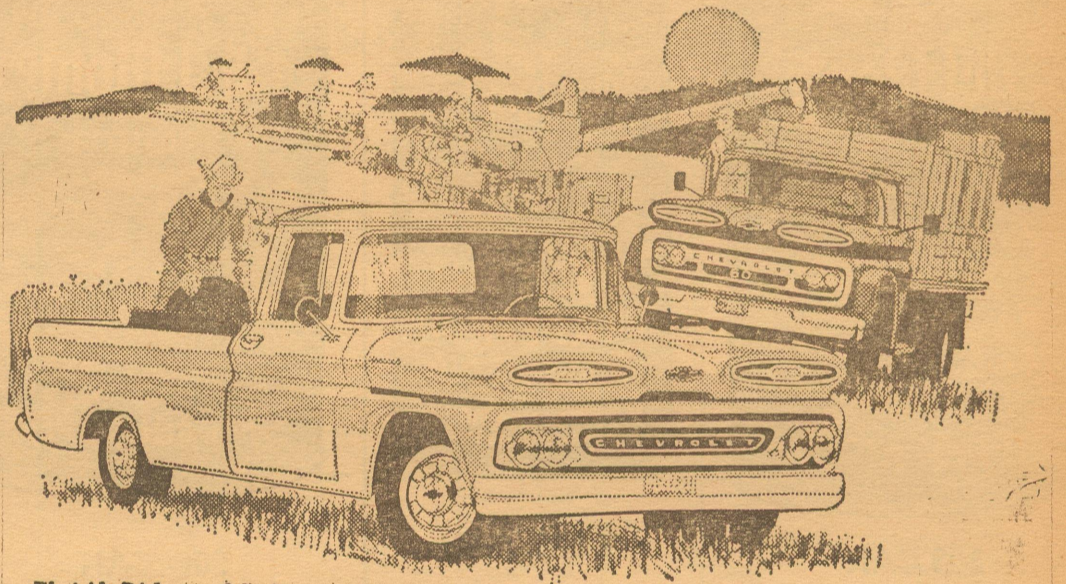

What to do? Ask your congressman to help restore to the railroads these "four freedoms":

- Freedom from discriminatory regulation
- Freedom from discriminatory taxation
- Freedom from subsidized competition
- Freedom to provide a diversified transportation service

SANTA FE SYSTEM LINES

Mr. and Mrs. Fred Logan have returned to Eldorado after being employed in Fort Stockton this summer. Mr. and Mrs. R. J. Alexander, Jr., of Big Spring are visiting friends and relatives in Eldorado this week. Mrs. Lester Nixon had as her guests this week Mrs. Truett Kent George Dumas and three children of Andrews.

## NOW'S THE TIME to save more truck dollars on the more-for-your-dollar trucks!

Your truck dollars are worth a whole lot more at your Chevrolet dealer's right now! First off, you get a head start on saving because summer's the saving season. Then, with a harder working, easier riding Chevy truck, you're set to save every mile you haul. And, finally, at trade-in time, you can expect an extra dividend because of Chevy's traditionally higher resale value. What could be better?

Summer's the season to get extra mileage from your dollars on the trucks built to give you extra miles of hauling. With Independent Front Suspension, Chevrolet trucks keep going thousands of miles longer because far less destructive jar and shake are transmitted through the truck. Chevy I.F.S. trucks work harder, too, in areas where other trucks have to be pampered. And, with Chevy's wide choice of thrifty 6 and hardy V8 power, you can tailor your truck exactly to your job. So how can you miss—especially now during the summer saving season?

## Symbol of Freedom

Back in 1776 in this month of July, the original 13 colonies wrote and signed a Declaration which established them as free and independent states.

In the 185 years since then, the United States of America has grown to 50 states and has become the most powerful Nation on earth.

But of more significance today, in a world filled with turmoil, it stands as a mighty bulwark against tyranny and the threat of oppression.

We of General Telephone join with all freedom-loving Americans in expressing humble pride in our heritage and the principles of liberty for which it stands.
