Breakfast Tuesday To Kick Off Fund Drive For Scout Council

Kick-off of the 1957 finance drive for the Concho Valley Boy Scout council will be held locally next Tuesday morning, October 8th, with a breakfast for fund drive workers in the Memorial Building. The breakfast will start at 6:30 and end at 7:35.

Eldorado will be joining other towns over the 23½ counties of the council, when they launch the drive Tuesday. October 8th has been designated as the opening day for the drive in nearly all localities in the council that have Scouting.

W. H. (Buster) Hale is campaign chairman for Eldorado and Schleicher county. Others helping are Bill Gunstead, publicity chairman; Gus Love, arrangement chairman; Charles Hahn, prospect and rating chairman; and Leslie L. Baker, auditing chairman.

Twelve captains will each have charge of five or more solicitors: E. W. Brooks, Bill Lester, Dick Preston, Gus Love, Edwin Jackson, Ed Meador, Joe Andrews, George Cales, L. V. Newport, A. G. McCormack, W. R. Bearce, and J. H. Mace.

Plans for the kick-off were worked out Monday morning of this week when J. B. Morris, assistant Scout executive from the council office, met with the chairman for a planning session.

It is hoped that the drive will be conducted as quickly as possible, with each worker doing his part. Hale will receive reports from the

captains Tuesday afternoon at the drug store.

Scouting Has 'Onward' Theme

Recognizing the need to train youth in greater numbers than ever before, the Boy Scouts of America through its new program, "Onward for God and My Country" highlights the duties as well as the privileges of patriotism and citizenship and emphasizes loyalty to one's faith and respect for the convictions of others.

Scouting seeks to bring to more boys the thrill of adventure, with good companions under trained volunteer leaders. There's fun and learning at unit meetings, hikes and camping trips and there's satisfaction in taking part in community service projects and the daily Good Turns.

Dr. Arthur A. Schuck, Chief Scout Executive of the Boy Scouts of America, in a message to the Concho Valley Council of the organization, whose headquarters are in the Finlay Building, in San Angelo, said:

"The challenge of the day in which we live demands that past achievement be considered as a prologue to future performance in serving our boys.

"We have," Dr. Schuck continued, "over 111,000 units chartered to make effective the purpose for which we were chartered by the Congress of the United States—to promote the ability of boys to do things for themselves and others, to teach them patriotism, courage, self-reliance, and kindred virtues"

C of C Meeting Is Held; Second Meeting Is Set

Definite plans toward the establishment of a chamber of commerce in Eldorado have been made as result of a meeting of interested businessmen Monday night of this week in the Memorial Building. Tom Caskey and Bev Boyd of the Board of City Development in San Angelo were on hand to discuss financing, functions, and purposes of chambers of commerce.

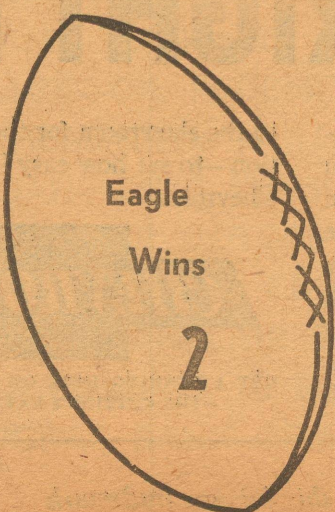

Need of the services of a full-time manager were brought out by Caskey and Boyd. In addition, the financing of most chambers of commerce is done with the dues paid by the members, it was pointed out. A question and answer period was held.

E. H. Topliffe presided over the meeting Monday night and was elected chairman of the steering committee, other members of which are W. R. Bearce, Russell Heaner, Edward Meador, Eldon Calk, Rance McDonald, T. P. Robinson Jr., Jo Ed Hill, Charles Hahn, Curtis Humphries, and Joe Wagley. This committee expects to meet again this week.

Monday night at 7:30, Ralph Duncan, community director from the West Texas Chamber of Commerce office in Abilene will be on

hand at another general meeting of Eldorado businessmen and others, including women and farm and ranch people, who are interested in chamber organization, have been invited. A permanent chairman and slate of directors will be elected.

Tuesday morning Mr. Duncan will meet with the new directors to explain their duties to them.

Mr. and Mrs. P. D. Haley left Wednesday to visit his parents, Mr. and Mrs. J. W. Haley in Cain City, Texas. J. W. Haley has been ill for some time.

In a game that started off cautiously and ended with hundreds of fans on their feet during the last minutes of play, Eldorado defeated the Rankin Red Devils by a score of 7 to 6.

Eldorado won the toss and elected to receive. From the 42-yard line, they started play that bogged down when Nixon fumbled and Rankin recovered. Rankin fumbled and recovered on their own 32. Then they fumbled and recovered twice and received two 5-yard penalties for offside on their march to the Eldorado 1-yard line. Aquilar went over for a touchdown and the score was 6-0. When the Red Devils hit the Eagle line in try for extra point they found it a solid wall and the try was no good.

In the next series of plays, Nixon threw a jump pass to Waldron that was good for 8 yards. Mackey took a hand-off from Nixon good for three yards and a first down. The Eagles plowed down to the Rankin 25-yard line. Mackey kicked on a fourth down and the ball was returned to the Red Devil 40.

It was a see-saw game on to half time with Rankin gathering 9 first downs to Eldorado's 2. Aquilar and James were outstanding players for the Red Devils and the entire eleven Eagles played superbly, to a man. Rankin had nothing in their strategy that could match that Eagle spirit and solid teamwork. The half ended with the ball on the Eldorado 48 yard line.

Perhaps the half time shows by the two bands inspired the Eldorado team or maybe they talked things over with the coaches, but when play was resumed in the 3rd quarter, they out-tackled, out-blocked, out-ran and out-played the Rankin team all over the field.

Their kick to Rankin was fumbled, but recovered by the Red Devils on their own 29. Stanford made the tackle. In two more plays Griffin tackled Aquilar after pushing him back to his own 4 yard line. A fourth down kick by Aquilar

was received by Robledo and returned to the Rankin 23.

On a hand-off from Nixon to Robledo and another from Nixon to Parker there was a fumble and Rankin recovered on their own 23. Stanford stopped Aquilar and a jump pass by the Red Devils was incomplete. After a 4th down kick the ball rested on the 50 yard line.

In the next series of plays, a fumble was recovered by Rankin after Robledo, Mackey and Nixon had made gains. The Red Devils were stopped on their own 22 by a solid line of Eagles and Donaldson made the tackle.

In the 4th quarter Aquilar was thrown for a 10 yard loss by Griffin. The Rankin team kicked out to the Eldorado 45. There with 1st down and 10 to go, Nixon on an option play pitched out to Robledo who raced 55 yards for a touchdown. Kick for extra point was good and the score was Eldorado 7, Rankin 6.

Rankin hit the Eldorado line with everything they had but with one minute to play the ball went over on downs and rested on the Eldorado 22. The fans were in a frenzy of excitement as time ran out and the ball game was over. Score 7-6 Eldorado.

Rankin made a total of 13 first downs to Eldorado 6. Eldorado completed 3 of 8 passes attempted for a gain of 20 yards. Rankin completed 1 of 8 attempted for a gain of 8 yards. In rushing Rankin gained 144 yards to 122 for Eldorado.

TO ROBERT LEE

Tomorrow (Friday) the local team goes to Robert Lee for a non-conference game. The Robert Lee team has two outstanding back field players, Sawyer and McDonald. Their star lineman is Gibson. Eldorado has seven star lineman and four outstanding backs, which though inexperienced, should prove tough competition for the opposing team tomorrow night.

Two years ago Eldorado beat Robert Lee 27-0. Last year the game ended in a 14-14 tie.

Jackson To Head Religion In American Life Campaign

EDWIN JACKSON

A prominent Presbyterian layman in Schleicher county, Edwin Jackson, was named this past week by the Ministerial Alliance of Eldorado to head the Religion in American Life campaign this fall. Object of the campaign will be to promote increased attendance at all of the town's churches.

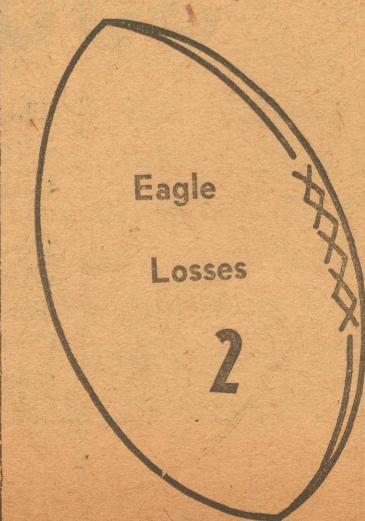

While RIAL has been promoted over the nation for the past nine years, this is its first year in Eldorado and Schleicher county. It is a laymen's movement which extends throughout the month of November and makes use of publicity of all kinds in order to increase church attendance.

In addition to Mr. Jackson as general chairman, the following workers were announced: Mrs. Edwin Jackson, co-chairman; Carroll Ratliff, vice chairman; Fred Watson, attendance; Buster Hale, budget; and Edward Meador, publicity.

Committee members met yesterday, Wednesday, at 4:00 p.m. with the Alliance in the Presbyterian church to discuss further plans. An attempt will be made to enlist the aid of each business and individual in Eldorado in this campaign.

SINGING HERE SUNDAY

Sunday singing will take place at the Memorial building in Eldorado on Sunday, October 6th, starting at 2:00 p. m., according to local singers. Everyone invited.

Dick Preston Receives '57 Good Citizen Award

Picking Starts On Irrigated Cotton

Cotton is being brought in a little faster this week and in a few more days things should be humming. Some farmers have finished picking their dry land cotton. Jack Faught reports 3½ bales on 17 acres. He is through picking. W. E. Bruton reports ½ bale to the acre. He is picking the second time this week. Milton Faught has 35 acres and has already picked four bales. He predicts a crop of about 1/3 bale to the acre.

Irrigated Cotton

Henry and Jene Moore have ginned 15 bales of irrigated cotton to date. They are working 30 braceros and expect to go after more workers by the end of the week. Virgil Gray has had three bales ginned. On the Claude Meador place, picking started Wednesday morning and two bales were out this morning (Thursday).

Clyde Keeney expects to start picking in about ten days. By Wednesday afternoon a total of 198 bales had been ginned, 15 of which were from farms under irrigation. The general consensus of opinion is that everything depends on when we get our first frost. The lowest early morning temperature so far was on Tuesday of this week when the mercury stood at 46 degrees.

ESTERBROOK FOUNTAIN pens, \$2.50 — Eldorado Success.

Richard E. (Dick) Preston was honored at yesterday's Lions Club meeting by being presented with the 1957 Good Citizen award of the club. The award was presented to Mr. Preston by Don McCormick who cited his work in Cub Scouting as partly responsible for his having been chosen for the award this year.

Preston has been Cubmaster of the Eldorado Cub Scout pack for the past four years and is being replaced this fall by Charles Hubbard. He is also on the school board and has served on the city council. He is a teacher in the Sunday School of the First Methodist Church.

The Good Citizen award is made annually by the Eldorado Lions club. Previous recipients have included Gus Love, Palmer West, Drs. Jack Mowrey and Wm. Lindsey, Billy Frank Blaylock, and others.

In other presentations yesterday at the Lions meeting, Buster Hale received a past secretary's pin and W. G. Godwin received a past president's pin.

Nancy Jo Jackson was Lion of the Month from the high school.

Coach Jim Herridge was received as a new member.

The program consisted of a discussion of highway safety by Herman Moore of the highway patrol. In addition to discussing state laws, Moore reported that a patrolman is to be stationed in Eldorado in the near future to serve this immediate area. Moore also commended Schleicher county for having gone all this year without a highway fatality.

People-Are-Nice Department

It seems that the William Brothers, owners of the Flying W Motel of Ozona, give a good brand of service. Their guests get a regular, home sized bar of soap, and of course, each new guest gets a new bar. That finally piles up a lot of slightly used soap. F. Neil Tarvin, the Social Security representative for this area, always stays at the Flying W. One day he had a good idea. Why couldn't he take that unused soap to Boys Ranch at Mertzton. He asked the Flying W and they thought the idea was wonderful. Last Friday when Mr. Tarvin was through Eldorado he had his car loaded with boxes of soap and a lot of little boys at Boys Ranch had real clean necks and ears on Saturday night, because Mr. Tarvin is a man who had a good idea and did something about it.

This past summer I was able to visit with an old friend from Kansas. She is 82 years old but as alert and current as the best. One day she was explaining that it wasn't so easy for her to do the things she once did and came up with this bit of a jingle that I thought was pretty good.

You ask me how I know
That my youth has been spent;
My get up and go
Has got up and went.

But I don't mind
When I think with a grin;
Of all the nice places
That my git up has been.

News On Grocery Shelves

"Jello-O" has a pie filling which is said to make a filling for a 9 inch pie shell in 4 minutes by simply whipping with cold water and sugar. Comes in lemon and strawberry.

Betty Crocker is distributing nationally, a cream puff mix. Comes in sticks, 2 to the box.

All purpose flour is being packaged in a 14 ounce foil covered can with a perforated top. Metal disc cover turns for shaking, spooning or pouring flour. Why hasn't someone done that before?

They are now shredding and cubing the cheese for use. Even supplying the colored tooth picks in the same package. Jams, jellies and soft cheeses are now coming in tubes. No dried out jam—no jars to wash.

This isn't new to eat but it's a new high in advertising. They have at last been able to work up a material which can be used instead of printers ink and smells like the thing being advertised. When a big glass of grape punch is pictured in the paper it smells like grape juice. The latest gimmick is to write to prospective car buyers on paper that smells like the inside of a new car. Seems to me that this idea is going to work. Remember how easy it is to refuse popcorn until you smell it?

Ever have troubles in making cakes? Listed are some common reasons for failures:

Trouble: Cracked top, hump or blisters.

Caused by: Too hot an oven; too much flour.

Trouble: Dry cake.

Caused by: Too much flour; too much baking powder; too little fat, sugar or liquid.

Trouble: Heavy, gummy cake.

Caused by: Incorrect cooling; mixed too little; too much shortening, sugar or liquid; wrong proportions of baking powder.

Trouble: (1) Moist sticky crust; (2) crust peeling off; (3) spotted crust.

Caused by: (1) Too much sugar; (2) Incorrect cooking; (3) Too much sugar or too slow an oven.

Trouble: Coarse grained cake.

Caused by: Insufficient mixing; incorrect oven temperature; too much baking powder.

Trouble: Cake falls.

Caused by: Too little flour; too much baking powder; too much batter in pan; oven too hot.

Standard 1, 2, 3, 4 Cake

- 1 cup fat (best is 1/2 cup butter, 1/2 cup shortening)
- 1 3/4 cups sugar.
- 3 cups cake flour.
- 3 teaspoons baking powder
- 4 eggs.
- 1 cup sweet milk
- 1/8 teaspoon salt
- 1 teaspoon vanilla, 1/2 teaspoon lemon flavoring.

Cream fat and sugar thoroughly. Add flavoring and well beaten eggs, alternately add the flour (mixed and sifted with baking powder and salt) and the milk. Bake in three 7 inch square pans

in moderately hot oven (350) for 25 to 30 minutes.

Make this cake up and freeze it. Comes in handy for iced squares for the concession stand at football games.

Fall weather and football games just naturally call for pop corn balls. Right now get the scissors and clip this recipe and with a dab or two of glue fix it on the inside of a cabinet door so that it can't get lost. Some Friday afternoon about 6:00 o'clock you're going to hear, "Mama, I forgot. I've got to have 2 dozen popcorn balls tonight!"

Pop Corn Balls

- 5 quarts popped corn
- 1 1/2 cups water.
- 1/2 cup white corn syrup
- 1 teaspoon vanilla
- 2 cups sugar
- 1/3 teaspoon salt
- 1 teaspoon vinegar

Keep popcorn crisp and hot in a slow oven about 275 or 300 degrees. Boil sugar, water, corn syrup and salt until it forms a very hard ball when tested in cold water. Add vanilla and vinegar and boil to light crack stage. Slowly pour over corn, stirring well so that every kernel is covered. Press and shape into balls and let cool until hard. Wrap in wax paper.

Adult Education Courses Begin With 85 Enrolled

The P. T. A. adult education course got under way in a meeting in the school auditorium Monday night. Mrs. Edward Meador, PTA president, gave a preliminary discussion and Mrs. Carrol White, who is chairman of the educational program, was registrar.

There were 85 registered for the school which is divided into three courses. Typing registrations totaled 35, Spanish had 38 to register, and Parent Education, under the direction of Mr. Whitis, had 12, with several more due to begin when classes meet next week.

It was voted to begin classes at 7:00 p. m., each Tuesday and to continue until next April. This is the only such program for adults that has been set up in the entire state and many other towns are watching our program with interest. One county official made the comment that these adults are now going to school simply because they want to learn, whereas most youngsters go because they have to. Classes will meet again Tuesday, October 8 at 7 p. m., and those that were unable to attend the first meeting are urged to register at that time.

Courses Offered

The typing course has the largest enrollment to date which shows the need for professional typists and also those who would like to type their own personal correspondence. In this class there were those that had had typing previously and those who were beginners. The course will be set up to take care of both groups. They will also learn business forms, business correspondence, and the working parts of the machine they use.

In Spanish, where the beginners were present with those who had a working knowledge of the language, the instructor will stress conversational Spanish with some instruction in Grammar. School teachers, ranchers, business men and housewives sat together in the class, all with the common desire to learn more of the subject.

In the Parent Education course there are many things of interest to all parents that will help them understand their children throughout their school life. On October 8th the instructor will be A. M. Whitis who will give vocational interests tests similar to those given school students. On October 15th there will be a study on the subject of guidance and counseling given by Mr. Whitis. On October 29 modern methods of reading and evaluations will be given by Mrs. Theresa Carrell who is with the State Department of Education as reading consultant. Many other subjects will be discussed in this course to help the parent understand the problems of the child from pre-school age through college.

The school as a whole is unusual for a small town to undertake as a project, and the interest shown in the coming months will determine its future. It is hoped that it will be a program that is continued from year to year.

Lyndon Johnson Reports On Small Businesses

More than 2300 small business enterprises have gone under in Texas during the last three years, according to Senator Lyndon B. Johnson, and such establishments failed at the rate of 41 per month in the first six months of 1957. In the nation, 10,000 small businesses have gone bankrupt so far this year, Senator Johnson stated.

"The national weekly average of business failures has increased to 272," he said "That is far above the average of any year since World War II. Week after week, the largest percentage of bankruptcies is reported among companies with liabilities of between \$5,000 and \$10,000. These are small firms by any standard of measurement. Unless we can halt this trend and reverse it, we are going to be in serious trouble."

Senator Johnson pointed out that the Senate Small Business committee is holding hearings over the country while Congress is in recess in an effort to develop legislation that will give tax relief to small business. A hearing is scheduled in Dallas in December.

Personnel Change Made By Sinclair

Bill Pannell, who was transferred to Eldorado August 1st as assistant foreman, has been transferred to Kermit by Sinclair Oil and Gas Co., in the production department. He is being replaced in the Eldorado district by Charlie Neill who is moving here from Monument, N. M.

Mr. Neill will occupy the house on the H. F. Thompson lease that is being vacated by Mr. Pannell.

CAR OVERTURNS ON MENARD HIGHWAY

C. R. Jenkins of Dallas escaped serious injury when his car overturned several times Friday night four miles east of Eldorado on the Menard highway. He stated that he dimmed his lights on meeting another car and shortly after passing it, saw a cow in the road. He ran onto the shoulder of the road to avoid the cow and lost control of the car.

Mr. Jenkins sustained bruises and some rib fractures. He was enroute to Eldorado to get his wife and children who had been visiting here.

Mrs. Lynn Alexander is visiting this week in Austin with her son and daughter. She will return to Eldorado Saturday or Sunday.

Visitors in the home of Mr. and Mrs. Ben Hext were his sisters, Mrs. Ray Jackson and Mrs. Ada Hodges from Menard.

Shoemaker's Policy Dropped

An Austin district judge has ordered the state receiver to stop paying premiums on A. B. Shoemaker's giant insurance policy. Value of the gradually diminishing policy was down to \$719,000. At one time the policy would have been worth \$1,000,000 on Shoemaker's death. Money would have been added to the assets of the bankrupt US Trust and Guaranty Co. Shoemaker attempted to kill himself after the company collapsed. His death seemed imminent, and the \$20,000-a-year premiums were kept paid. Now, doctors say Shoemaker may live another 15 years.

School Bus Law

There still are people who don't observe the Texas school bus law, say state officials. Seven were killed in school bus collisions last year. Wide publicity on the provisions of the law are urged by Education, Highway and Safety Department officials. Basically, the laws say:

1. A driver meeting or overtaking a school bus that has stopped to load or discharge passengers must stop immediately. He may then proceed cautiously at not more than 10 miles per hour.

2. Law does not apply in city limits or on a divided highway where the bus is on a different roadway from the other vehicle.

When Mexican nationals are brought in to work in Texas harvests, it is often the first time for many of them to be away from their country, and also it is often their first time to be turned loose in an American grocery store to select their own provisions. Grocers here say it is amusing the things they will select. One bracero showed up at the checking counter here with 4 half-pint containers of sweet cream included in his cart.

A large Mack truck belonging to the Thomas Kale Trucking Co. of San Antonio hit and knocked down the front awnings at Bill Coles Butane Co., and the old barber shop building owned by Fannie Copeland Tuesday morning before 8:00. COUNTY AGENT'S COLUMN

by Tiny Godwin

Schleicher County Agricultural Agent

Seventy-two 4-H and FFA boys took part in range judging at the annual district Soil Conservation supervisors field day, October 1st. Range judging and grass identification has been studied by 4-H club boys in Schleicher county for years. The first contest in the county was in 1938. The idea was so new to both 4-H boys and fathers that the county agent was "nuts." Now, history does not record the first range judging event. The one in 1938 is recognized as one of the many "first" that Schleicher county 4-H boys have enjoyed through the years. Remember that in 1938 there was not a range department yet established in Texas agricultural colleges.

What is range judging? Range judging is a contest that offers a practical way to learn good range management. It can teach the ranchman or 4-H boy to determine the condition of various native grassland pastures and how to manage them. It points the way we need to manage properly one of our most valuable natural resources: grass. Through range judging the importance of native grasses and plants can be better understood.

Through range judging each contestant learns the difference in plants, how grazing effects plant growth, what kind of plants grow on different soils, kind of plants necessary for different range conditions and the management that will improve each range.

In 1955 a record grain sorghum crop for the U. S. was grown. Due to favorable rain conditions and hybrids, 72% more grain sorghum was produced in 1957. The hybrids recommended for Schleicher county are in bulletin form in the county agent's office.

As you push your grocery basket about the grocery store commenting on the price of groceries, remember this one fact, that you are to blame and not the groceryman or farmer. You have demanded the treated milk carton, the nylon carrot bag, the individual cartoned steak wrapped in cellophane. We have demanded these things to the extent that you and I are obliged to support 33 1/3 % of all the people in the U. S. A., because one out of every three persons is engaged in processing agricultural products. Also remember that 11% of the people are on the farm. The farmer certainly does not get blamed, because fully half of this 11% are working somewhere to supplement farm income.

No, none of us cares to go back to the open meat counter, the bulk of vegetables non refrigerated, but let us realize that marketing and processing cost money and we demand these services.

Did you know that if agricultural products were sold on the open market, that is all government programs done away with, that all farm commodities would drop 25% the first day and gradually become lower until all farmers would be out of business?

Government farm programs play a big part in our economy and will be with us for some time to come.

The most dangerous time of your life has come when you begin to take yourself seriously.

and by placing emphasis upon the Scout Oath and Law for character development, citizenship and physical fitness.

"We are organized to meet this challenging commission," he continues. "Nowhere among the nations of the world has a program predicated on voluntary participation by members and their leaders attracted so many of its membership. Today more than 3,300,000 boys are enrolled.

"Almost one out of every three boys of Cub Scouting age in America now belong," he said. "Better than one out of every four boys of Scouting age now belong, and in the group of the Explorer age (14 and older) we have the remarkable result of reaching one out of every eight."

"Almost one out of every four, or 23%, of the boys in America of our program ages," said the Chief Scout Executive, "are being exposed to the Cub Scout Promise or the Scout Oath and Law, and a program designed to develop loyalty to God, the character of the individual, and qualities of good citizenship.

"Likewise, the 1,200,000 adult leaders represent an unselfish volunteering of time given by men and women through Scouting in the interest of God and in the interest of our country. It represents a dedication of 1,200,000 individuals to maintain freedom in America and in the world through the proper training of our youth. It represents a significant bulwark in blocking the communist march."

Assisting in achieving the objectives of Scouting within the Concho Valley Council are over 2,000 adults giving volunteer service in the 202 units and on the local council level. To better serve youth, over 500 of these leaders took training last year in Scouting techniques and boy leadership.
