

Austin.—Legislature goes into the final stretch of the regular session with the possibility of a photo finish.

Individual lawmakers alternated between hope and despair about the prospect of getting all-around agreement on a tax plan by May 29. Many expressed fear of home district criticism if matters are allowed to drag through the summer, as happened in 1959.

In the final, chips-down stage, it looked like a Governor vs. Legislature battle. A majority of both houses has gone on record for tax plans which have a fairly general 2% sales tax as the major revenue source. Gov. Price Daniel says, in effect, that he doesn't want to be hard to live with but he isn't about to back down on his 25-year anti-sales tax stand.

Senators re-worked the two major tax bills sent them by the House—the 2% sales tax and the all-purpose "loophole bill"—into a combination package. In the package was a 2% sales tax on items of 25 cents and more (with exemptions on food, drugs, etc.), an increase in the natural gas production tax from 7% to 8%, and a hike in the corporate franchise tax. They also jacked up the driver's license fee from \$2 to \$3.

Senate sponsors estimate that it would raise \$327 million in the next two years.

Sen. A. M. Aikin Jr. of Paris made an effort to get the senate to substitute a bill favored by the governor that would limit new general sales taxes to items costing \$10 or more. It also would have levied selective taxes on motor tools and appliances, building materials, stock sales, restaurant meals, etc.

Senate turned down the governor's substitute, 17-to-14, then gave final passage to its own bill, 19-to-12.

Loan Bill Delayed

Tax matters delayed Senate progress on legislation to regulate the small loan industry.

A re-worked version of the loan bill passed by the House was prepared by a special subcommittee of the Senate State Affairs Committee. In general, the Senate subcommittee's bill appears to allow for higher charges on smaller loans and lower charges on larger loans. It sets up a schedule of "service charges" that are not to be considered interest.

Whatever the outcome, hopes for passing a loan bill that will satisfy interested groups are nil. If charges are low, the bill will be criticized for "putting loan companies out of business so poor people can't borrow money." If rates are high, it "legalizes the sharks."

Driver Law Tightened

House passed on second reading a bill that would put more pressure on drivers who do not carry liability insurance or have the means to pay for an accident.

Reps. Ben Lewis of Dallas and Robert Fairchild of Center, sponsors, pointed out that only about 60% of Texas drivers carry insur-

To Participate In State Interscholastic League Meet

LYNDA MCGINNES

JUDY HEXT

Lynda McGinnes will compete in voice and Judy Hext in piano when the State Interscholastic League Meet is held in Austin June 8-9. Mrs. Oliver Teele will accompany them. Miss McGinnes is the daughter of Mr. and Mrs. Elton McGinnes and Miss Hext is the daughter of Mr. and Mrs. Jack Hext.

The girls won first in regional contests in Abilene in voice and piano.

ance.

Among provisions of the proposed bill is one that would cause a driver to lose his license if convicted of two moving traffic violations within a year and he did not carry insurance.

Redistricting Approved

Despite disappointments and conflicts, a legislative redistricting bill has passed both House and Senate.

Sen. Jep Fuller carried on a nine-hour filibuster against the Senate portion of the bill. Fuller protested that Jefferson County (Beaumont-Port Arthur) has more than enough population to be a one-county district. In the bill Jefferson is placed in a district with Orange county, as before.

Nor is all good cheer in the House where a number of members face the prospect of running against each other. Many rural areas with dwindling populations were enlarged or combined with other districts.

Rep. Will Ehrle of Childress, who is placed in the same district with veteran Rep. Bill Heatly of Paducah, has announced that he has given up the idea of running for speaker next term.

Club Regulation Passed

A bill to license and regulate private clubs serving liquor by the drink gained final House passage.

Rep. Tom James of Dallas, sponsor, declared it was a law enforcement measure needed by the Liquor Control Board in order to halt saloons in the guise of private clubs. Opponents declared it would legalize liquor by the drink.

Under the bill, clubs would pay annual license fees ranging from \$500 to \$10,000. James noted it would bring in some \$2,500,000 a year.

"Sit-ins" Are Target

A bill aimed at outlawing "sit-ins" and "stand-ins" has received preliminary House approval.

Rep. Lloyd Martin of Norman is author of the bill. It would provide a fine of \$200 for persons who refuse to leave a business establishment after being asked to do so.

Tax Refund Ordered

State must return to several Dallas liquor stores \$89,246 in liquor taxes paid under protest, says the State Supreme Court.

These are taxes paid by the

stores on liquor in stock before the effective date of an increased tax passed by the Legislature in 1959.

Not involved in this suit is another \$73,937 in liquor taxes paid under protest under the same circumstances.

DPS Exams Announced

Young men between 21 and 35 may make application through June 9 to attend the next school for state highway patrolmen. Department of Public Safety has announced that men meeting the patrol's standards will take exams in several cities June 13, 14 and 15. Prospective applicants may write to the Department of Public Safety at Austin for information.

Flood Of Bills

With the clock running out on this session, a large volume of bills is being moved at a swifter pace. Riding in the flood are bills that would:

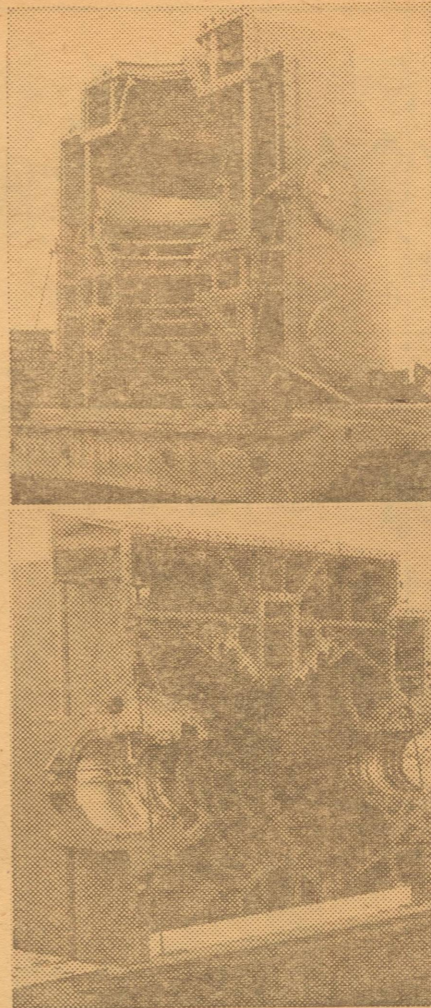

1. Take the University of Houston into a state-supported college system. Bill finally passed the Senate after nearly a month of delays, but must be passed again in the House.
2. Provide up to \$12 a month for medical, hospital and nursing care for persons on the state welfare rolls. Passed by Senate.
3. Recodify the school laws and cut the number of hours future teachers must spend in courses on how to teach. Passed by the House.
4. Allow for payment of state aid to school districts on the basis of the present year's attendance rather than the previous year's. Passed by the Senate.
5. Outlaw sale of obscene pictures, books, magazines or phonograph records. Passed by House. Penalty for violation would be a fine up to \$2,500, a prison term up to two years or both.
6. Increase the annual barber's license fee from \$5 to \$10 and set up higher requirements for barber colleges. Passed by House.
7. Allow the Veterans Land Board to sell forfeited lands to persons other than veterans. This is a constitutional amendment and would have to be voted on by the people. Sponsors said the measure was aimed at providing a way for the state to get back money involved in the "block deals" that erupted into the "land scandals." Passed by Senate.
8. Require registration of pest extermination services with the State Agriculture Commissioner. Given preliminary Senate passage.
9. Reorganize the State Water Board as the Texas Water Commission with a three-man board for policy making and a chief engineer to administer the department. Passed by the House.
10. Set filing fees for candidates for state office in general or special elections at 5% of a year's salary. Passed by House.
11. Require cities whose firemen are in the state pension plan to contribute more to the pension fund. Given preliminary House passage.

Short Snorts

Texas Railroad Commission has ordered the present eight-day production pattern for the oil industry continued through June. But since June has only 30 days, compared to 31 in May, the daily allowable for June will be up by 48,013 barrels a day for a daily flow of 2,702,699 barrels.

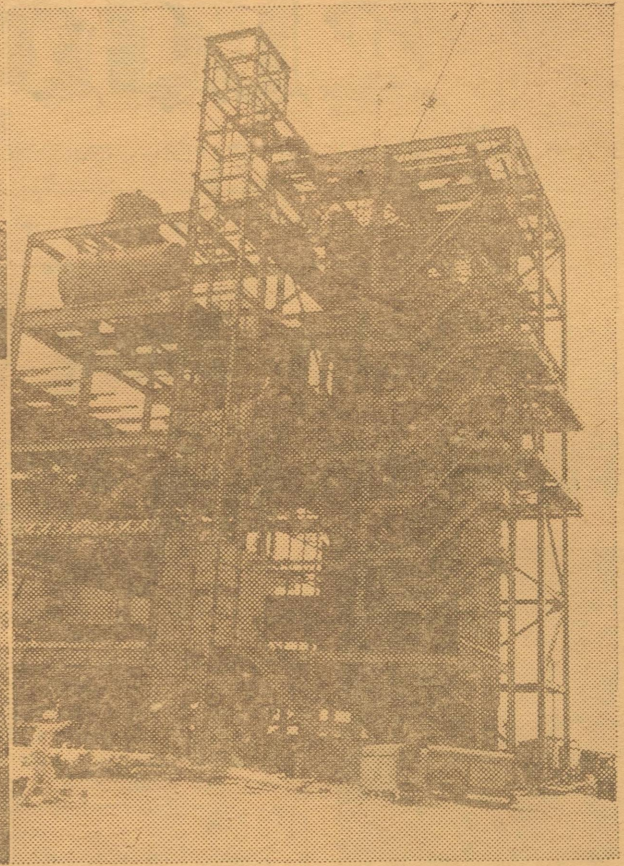

Texas Employment Commission has launched a "hire now" drive in an effort to take up the slack in the Texas labor supply. Employment in Texas has increased in the past few weeks, says a TEC spokesman, but is still lagging behind this period last year.

Mr. and Mrs. W. W. Sudduth visited in Santa Anna recently with Mrs. Sudduth's parents Mr. and Mrs. Amos Taylor and to be with two of her sisters, Mrs. Elgie Spence of Van, Nuys, Calif., and Mrs. Vonelle Estes of Tulane, Calif., who were in Texas for a visit with relatives and for the wedding of Mrs. Estes's daughter.

HOW TO INVEST TEN MILLION DOLLARS

These recent photographs show construction progress on the new generating station at Oak Creek Lake, and some of the massive equipment to be used in it. Huge size of the equipment can be seen by comparison with the flat cars which transported it.

Symbol of the Future

Any way you look at it, an investment of \$10 million in future growth is evidence that we are convinced this growth is coming.

The new generating station at Oak Creek Lake—costing in excess of that figure—is showing rapid construction progress.

But it is only one phase of WTU's long range expansion plans. Still another such station is on the drawing boards, as well as major additions to our transmission and distribution system.

This is the way we are preparing for coming growth in our service area—from the Red River to the Rio Grande. It is a SYMBOL OF THE FUTURE in the Center of the Southwest.

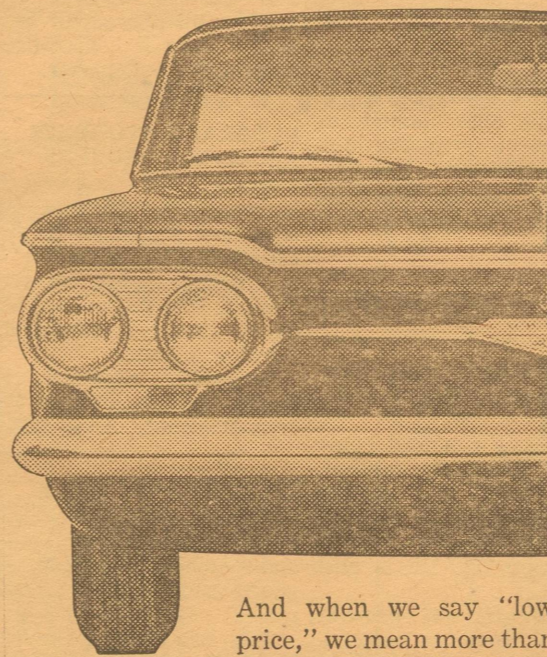

Mr. and Mrs. Curtis Eisenbach and children, Gary and Cindy, visited in Eldorado Sunday with Mrs. Eisenbach's sister, Mrs. Alma Sauer and family and with her mother, Mrs. Emma Castello who

is here for a month's visit.

Bill Works, Schleicher county game warden, will devote some of his time this summer in helping with the Boy Scout program at Camp Sol Mayer near Fort McKavett.

Mr. and Mrs. Dee Jay Garvin visited this week end in San Angelo and in Rising Star with her parents Mr. and Mrs. Sam Nichols.

LOW PRICE IS ONLY HALF THE STORY

(The other—and even more satisfying—half you'll discover the first time you drive a Corvair!)

And when we say "low price," we mean more than merely the pint-sized figure on the window sticker of a new Corvair. You're going to be saving like sixty on gas. And on the antifreeze you won't buy next winter, and the radiator repairs you'll never have to pay for. About the only things Corvair doesn't skimp on are room, smoothness, style and pure driving joy. But that's the other half of the story. Talk to your Chevrolet dealer about it soon!

See the new Corvair at your local authorized Chevrolet dealer's

Miss Baker Engaged To Robert Duwain Sauer

CYNTHIA ANNE BAKER

The engagement of Miss Cynthia Anne Baker to Robert Duwain Sauer, Fort Ord, California, has been announced by her parents, Mr. and Mrs. Clyde A. Baker of Fort Worth.

The prospective bridegroom is the son of Mrs. Alma Sauer and Victor Sauer of Eldorado.

The couple will be married Oct. 14th at 8:00 p.m. in the Ridgley Methodist church, where a reception will be given in fellowship hall.

Honor attendants will be Mrs. W. H. Humphries, sister of the bride-elect and Billy Van Dusen of Eldorado. Joy Sauer, sister of the prospective bridegroom, will be flower girl, and Mark Humphries will be his aunt's ring bearer.

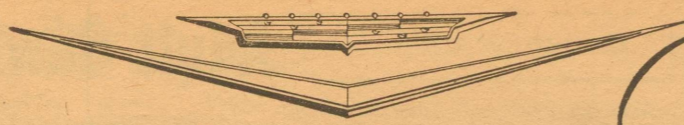

Miss Baker was graduated from Arlington Heights High school and attended Texas Wesleyan college where she was a member of Entre Amis and Gamma Omicron. Her fiancé, who also attended TWC, is a graduate of Eldorado High school.

PAIR UNINJURED IN EDEN PLANE CRASH

Less than 100 feet to go and all might have been well. As it was a two-placer Beechcraft Bonanza was totally damaged and the two occupants, Gerald Dennis of Santee, Calif., the passenger, and Vic Ancona, the pilot, of San Francisco, escaped injury, and walked about 1 1/2 miles south to the highway where they caught a ride to San Angelo. —The Eden Echo.

SONORA PAIR TO ATTEND U. OF T. SCIENCE SYMPOSIUM

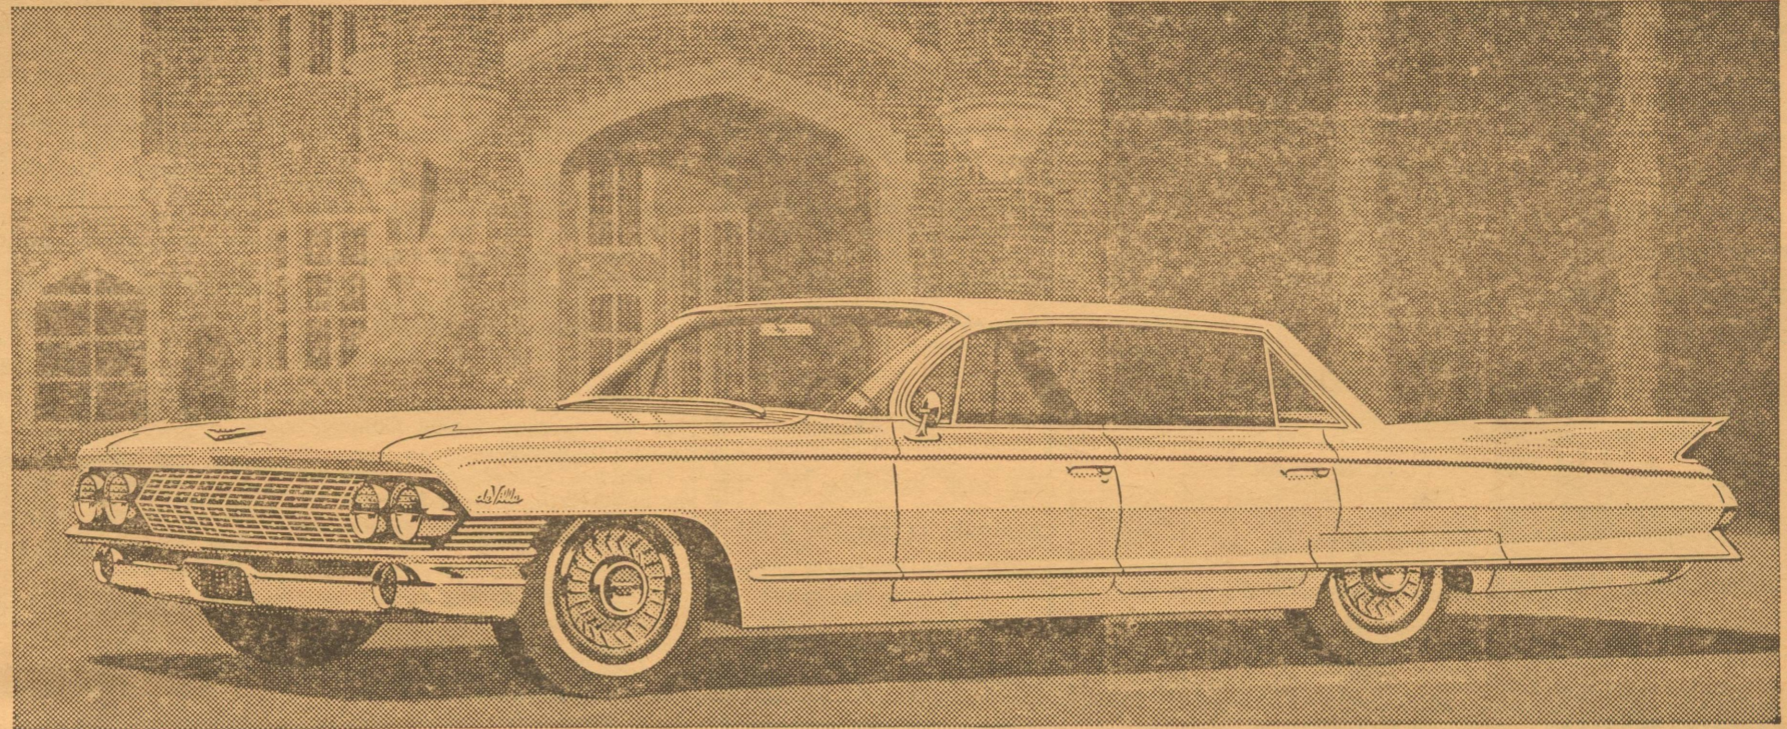

Jimmy Cahill, senior student at Sonora High school, and Mark E. Abernathy, high school science instructor, are two of some 400 elected high school science students and teachers from all over Texas who will attend a nuclear science symposium in Austin June 11-14 at the University of Texas. —Devil's River News, Sonora.

Durability

Cadillac has achieved a degree of durability still sought by other cars. Through every phase of its careful manufacture and assembly, Cadillac is in the capable hands of proud and devoted craftsmen. And all along the way, there is

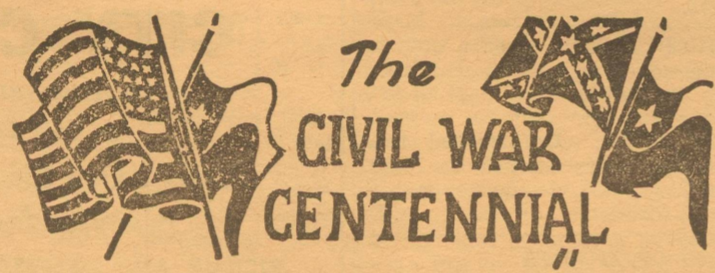

the protection of more than 1,400 separate inspections. This excellence translates itself into superior operating economy and resale value . . . two qualities among many that make Cadillac your soundest motoring investment.

CONCHO AND PLUMB

SONORA, TEXAS

By Dayton Kelley
Mary Hardin-Baylor College
Belton, Texas

The story in this space about the Knights of the Golden Circle a few weeks ago inspired several people to write and offer information about that little-known group of Southern sympathizers who operated in a wide area all the way from Pennsylvania and Indiana on the north to the islands of the West Indies and Central America on the south.

The Knights were particularly active in the days just preceding

the secession of the Confederate states from the Union and dozens of influential figures of these states were said to be members of their organization. Little has been written about them and because of that fact, the information which came from readers of this column, was particularly welcome.

Milam L. R. Wade, a Dallas attorney with offices in the Kirby building and a collector of original materials dealing with the Civil War, graciously offered to show us his collection of broadsides, letters, maps and other items and told us about a little book in his collection which strongly advocates the program of the Knights without mentioning them by name. Written by M. T. Wheat and entitled "Wheat's Philosophy of Slavery," Mr. Wade's book is a second edition and was printed in 1862 in Louisville, Kentucky.

The remarkable thing about the book, according to Mr. Wade, is that he has been unable to find an entry or it in any auction sales record, nor is it listed in the catalog of books in the Congressional Library. Neither is the author mentioned in any encyclopedia or book of biographical sketches.

Always interested in learning more about the Knights of the Golden Circle than that which is published in standard works, we hope to take a closer look at Mr. Wade's book, as well as his other items. Horace Sherman Miller of Waco says that he too, has a book dealing with the Knights and offers the information that more material may be found in the Texas Collection at Baylor University under the heading "Aryan Knights Ku Klux Klan. Mr. Miller's book is the hefty 632 page Senate Report No. 41, part 1, 42nd Congress, 2nd Session, dated 19 February 1872.

And O. W. Silvey of College Station wrote a long letter setting forth some of the activities of the Knights in Indiana during the war.

Mr. Silvey's father-in-law, in 1857, married a Quaker girl who lived near the southern boundary of Howard county, Indiana. Soon after the marriage, the couple was visiting the bride's parents when, during the night, members of the Knights stoned the house. The family protected themselves from the stones that came through the window by crawling under the beds.

The bride's father had been active in helping slaves escape thru the "Underground Railroad" into Canada and the attack by the Knights was doubtless provoked by his actions.

Mr. Silvey grew up near Indianapolis and related that he often heard men and women talk about the Knights during his boyhood days. He remembers that it was said of them that they drilled on Sunday of each week and used mullein stalks for guns. The members in the northern part of Mar-

ion county, Indiana, used a badge of recognition made by sawing a mid-section lengthwise from a butternut.

According to Mr. Silvey, the Knights were most active in Indiana in 1863 and a group of them gathered in Indianapolis on May 20 of that year when a Democratic meeting was in progress. They were stopped by Union artillery

mounted near the railroad north of that city.

The author of the best-selling "Raintree County" a few years ago used the Indianapolis meeting of May 20, 1863 in his story and Mr. Silvey says that although the site of the story is not given, one may infer that it was east of Indianapolis near the village of Knights-town—a name we presume was

derived from the activities of the Knights.

change from alkalinity to acidity or from acidity to alkalinity.

4. During decomposition, a continuous supply of carbon dioxide, nitrogen in various forms, phosphorus and other nutrients so essential to plant growth is liberated.

5. Serves as a storage facility for minerals, such as calcium, magnesium, nitrogen—that would be lost in drainage or water seepage.

6. Makes for more favorable and vigorous and rapidly developing root systems of young plants.

Continuous cultivation or overstocking gradually lowers the organic matter of your soils. The level may become so low that maximum production cannot be obtained. Addition of organic residue for cultivated land or cover on grazing land will offset this condition. Cotton, a clean tilled crop, does not produce much residue. For this reason you need to restore regularly organic matter which is lost during cultivation of the crop.

You will find things you don't need; buy with money you don't have, to impress people you don't like.

12 to 15 pounds of nitrogen added per ton of burs is beneficial in the following ways:

1. It hastens the transformation of cotton burs into active organic matter.

2. It results in a larger amount of active organic matter from a given quality of crude cotton burs.

3. It produces an additional supply of available nitrogen for the crop that follows.

4. It prevents depression of yield which might result by plowing under heavy applications of cotton burs.

County 4-H club wool show is scheduled to be held on the courthouse lawn Friday, May 26, at 2:00 p.m. In case of inclement weather the show will be held at the Schleicher county livestock barn.

4H boys exhibiting wool at the show will be: Gary Whitten, Charles West, Joe Charles Christian, John McGregor, Jimmie O'Harrow, Kirk Jones, Rickie Jones, and Sue Edmiston.

The first five fleeces of the yearling ewe and aged fleece classes will be shown and in competition with other counties at Menard May 29th at 9:30 a.m.

Nothing harmful can enter your mind, except by your permission.

CORRECTION

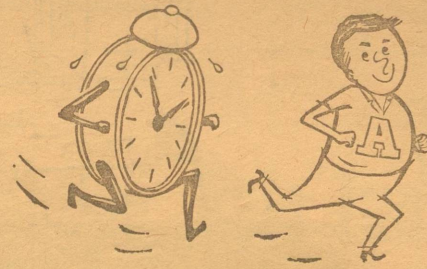

In last week's graduation edition of the Success, it was stated that Johnny Faull had plans to be married in the Fall. Johnny Faull has brought it to our attention that he has no immediate plans for marriage and will either enter the Navy soon or go to college.

Mr. and Mrs. Robert L. Jay, Joe Christian and Steve Blaylock of Eldorado and John Walker of Robert Lee all attended a model airplane contest in Lubbock Saturday. They returned by Robert Lee and spent the night with Mr. Jay's parents. Drexell Shipworth accompanied them home for a visit.

Mr. and Mrs. Truett Kent Stanford and children of Andrews are visiting here this week with their parents, Mr. and Mrs. Lester Nixon and Mr. and Mrs. Truett Stanford. They also attended graduation exercises here.

Mrs. Joe Garvin left Tuesday for Cleburne for a visit with her daughter and family, Mr. and Mrs. O. V. Wallace. On Friday they will go to Bryan for the graduation of her grandson, Carrol Don Wallace, from A&M College.

Guests in the home of Mr. and Mrs. W. W. Sudduth Saturday were Mr. and Mrs. Ernest Jones of Weslaco and Mr. and Mrs. Jimmie Jones and two children of Winters. Other guests included Mr. and Mrs. Ronald Cade of Abilene. Mrs. Cade is the former Dahlia Davis, and is a grand daughter of Mr. and Mrs. Ed Davis of Eldorado, whom she also visited.

Visitors in the home of Mr. and Mrs. P. H. Alcorn this week end were Mr. and Mrs. Lloyd Alcorn of Odessa.

COUNTY AGENT'S COLUMN

by *Tiny Godwin*

Schleicher County Agricultural Agent

Dick Runge, son of Mr. and Mrs. Forrest Runge, a Junior at A&M College, was selected as the outstanding individual in the range and forestry division recently. This honor carries a Sears Roebuck foundation award of an all-expense trip to study range and forestry in June of 1961.

Dick will fly to Brownsville, then to Dallas, on his tour; then to Vera Cruz, Old Mexico, for study for rare plants in an area where few inhabitants live.

Dick was an outstanding 4-H boy while in Eldorado high school and was on a state range judging team which was sponsored by the Southwest Texas Electric Co-Op.

Mrs. Vida Kerklow, HDA, and the County Agent's office have explanatory booklets available on the Peace Corps and applications available for any interested person.

Gerald Hartgraves, president; Jo Ed Hill, vice president, and Mrs. M. H. Woodward, sec-treas., were the officers appointed for 1961-62 by the County Planning Board in a meeting last Thursday. The Planning Board is made up of representatives of county business and industry.

Purpose of the organization includes all fields where "the life-blood of any individual, family, community or county derives its social, physical, development; both financially, and life and growth of all."

The county program building committee shall advance and promote the prosperity, well being health and freedom and safety of all citizens of Schleicher county,

without restricting any organization, but helping by identifying county problems and to facilitate their solution.

By: (1) Assembling and collecting all up-to-date information; (2) Analyzing the basic facts, (3) Determine priority of needs and interest of people and integrate all parts of a county wide program; (4) Educational objectives and goals relative to the needs and interest; (5) Relating the program to other programs of the county; (6) Records are kept by planning activities of all committees.

Members and officers recognize their responsibilities for the entire building process—planning, execution of plans and evaluation of past work. All resourceful people will help, including:

1. Professional workers in agriculture and business and industry.
 2. Special in commodity groups and planning.
 3. And other skilled workers.
- Twenty-five members were present.

Organic matter is the storehouse of plant nutrients in your soil. It is literally the "fat of the land." Organic matter results from the decomposition of plant and animal materials by soil organisms. On the average it controls 56% carbon and 5% nitrogen.

Of what value is organic matter in the soil?

1. Improves soil structure and rate of infiltration and water storage capacity.
2. Improves soil aeration, loosens dense compact soils, giving a friable, crumb structure.
3. Exerts a strong influence on the exchange capacity of the soil, serves as a buffer to prevent rapid

The ELDORADO SUCCESS

A Bishop Looks At Life

By Everett H. Jones, Bishop of
The Episcopal Diocese of West Texas

A CHRISTIAN INVENTORY

We live in an age of questionnaires and forms to be filled out. Recently I have seen a new twist on this contemporary occupation. It is entitled: "Who Am I? A Census Form for Christians." After some personal vital statistics are asked for, there is the question: "Where is your neighbor?" Beneath this question is the request: "Locate your nearest un-churched family or person; your nearest shut-in; your nearest aged person or persons; your nearest community blight." Then is added the strange question: "Where is your nearest non-neighbor?"

Under the heading of "Family Status," there is the interesting question: "Who is the head of your household?" Possible answers are listed as: "Father, Mother, Both, Children, Some Other Person. (If no one is in charge, explain.)"

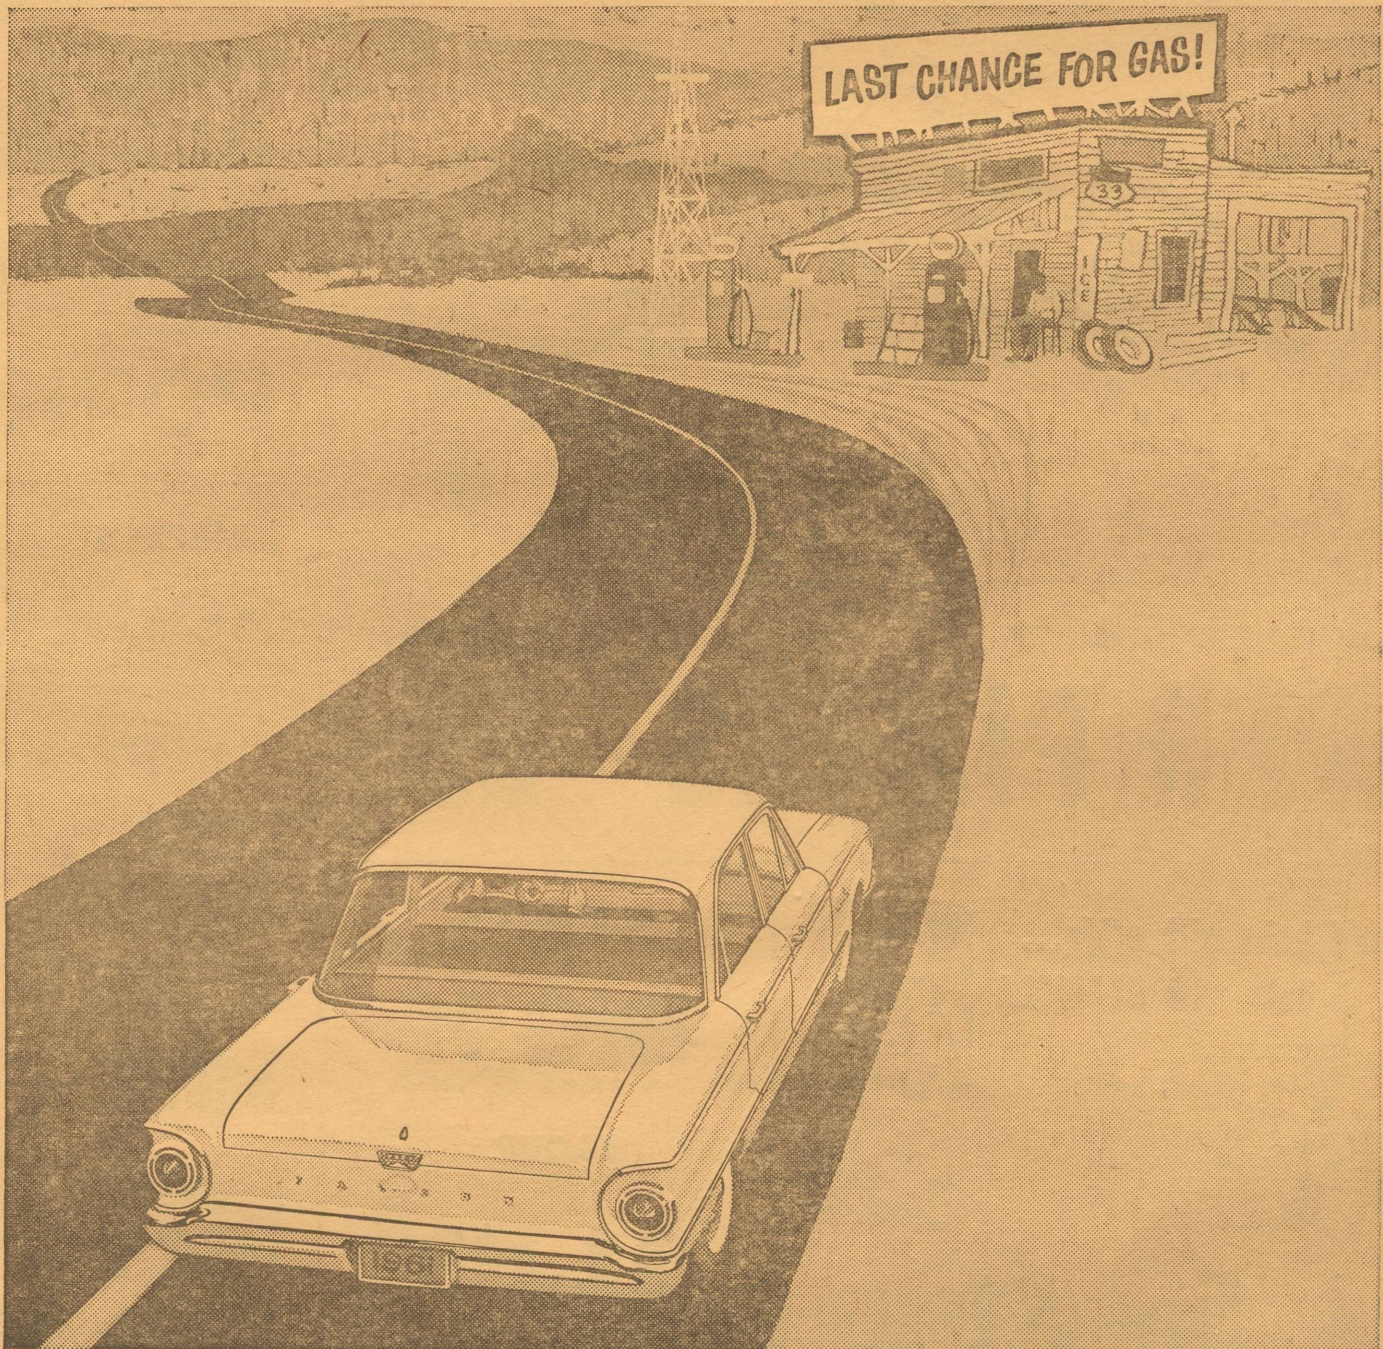

In regard to parental attitudes toward children, there are listed these possibilities to choose from: "Firm discipline; love and spank;

children are people; reason, explain and argue; they imitate us, so . . . ; this stage, too, will pass."

There is a heading for occupation, in which the individual is asked to estimate the general nature of his kind of work. The possible answers are: "Keeps bodies alive; helps man live with his fellow-man; improves human welfare; write your own." Then is added the statement: "If you were a better Christian in your work, it might: Go unnoticed; be embarrassing; lead to bankruptcy; make the job bearable; improve your work; increase business."

In terms of stewardship, the questionnaire asks for an estimated percentage spent on the following: "Necessities, luxuries, family improvement and welfare, church and charity, savings and investment, sheer waste, unaccounted for."

All this sounds very modern, but long ago we were admonished "Examine yourselves, to see whether you are holding to your faith." (II Cor. 13:5)

forget it!

The way Falcon can stretch a gallon of gas is nothing short of remarkable! Witness Falcon's record-breaking performance in the recent Mobilgas Economy Run. There, a stock-model 1961 Falcon Tudor Sedan with standard transmission delivered more miles per gallon than any other 6- or 8-cylinder car in the 25-year history of the Run . . . averaging a phenomenal 32.6 miles per

gallon for the rugged 2,500-mile trip from Los Angeles to Chicago.

And get this—you'll save up to \$505* when you buy Falcon because it's the lowest-priced † 6-passenger car made in the U.S.A.

Any wonder why over 620,000 buyers have made Falcon the world's most popular new car? See your Ford Dealer for the best buy in town—a '61 Falcon!
